M'KISSON WAS BEATEN

Rest of Republican Ticket Elected at Cleveland.

JONES WAS CHOSEN AT TOLEDO.

yirst Republican Mayor In 12 Years Elected at Columbus-Republicans Carried Cincinnati - Democrats Elected Their Candidates In Various Cities.

CLEVELAND, April 4.- John H. Farley, Dem., was elected mayor over Robert E. McKisson, Rep., the present incumbent, by a plurality of about 3,500. The first returns indicated a much greater victory for Farley, but his plurality was cut down by later returns. The remainder of the Republican ticket, including y treasurer, police judge, police pros ut , justice and four members of the school council, elected at

MAYOR JONES OF TOLEDO.

large, will have substantial pluralities. The Republicans will control the city

McKisson's defeat was due to the defection of Republicans who voted against him because of his betrayal of Senator Hanna and his party during the contest before the legislature a year ago last winter. The whole ticket suffered somewhat on account of the opposition to McKisson, but not enough to defeat any of the other candidates.

TOLEDO, April 4.—Mayor S. M. Jones, who was a candidate on an independent ticket with a platform of municipal ownership of utilities, was elected by at least 5,000 plurality and probably a majority over all. Returns seemed to show that the regular Republican ticket, except for mayor, has been elected by a

Corporal Patrick Henehen, the Democratic candidate for city attorney, was probably elected. He is with the Sixth Ohio in Cuba, and his returned soldier friends of the Tenth Ohio turned out, irrespective of party, and pushed him through. George W. Acker, Democrat, has been elected police commissioner. The remainder of the regular Republican ticket has been elected.

With the return of Mayor Jones to his place, the question of the city purchasing an electric lighting plant and other public utilities will come before the council and the people will be given an opportunity of voting on the same and they will no doubt sanction the pur-

COLUMBUS, April 4.—Samuel L. Black, Dem., mayor of Columbus, was defeated for re-election by Samuel J. Swartz, Rep., former police judge by a decisive majority. The election was fought on strictly party lines, however, and was one of the most bitterly contested in the history of the city. Judge Swartz is the first Republican elected mayor of the city in 12 years. His plurality was estimated at 1,393. The city is normally Republican by about 1,000, though it has given majorities of upward of 3,000. Heretofore local issues and factional fights have operated against the Republicans, but united action was secured by an agreement which gave Judge Nash, who is a candidate for the Republican nomination for governor, the solid delegation from Franklin county in the coming state convention. All other candidates on the Republican city ticket were

CINCINNATI, April 4.—The Republicans had a plurality of about 7,000. The present Democratic mayor was elected two years ago by almost as large a plurality. At Dayton the Democrats made municipal gains, but the Republicans gained in the township. The Western reserve maintained its usual Republican majorities, with some gains over those of former April elections, notably at Youngstown, Warren, Cadiz, Dela-ware and other cities in Northwestern Ohio. In the smaller cities, as well as in the rural districts, the Republicans claimed gains, notably at Chillicothe, where there was a change, Mayor Brown being defeated for re-election by

James Wood by about 300. At Defiance the Democrats lost two councilmen and a member of the board of education. At Hamilton the Democrats maintained their majorities; also at Lima, Newark, Circleville, Upper Sandusky, Wapakoneta, Millersburg and Van Wert. At Zanesville and Marysville the Republicans were successful, and they made gains at Napoleon. As a rule the vote was light. At Canton, regained consciousness.

the home of McKinley, James Robertson, Republican, was elected Mayor by about 13 plurality, a change from the present Democratic administration.

! RIBUTE TO SOLDIER DEAD.

President Ordered Military, Naval and Other Honors During Burial at Arlington.

Washington, April 4.—The president issued the following executive order:

It is fitting that in behalf of the nation tributes of honor be paid to the memories of the noble men who lost their lives in their country's service during the late war with Spain. It is the more fitting inasmuch as in consonance with the spirit of our free institutions and in obedience to the most exalted promptings of patriosm, those who were sent to other shores o do battle for their country's honor ander their country's flag, went freely rom every quarter of our beloved land ach soldier, each sailor, parting from ome ties and putting behind him private nterests in the presence of the stern smergency of unsought war with an alien or, was an individual type of that devonakes our nation strong in unity and in ction.

Those who died in another land left in nany homes the undying memories that t end the heroic dead of all ages. It was iting that with the advent of peace, won by their sacrifice, their bodies should be cathered with tender care and restored to some and kindred. This has been done with the dead of Cuba and Porto Rico. Those of the Philippines still rest where may fent, watched over by their surviving omrades, and crowned with the love of a rateful nation.

The remains of many brought to our nores have been delivered to their fami ies for private burial. But for others of ne brave officers and men who perished here has been reserved interment in ound sacred te the soldiers and sailors smid the tributes of military honor and national mourning they have so well deserved. I therefore order that upon the irrival of the cortege at the national cemand naval honors be paid to the dead heroes: that suitable ceremonies shall attend their interment; that the customary atute of mourning be fired at the cemetery, and that on the same day at 2 o'clock p. m., Thursday, the 6th day of April, the national ensign be displayed at half mast on all public buildings, forts, camps and public vessels of the United States and that at 12 clock page 15 States, and that at 12 o'clock noon of said day all the departments of the government at Washington shall be closed.

WILL CARE FOR THE WIDOWS.

Half-Brother of Captain Capron Appointed to a Good Office.

appointed Webster Vinson paymaster in the regular army, with the rank of major. The vacancy was caused by the death of Colonel Glenn. Major Vinson is a half brother of Captain Allyn Capron of the First artillery, who died of disease contracted in Cuba, and an uncle of Captain Allyn Capron. Jr., of the rough riders, who was killed in the first

charge at San Juan. Major Vinson is the sole support of the widows of the Caprone, and when the case was presented to the president last fall he said he would make the appointment when opportunity offered, as it would be a part of his policy to make such recognition of the relatives of those who lost their lives in the war.

Alger Reported All Well.

Washington. April 4.—A telegram was received at the war department from Secretary Alger at Santiago saying that all the members of his party are well. He made no mention of political affairs on the island and is silent as to his future movements.

TO CHECK THE MORMONS.

Methodist Minister Asks That Roberts Be Expelled-Power of the

NEW YORK. April 4.—The Rev. Dr. Thomas C. Iliff of Salt Lake City addressed the Methodist preachers' weekly meeting in this city on "The Present Situation In Utah." In the course of his address Dr. Iliff said:

"If Brigham H. Roberts is permitted to sit in congress it will be interpreted in every Mormon hamlet as the fulfillment of Brigham Young's prophecy and also as nationalizing polygamy. The Mormons will redouble their energies. Already they may be said to hold the balance of power in Idaho and Wyoming, and they are very strong in Nevada, Arizona and in Southwest Colo-

"The other day the wife of a senator from a state adjoining Utah, herself a Methodist, was asked to use her influence on behalf of our crusade. She replied that she could not do anything about the matter. That shows the Mormon influence in politics.

"We ask that congress shall expel Roberts. We at first petitioned that he be not received, but after conferring with Senator Edmunds and others, we think that the proper procedure is to expel him."

Was Stricken In His Pulpit.

WEST CHESTER, Pa., April 4.—Rev. Mr. Wood, pastor of the Hopewell M. E. church in East Brandywine township, died at the M. E. parsonage at Guthrieville, after a stroke of paralysis. He was stricken while conducting Easter services in his church and fell to the floor on the pulpit platform. He never

Otis Sent Good News From the Philippines.

SOME NATIVES RETURNED HOME.

General Also Announced News From the Visayan Islands Was More Encouraging - Congratulations to Otis From Dewey-Oue Otis Coming Home.

WASHINGTON, April 4,-The department officials were pleased by this cheering dispatch from General Otis:

"MANILA, April 3. Adjutant General, Washington:

"Present indications denote insurgent government in perilous condition; its army defeated, discouraged and scattered. Insurgents returning to their homes in cities and villages between here and points north of Malolos, which our reconnoitering parties have reached, and desire protection of Americans. News from Visayian islands more encouraging every day. Oris.'

It contained a great deal of encourage ment to them, and those who know General Otis well say he is not a man to take a roseate view of a situation unless there is reason for it. It is argued at the department that the Filipinos have never been used to the kind of warfare that the Americans have given them, and for that reason they are now aware that it will be impossible for them to accomplish anything by fighting. While there is disappointment because the movement for the capture of a large force of Filipinos was not successful, it is believed the pressing of the insurgents steadily toward the north, capturing their capital and driving them from place to place, has had a very discouraging effect upon the natives who have been following Aguinaldo.

It is evident by the reference which General Otis makes to reconnoitering parties that he is having the country thoroughly covered and that the information which they are giving him is the basis of the dispatch received. It is believed that desertions will soon deplete the army of Aguinaldo to little or

That portion of the dispatch relating to the Visayans refers to the operations Washington, April 4.—The president of which Iloilo is the base. The group includes Panay, Bohol, Cebu, Negros and others of less importonce. The rebellion against the United States authority was not very serious in these islands, being stirred up by emissaries of Aguinaldo at Iloilo. The constant defeat of Aguinaldo's forces north of Manila has no doubt had a depressing effect upon other insurrectionists.

Manila, April 4.—The natives continued returning to their homes Monday. They were coming in all along the American lines and many of them, seeing the promises of good treatment were fulfilled, were inducing their relatives to return to their homes.

Major General Elwell S. Otis, commander of the American military forces, received the following message: "Hearty congratulations on the most

magificent work of the army. "DEWEY." (Signed)

The United States Philippine commission, the last member of that body, Colonel Charles Denby, former minister to China, having arrived here, will discuss the situation. The commissioners were hopeful of a speedy restoration of peace, telieving hostilities will soon be confined to the habitual revolutionists.

Brigadier General Harrison Gray Otis sails for home on board the United States transport Sherman. He said he believed the insurrection had received its death blow.

The Sherman will also have on board the sons of Colonel John Hay, secretary of state, and Senator Hale of Maine, who witnessed much of the fighting with the army, and the bodies of Colonel Harry C. Egbert of the Twenty-second infantry, killed on March 25, and other officers who had recently fallen in

General Wheaton assumed command of the brigade lately commanded by General Otis. The Third and Twentysecond regiments of General Wheaton's command were returning to this city.

MORE CASUALTIES CABLED.

Chauncy D. Humphrey, forearm, slight. First Nebraska-Company D, Captain Martin Herpolsheimer, forearm, moder-

ate, accidental. Cable February 7, reporting Egger, First Nebraskr, killed, is error. such man.

Funeral of General Flagler. WASHINGTON, April 4.-The funeral of the late Brigadier General Flagler.

here. Services at his late residence were attended by the family and intimate iriengs. The honorary pallbearers were General John M. Wilson, chief of engineers; General A. B. Carey, paymaster general; General M. J. T. Dana, U. S. A.; General F. J. Keith, Colonel A. Mordecai and Major Charles Shaler of the ordnance department. Among the floral tributes were pieces from President and Mrs. McKinley and Sec-retary and Mrs. Alger. Interment oc-curred at Arlington. President McKinley, accompanied by Adjutant General Corbin, attended the funeral.

A HUGE BAR IRON COMBINE.

Properties Soon to He Taken Over by New Corporation-Total Capitalization, \$55,000,000.

CHICAGO, April 4.—The combination of manufacturers of merchant bar iron, upon which Chicago promoters have been at work for several weeks is practically consummated Within a few days the properties will be taken over by a corporation that has been organized under the laws of New Jersey. The title of the Republic Steel and Iron company has been suggested, although not fully decided upon. The total capitalization will be \$55,000,000, of which \$25,000,000 will be in 7 per cent cumulative preferred stock and \$30,000,000 in common.

The properties include all the bar iron manufacturers of importance west of Pittsburg, some of the largest being in he Birmingham (Ala.) iron district. Extensive iron mines in this section and in the Mesaba range of the Lake Superior district will be transferred. Among the concerns are the following: Andrews Bros. Co., Brown-Bonnell fron company, Mahoning Valley Iron company, Youngstown; Cherry Valley fron works, Leetonia, O.; Sharon Iron works, Sharon, Pa.; Atlantic Iron and Steel company, New Castle, Pa.; Lake Erie Iron company, Cleveland; Corn's iron and Steel company, Massillon, O.; Foledo Rolling Mill company, Toledo; Connellsville Coke company, New Castle le. Pa.; Croton Land company, New lastle, Pa.

HANNA APPARENTLY ANGRY.

Answer to What He Calls Insinuations of Major Lee.

WASHINGTON, April 4.-In a note to The Associated Press from Thomasville, fa., Senator Mark Hanna said:

"I see in the newspaper reports that one Major Lee has attempted to drag ny name into the case by questions which conveyed the impression that was present at some conference where eef contracts were discussed. I wish say that I never had anything to do with any army contract, nor even exhanged a word with any official of the war department on that subject. make this statement in order that it may have the same publicity which was given to the contemptible insinuations of this man Lee.'

THE RIVAL DOLLAR DINNERS.

Bryan Suggested That They Be Held on Different Nights.

NEW YORK, April 4.—Part of a dis patch from W. J. Bryan received by Eugene V. Brewster read as follows regarding the double movement for Bryan silver dinner on April 19:

"Think the two meetings should be held on different nights, so that all Democrats and workingmen can attend

The first part of the message is kept back because it is held by Mr. Brewster to be "purely personal and strictly confidential."

WAR TAX CONSTITUTIONAL.

Justice Peckham Announced an Opinion In the Supreme Court.

was manifested by lawyers and others in the decision of the cases in the United States supreme court, involving the validity of the war revenue law. The opinion was handed down by Justice Peckham, who orally announced only a bare summary of the written document.

The opinion as prepared for preservation took up the various phases of the subject, holding the law constitutional as applied not only to stock exchanges, but to live stock yards as well, the principle being the same in all cases.

Kipling Thanked the Public.

NEW YORK, April 4.-A letter of thanks, through the press, was written by Rudyard Kipling, acknowledging "the wonderful sympathy, affection and kindness shown towards me during my recent illness, as well as the unfailing courtesy that controlled its expression. I am not strong enough to answer letters in detail, so I must take this means of thanking, as humbly as sincerely, the countless people of good will throughout the world who have put me under a debt I can never hope to repay."

Windsor Hotel Death Record.

New York, April 4.-The record of the Windsor hotel fire was as follows: Killed during the fire and died subsequently of injuries received during the fire, 11; bodies taken from the ruins and identified, 3; unidentified bodies taken from the ruins, 31; total known dead, 45; injured who subsequently recov-

It Is Scheduled to Commence In Canton Today.

JUSTIFICATION MAY BE CLAIMED.

Many Rumors as to the Line of Defense to Be Pursued by the Weman's Attorneys--One Is That a Man In Woman's Clothing Did the Killing.

CANTON, O., April 4 .- Mrs. Anna George is expected to go on trial today for the murder of George D. Saxton, brother of the president's wife, Mrs. McKinley.

There are many rumors as to the lines to be pursued by the defense, such as another woman, a man in woman's garb, shooting in self-defense, and others, but the most persistent is that the defense will plead justifiable homicide, in support of which the charges in the various suits will be offered, together with efforts to introduce in evidence Saxton's alleged course toward other women.

C., H. & D. FILED ANSWER.

Admitted It Belonged to the Association, In Reply to Monnett.

COLUMBUS, April 4.—The Cincinnati, Hamilton and Dayton railroad filed its answer in the ouster suit brought against the Central Passenger association by the attorney general, on the grounds that the association is in violation of the

anti-trust law. The road is the first to make answer to the charges of the attorney general. It admits that it is a member of the association, but further than that all the allegations of the attorney general are

Pittsburger Died in Akron.

AKRON, O., April 4.—W. S. Wright of Pittsburg, president of the Phœnix Brewing company, died of heart failure in the Hotel Bechtel. He was sitting up in bed, when he suddenly gasped and fell back dead. He came to Akron a week ago. He was one of the best known brewers in the country.

DEMOCRATIC GAINS.

Made Them In Large Cities of Michigan. Republicans Reid In Smaller Places.

DETROIT, April 4.—The elections in Michigan did not show any marked change in the general political complexion of the state, which is nominally Republican, but the result shows quite heavy Democratic gains in some of the larger cities, notably so in Detroit, Grand Rapids, Saginaw, Jackson and Kalamazoo. On a generally light vote, the Republicans hold their own in the smaller cities and throughout the rural districts.

Circuit judges were elected in 36 judicial districts. Of these about two-thirds of the new judges, who are elected for six-year terms, are Republicans.

The Republicans re-elect Judge Claudins B. Grant as justice of the supreme court by a majority of at least 20,000. They also elect Henry S. Dean and Eli R. Sutton regents of Michigan univer-sity by somewhat greater majorities.

ALTGELD'S STRENGTH PUZZLING.

Claimed He Will Poll Full Silver Democratic Vote Today.

CHICAGO, April 4.—The vote to be polled by John P. Altgeld in the mayoralty election today is admitted by all parties to be a most undecided factor and yet it is the thing upon which all Washington, April 4.—Much interest three candidates, Harrison, Dem.; Carter, Rep., and Altgeld, independent Dem., are basing their hopes of final success. The Altgeld men say that their candidate, who is standing upon the Chicago platform, will secure all the straight silver Democratic vote, and will certainly be elected. They allow him 140,000 votes.

In the headquarters of the Harrison faction there was the greatest confidence. They said that there was not the slightest doubt of the mayor's election. They gave him 180,000 votes as against 100,000 for Carter and 30,000 for Altgeld. In the Republican camp the estimate was Carter 130,000, Harrison 120,-000 and Altgeld 80,000. They claimed that Altgeld will draw enough votes from Harrison to elect Carter beyond a

The Democrats agreed that there will be something of a defection from the Harrison ranks in favor of Altgeld, but say that the votes to come to Harrison from the Republican ranks will more than offset whatever he will lose by the candidacy of Altgeld.

The sober admission is, however, in all of the headquarters that there has seldom if ever been an election in Chicago so difficult to forecast with accuracy as this one.

Condition of Sherman and Hobart.

WASHINGTON, April 4.-Ex-Secretary Sherman continued to gain in health. Vice President Hobart barely held his own. The latter transacts a little business each day, but needs almost total

M'KISSON WAS BEATEN

14TH YEAR. NO. 252.

Rest of Republican Ticket Elected at Cleveland.

JONES WAS CHOSEN AT TOLEDO.

yerst Republican Mayor In 12 Years Elected at Columbus - Republicans Carried Cincinnati - Democrats Elected Their Candidates In Various Cities.

CLEVELAND, April 4.—John H. Farley, Dem., was elected mayor over Robert E. McKisson, Rep., the present incumbent, by a plurality of about 3,500.
The first returns indicated a much greater victory for Farley, but his plurality was cut down by later returns. The remainder of the Republican ticket, police pros ut . ; justice and four members of the school council, elected at

MAYOR JONES OF TOLEDO.

large, will have substantial pluralities. The Republicans will control the city council.

McKisson's defeat was due to the defection of Republicans who voted against him because of his betrayal of Senator Hanna and his party during the contest before the legislature a year ago last winter. The whole ticket suffered somewhat on account of the opposition to McKisson, but not enough to defeat

any of the other candidates. TOLEDO, April 4.—Mayor S. M. Jones, who was a candidate on an independent ticket with a platform of municipal ownership of utilities, was elected by at least 5,000 plurality and probably a majority over all. Returns seemed to show that the regular Republican ticket, except for mayor, has been elected by a

Corporal Patrick Henehen, the Democratic candidate for city attorney, was probably elected. He is with the Sixth Ohio in Cuba, and his returned soldier friends of the Tenth Ohio turned out, irrespective of party, and pushed him through. George W. Acker, Democrat, has been elected police commissioner. The remainder of the regular Republican ticket has been elected.

With the return of Mayor Jones to his place, the question of the city purchasing an electric lighting plant and other public utilities will come before the council and the people will be given an opportunity of voting on the same and they will no doubt sanction the pur-

COLUMBUS, April 4.—Samuel L. Black, Dem., mayor of Columbus, was defeated for re-election by Samuel J. Swartz, Rep., former police judge by a decisive majority. The election was fought on strictly party lines, however, and was one of the most bitterly contested in the history of the city. Judge Swartz is the first Republican elected mayor of the city in 12 years. His plurality was estimated at 1,393. The city is normally Republican by about 1,000, though it has given majorities of upward of 3,000. Heretofore local issues and factional fights have operated against the Republicans, but united action was secured by an agreement which gave Judge Nash, who is a candidate for the Republican nomination for governor, the solid delegation from Franklin county in the coming state convention. All other candidates on the Republican city ticket were

CINCINNATI, April 4.—The Republicans had a plurality of about 7,000. The present Democratic mayor was elected two years ago by almost as large a plurality. At Dayton the Democrats made municipal gains, but the Republicans gained in the township. The Western reserve maintained its usual Republican majorities, with some gains over those of former April elections, notably at Youngstown, Warren, Cadiz, Delaware and other cities in Northwestern Ohio. In the smaller cities, as well as in the rural districts, the Republicans claimed gains, notably at Chillicothe, where there was a change, Mayor Brown being defeated for re-election by

James Wood by about 300.
At Defiance the Democrats lost two councilmen and a member of the board of education. At Hamilton the Democrats maintained their majorities; also at Lima, Newark, Circleville, Upper Sandusky, Wapakoneta, Millersburg and Van Wert. At Zanesville and Marysville the Republicans were successful, and they made gains at Napoleon. As a rule the vote was light. At Canton, regained consciousness.

the home of McKiniey, James Kobertson, Republican, was elected Mayor by son, Republican, was elected Mayor by about 13 plurality, a change from the present Democratic administration.

! RIBUTE TO SOLDIER DEAD.

President Ordered Military, Naval and Other Honors During Burial at Arlington.

Washington, April 4.—The president issued the following executive order:

It is fitting that in behalf of the nation tributes of honor be paid to the memories of the noble men who lost their lives in their country's service during the late war with Spain. It is the more fitting inasmuch as in consonance with the spirit of our free institutions and in obedience to the most exalted promptings of patriosm, those who were sent to other shores o do battle for their country's honor under their country's flag, went freely rom every quarter of our beloved land. ach soldier, each sailor, parting from ome ties and putting behind him private nterests in the presence of the stern smergency of unsought war with an alien or, was an individual type of that devotion of the citizen to the state which nakes our nation strong in unity and in

Those who died in another land left in nany homes the undying memories that it end the heroic dead of all ages. It was by their sacrifice, their bodies should be cathered with tender care and restored to some and kindred. This has been done with the dead of Cuba and Porto Rico. Those of the Philippines still rest where mey fen, watched over by their surviving omrades, and crowned with the love of a rateful nation.

The remains of many brought to our nores have been delivered to their fami-ies for private burial. But for others of the brave officers and men who perished here has been reserved interment in cound sacred to the soldiers and sailors and the tributes of military honor and national mourning they have so well deserved. I therefore order that upon the irrival of the cortege at the national cemetery at Arlington all proper military and naval honors be paid to the dead heroes; that suitable ceremonies shall attend their interment; that the customary and of mourning be fired at the cometery, and that on the same day at 2 o clock p. m., Thursday, the 6th day of April, the national ensign be displayed at half mast on all public buildings, forts, camps and public vessels of the United States, and that at 12 o'clock noon of said day all the departments of the government at Washington shall be closed.

WILL CARE FOR THE WIDOWS.

Half-Brother of Captain Capron Appointed to a Good Office.

WASHINGTON, April 4.—The president appointed Webster Vinson paymaster in the regular army, with the rank of major. The vacancy was caused by the death of Colonel Glenn. Major Vinson is a half brother of Captain Allyn Capron of the First artillery, who died of disease contracted in Cuba, and an uncle of Captain Allyn Capron. Jr., of the rough riders, who was killed in the first charge at San Juan.

Major Vinson is the sole support of the widows of the Caprone, and when the case was presented to the president last fall he said he would make the appointment when opportunity offered, as it would be a part of his policy to make such recognition of the relatives of those who lost their lives in the war.

Alger Reported All Well.

WASHINGTON. April 4.-A telegram was received at the war department from Secretary Alger at Santiago saying that all the members of his party are well. He made no mention of political affairs on the island and is silent as to his future movements.

TO CHECK THE MORMONS.

Methodist Minister Asks That Roberts Be Expelled-Power of the

New York. April 4.—The Rev. Dr. Thomas C. Iliff of Salt Lake City addressed the Methodist preachers' weekly meeting in this city on "The Present Situation In Utah." In the course of his address Dr. Iliff said:

"If Brigham H. Roberts is permitted to sit in congress it will be interpreted in every Mormon hamlet as the fulfillment of Brigham Young's prophecy and also as nationalizing polygamy. The Mormons will redouble their energies. Already they may be said to hold the balance of power in Idaho and Wyoming, and they are very strong in Nevada, Arizona and in Southwest Colo-

"The other day the wife of a senator from a state adjoining Utah, herself a Methodist, was asked to use her influence on behalf of our crusade. She replied that she could not do anything about the matter. That shows the Mormon influence in politics.

"We ask that congress shall expel Roberts. We at first petitioned that he be not received, but after conferring with Senator Edmunds and others, we think that the proper procedure is to expel him."

Was Stricken In His Pulpit.

WEST CHESTER, Pa., April 4.-Rev. Mr. Wood, pastor of the Hopewell M. E. church in East Brandywine township, died at the M. E. parsonage at Guthrieville, after a stroke of paralysis. He was stricken while conducting Easter services in his church and fell to the floor on the pulpit platform. He never

Otis Sent Good News From the Philippines.

SOME NATIVES RETURNED HOME.

General Also Announced News From the Visayan Islands Was More Encouraging - Congratulations to Otis From Dewey-Oue Otis Coming Home.

WASHINGTON, April 4,-The department officials were pleased by this cheering dispatch from General Otis: "MANILA, April 8.

Adjutant General, Washington:

"Present indications denote insurgent government in perilous condition; its army defeated, discouraged and scattered. Insurgents returning to their homes in cities and villages between here and points north of Malolos, which our reconnoitering parties have reached, and desire protection of Americans.

News from Visayian islands more encouraging every day.

Oms," couraging every day.

It contained a great deal of encouragement to them, and those who know General Otis well say he is not a man to common. take a roseate view of a situation unless there is reason for it. It is argued at the department that the Filipinos have never been used to the kind of warfare that the Americans have given them, and for that reason they are now aware that it will be impossible for them to accomplish anything by fighting. While there is disappointment because the movement for the capture of a large force of Filipinos was not successful, it is believed the pressing of the insurgents steadily toward the north, capturing their capital and driving them from place to place, has had a very discouraging effect upon the natives who have been following Aguinaldo.

It is evident by the reference which General Otis makes to reconnoitering parties that he is having the country thoroughly covered and that the information which they are giving him is the basis of the dispatch received. It is believed that desertions will soon deplete the army of Aguinaldo to little or

That portion of the dispatch relating to the Visayans refers to the operations of which Iloilo is the base. The group includes Panay, Bohol, Cebu, Negros and others of less importance. The rebellion against the United States auhority was not very serious in these islands, being stirred up by emissaries of Aguinaldo at Iloilo. The constant defeat of Aguinaldo's forces north of Manila has no doubt had a depressing effect upon other insurrectionists.

MANILA, April 4.—The natives continued returning to their homes Monday. They were coming in all along the American lines and many of them, seeing the promises of good treatment were fulfilled, were inducing their relatives to return to their homes.

Major General Elwell S. Otis, commander of the American military forces. received the following message:

"Hearty congratulations on the most magificent work of the army.

(Signed) "DEWEY."

(Signed) The United States Philippine commission, the last member of that body, Colonel Charles Denby, former minister to China, having arrived here, wil discuss the situation. The commissioners were hopeful of a speedy restoration of peace, telieving hostilities will soon be confined to the habitual revolutionists.

Brigadier General Harrison Gray Otis sails for home on board the United States transport Sherman. He said he believed the insurrection had received its death blow.

The Sherman will also have on board the sons of Colonel John Hay, secretary of state, and Senator Hale of Maine, who witnessed much of the fighting with the army, and the bodies of Colonel Harry C. mei of ordnance U.S. A., took place here. Services at his late residence were attended by the family and intimate iriengs. The honorary pallbearers were General John M. Wilson, chief of engineers; General A. B. Carey, paymaster general; General M. J. T. Dana, U. S. A.; General F. J. Keith, Colonel A. Mordecai and Major Charles Shaler of the ordnance department. Among the floral tributes were pieces from President and Mrs. McKinley and Secretary and Mrs. Alger. Interment oc-curred at Arlington. President McKin-ley, accompanied by Adjutant General Corbin, attended the funeral.

A HUGE BAR IRON COMBINE

Properties Soon to Be Taken Over by New Corporation-Total Capitalitation, \$55,000,000.

CHICAGO, April 4.—The combination of manufacturers of merchant bar iron, upon which Chicago promoters have been at work for several weeks is practically consummated Within a few days the properties will be taken over by a corporation that has been organized under the laws of New Jersey. The title of the Republic Steel and Iron company has been suggested, although not fully decided upon. The total capitalization will be \$55,000,000, of which \$25,000,000 will be in 7 per cent cumulative preferred stock and \$30,000,000 in

The properties include all the bar iron manufacturers of importance west of Pittsburg, some of the largest being in the Birmingham (Ala.) iron district.

fron company, Mahoning Valley Iron company, Youngstown; Cherry Valley Iron works, Lectonia, O.; Sharon Iron works, Sharon, Pa.; Atlantic Iron and Steel company, New Castle, Pa.; Lake Iron and Iron that Iron and Iron that Iron and Iron that Iron and Iron that I admits that it is a member of the association, but further than that all the Erie Iron company, Cleveland; Corn's iron and Steel company, Massillon, O.; Foledo Rolling Mill company, Toledo; Connellsville Coke company, New Casle. HANNA APPARENTLY ANGRY.

Answer to What He Calls Insinuations of Major Lee.

WASHINGTON, April 4.—In a note to The Associated Press from Thomasville, fa., Senator Mark Hanna said:

"I see in the newspaper reports that one Major Lee has attempted to drag ny name into the case by questions which conveyed the impression that I was present at some conference where cef contracts were discussed. I wish say that I never had anything to do with any army contract, nor even exchanged a word with any official of the war department on that subject. I make this statement in order that it may have the same publicity which was given to the contemptible insinuations of this man Lee."

THE RIVAL DOLLAR DINNERS.

Bryan Suggested That They Be Held on Different Nights.

NEW YORK, April 4.—Part of a dispatch from W. J. Bryan received by Eugene V. Brewster read as follows regarding the double movement for Bryan silver dinner on April 19:

"Think the two meetings should be held on different nights, so that all Democrats and workingmen can attend both."

The first part of the message is kept back because it is held by Mr. Brewster to be "purely personal and strictly confidential."

WAR TAX CONSTITUTIONAL

Justice Peckham Announced an Opinion In the Supreme Court.

WASHINGTON, April 4.—Much interest was manifested by lawyers and others in the decision of the cases in the United States supreme court, involving the validity of the war revenue law. The opinion was handed down by Justice Peckham, who orally announced only a bare summary of the written

The opinion as prepared for preservation took up the various phases of the subject, holding the law constitutional as applied not only to stock exchanges, but to live stock yards as well, the principle being the same in all cases.

Kipling Thanked the Public. NEW YORK, April 4 .-- A letter of

thanks, through the press, was written by Rudyard Kipling, acknowledging "the wonderful sympathy, affection and kindness shown towards me during my recent illness, as well as the unfailing courtesy that controlled its expression. am not strong enough to answer letters in detail, so I must take this means of thanking, as humbly as sincerely, the countless people of good will throughout the world who have put me under a debt I can never hope to repay.

Windsor Hotel Death Record.

New York, April 4.—The record of the Windsor hotel fire was as follows: Killed during the fire and died subsequently of injuries received during the fire, 11; bodies taken from the ruins and identified, 3; unidentified bodies taken from the ruins, 31; total known dead, WASHINGTON, April 4.—The funeral 45; injured who subsequently recov-

MRS. GEORGE'S TRIAL.

It Is Scheduled to Commence In Canton Today.

Many Rumors as to the Line of Defence to Be Pursued by the Woman's Attorneys--One Is That a Man In Woman's Clothing Did the Killing.

CANTON, O., April 4.-Mrs. Anna George is expected to go on trial today for the murder of George D. Saxton, brother of the president's wife, Mrs. McKinley.

There are many rumors as to the lines to be pursued by the defense, such as another woman, a man in woman's garb, shooting in self-defense, and others, but the most persistent is that the defense will plead justifiable homicide, in support of which the charges in the various suits will be offered, together with efforts to introduce in evidence Saxton's alleged course toward other women.

C., H. & D. FILED ANSWER.

Admitted It Belonged to the Association, In Reply to Monnett.

COLUMBUS, April 4.—The Cincinnati, Extensive iron mines in this section and Hamilton and Dayton railroad filed its perior district will be transferred.
Among the concerns are the following: by the attorney general, on the grounds Andrews Bros. Co., Brown-Bonnell that the association is in violation of the

sociation, but further than that all the allegations of the attorney general are

Pittsburger Died in Akron.

Akron, O., April 4.—W. S. Wright of Pittsburg, president of the Phœnix Brewing company, died of heart failure in the Hotel Bechtel. He was sitting up in bed, when he suddenly gasped and fell back dead. He came to Akron a week ago. He was one of the best known brewers in the country.

DEMOCRATIC GAINS.

Mude Them In Large Cities of Michigan. Republicans Held Their Own In Smaller Places.

DETROIT, April 4.—The elections Michigan did not show any marked change in the general political complexion of the state, which is nominally Republican, but the result shows quite heavy Democratic gains in some of the larger cities, notably so in Detroit, Grand Rapids, Saginaw, Jackson and Kalamazoo. On a generally light vote, the Republicans hold their own in the smaller cities and throughout the rural districts.

Circuit judges were elected in 36 judicial districts. Of these about two-thirds of the new judges, who are elected for six-year terms, are Republicans.

The Republicans re-elect Judge Claudins B. Grant as justice of the supreme court by a majority of at least 20,000. They also elect Henry S. Dean and Eli R. Sutton regents of Michigan university by somewhat greater majorities.

ALTGELD'S STRENGTH PUZZLING.

Claimed He Will Poll Full Silver Demo cratic Vote Today.

CHICAGO, April 4 .- The vote to be polled by John P. Altgeld in the mayoralty election today is admitted by all parties to be a most undecided factor and yet it is the thing upon which all three candidates, Harrison, Dem.; Carter, Rep., and Altgeld, independent Dem., are basing their hopes of final success. The Altgeld men say that their candidate, who is standing upon the Chicago platform, will secure all the straight silver Democratic vote, and will certainly be elected. They allow him 140,000 votes.

In the headquarters of the Harrison faction there was the greatest confidence. They said that there was not the slightest doubt of the mayor's election. They gave him 180,000 votes as against 100,000 for Carter and 80,000 for Altgeld. In the Republican camp the estimate was Carter 130,000, Harrison 120,-000 and Altgeld 80,000. They claimed that Altgeld will draw enough votes from Harrison to elect Carter beyond a

The Democrats agreed that there will be something of a defection from the Harrison ranks in favor of Altgeld, but say that the votes to come to Harrison from the Republican ranks will more than offset whatever he will lose by the

candidacy of Altgeld. The sober admission is, however, in all of the headquarters that there has seldom if ever been an election in Chicago so difficult to forecast with accuracy as this one.

Condition of Sherman and Hobart.

WASHINGTON, April 4.—Ex-Secretary Sherman continued to gain in health. Vice President Hobart barely held his own. The latter transacts a little business each day, but needs almost total 14TH YEAR. NO. 252.

EAST LIVERPOOL, O., TUESDAY, APRIL 4, 1899.

TWO CENTS

M'KISSON WAS BEATEN

Rest of Republican Ticket Elected at Cleveland.

JONES WAS CHOSEN AT TOLEDO.

yerst Republican Mayor In 12 Years Elected at Columbus-Republicans Carried Cincinnati — Democrats Elected Their Candidates In Various Cities.

CLEVELAND, April 4.- John H. Farley, Dem., was elected mayor over Robert E. McKisson, Rep., the present incumbent, by a plurality of about 3,500. The first returns indicated a much greater victory for Farley, but his plurality was cut down by later returns. The remainder of the Republican ticket, including y treasurer, police judge, police pros at , , justice and four members of the school council, elected at

MAYOR JONES OF TOLEDO.

large, will have substantial pluralities. The Republicans will control the city

McKisson's defeat was due to the defection of Republicans who voted against him because of his betrayal of Senator Hanna and his party during the contest before the legislature a year ago last winter. The whole ticket suffered somewhat on account of the opposition to McKisson, but not enough to defeat any of the other candidates.

Toledo, April 4.—Mayor S. M. Jones, who was a candidate on an independent ticket with a platform of municipal ownership of utilities, was elected by at least 5,000 plurality and probably a majority over all. Returns seemed to show that the regular Republican ticket, except for mayor, has been elected by a

Corporal Patrick Henehen, the Democratic candidate for city attorney, was probably elected. He is with the Sixth Ohio in Cuba, and his returned soldier friends of the Tenth Ohio turned out, irrespective of party, and pushed him through. George W. Acker, Democrat, has been elected police commissioner. The remainder of the regular Republican ticket has been elected.

With the return of Mayor Jones to his place, the question of the city purchasing an electric lighting plant and other public utilities will come before the council and the people will be given an opportunity of voting on the same and they will no doubt sanction the purchase.

Columbus, April 4.—Samuel L. Black, Dem., mayor of Columbus, was defeated for re-election by Samuel J. Swartz, Rep., former police judge by a decisive majority. The election was fought on strictly party lines, however, and was one of the most bitterly contested in the history of the city. Judge Swartz is the first Republican elected mayor of the city in 12 years. His plurality was estimated at 1,393. The city is normally Republican by about 1,000, though it has given majorities of upward of 3,000. Heretofore local issues and factional fights have operated against the Republicans, but united action was secured by an agreement which gave Judge Nash, who is a candidate for the Republican nomination for governor, the solid delegation from Franklin county in the coming state convention. All other candidates on the Republican city ticket were elected.

CINCINNATI, April 4.—The Republicans had a plurality of about 7,000. The present Democratic mayor was elected two years ago by almost as large a plurality. At Dayton the Democrats made municipal gains, but the Republicans gained in the township. The Western reserve maintained its usual Repubhean majorities, with some gains over those of former April elections, notably at Youngstown, Warren, Cadiz, Delaware and other cities in Northwestern Ohio. In the smaller cities, as well as in the rural districts, the Republicans claimed gains, notably at Chillicothe, where there was a change, Mayor

Brown being defeated for re-election by James Wood by about 300. At Defiance the Democrats lost two councilmen and a member of the board of education. At Hamilton the Democrats maintained their majorities; also at Lima, Newark, Circleville, Upper Sandusky, Wapakoneta, Millersburg and Van Wert. At Zanesville and Marysville the Republicans were successful, and they made gains at Napoleon. As

the home of Mckinley, James Kobertson, Republican, was elected Mayor by about 13 plurality, a change from the present Demogratic administration than the present Demogratic administration of the present Democratic administration.

President Ordered Military, Naval and Other Honors During Burial at Arlington.

WASHINGTON, April 4.—The president ssued the following executive order:

It is fitting that in behalf of the nation tributes of honor be paid to the memories of the noble men who lost their lives n their country's service during the late war with Spain. It is the more fitting inasmuch as in consonance with the spirit of our free institutions and in obedience o the most exalted promptings of patriosm, those who were sent to other shores o do battle for their country's honor inder their country's flag, went freely rom every quarter of our beloved land. ach soldier, each sailor, parting from ome ties and putting behind him private interests in the presence of the stern imergency of unsought war with an alien or, was an individual type of that devotant if the citizen to the state which makes our nation strong in unity and in action.

Those who died in another land left in nany homes the undying memories that it end the heroic dead of all ages. It was itting that with the advent of peace, won by their sacrifice, their bodies should be cathered with tender care and restored to some and kindred. This has been done with the dead of Cuba and Porto Rico. Those of the Philippines still rest where ney fen, watched over by their surviving omrades, and crowned with the love of a

The remains of many brought to our nores have been delivered to their fami tes for private burial. But for others of the brave officers and men who perished here has been reserved interment in cound sacred to the soldiers and sailors unid the tributes of military honor and national mourning they have so well deserved. I therefore order that upon the urrival of the cortege at the national cemstery at Arlington all proper military and naval honors be paid to the dead heroes: that suitable ceremonies shall attend their interment; that the customary atute of mourning be fired at the cemetery, and that on the same day at 2 o'ctock p. m., Thursday, the 6th day of April, the national ensign be displayed at half mast on all public buildings, forts. half mast on all public buildings, forts, camps and public vessels of the United States, and that at 12 o'clock noon of said day all the departments of the government at Washington shall be closed.

WILL CARE FOR THE WIDOWS.

Half-Brother of Captain Capron Appointed to a Good Office.

WASHINGTON, April 4.—The president appointed Webster Vinson paymaster in the regular army, with the rank of hallion and others of less importance. The remajor. The vacancy was caused by the death of Colonel Glenn. Major Vinson is a half brother of Captain Allyn Capron of the First artillery, who died of disease contracted in Cuba, and an uncle of Captain Allyn Capron. Jr., of the rough riders, who was killed in the first charge at San Juan.

Major Vinson is the sole support of the widows of the Caprone, and when the case was presented to the president last fall he said he would make the appointment when opportunity offered, as it would be a part of his policy to make such recognition of the relatives of those who lost their lives in the war.

Alger Reported All Well.

Washington. April 4.—A telegram was received at the war department from Secretary Alger at Santiago saying that all the members of his party are well. He made no mention of political affairs on the island and is silent as to his future movements.

TO CHECK THE MORMONS.

Methodist Minister Asks That Roberts Be Expelled-Power of the Mormons.

NEW YORK. April 4.—The Rev. Dr. Thomas C. Iliff of Salt Lake City addressed the Methodist preachers' weekly meeting in this city on "The Present Situation In Utah." In the course of his address Dr. Iliff said:

"If Brigham H. Roberts is permitted to sit in congress it will be interpreted in every Mormon hamlet as the fulfill ment of Brigham Young's prophecy and also as nationalizing polygamy. The Mormons will redouble their energies. Already they may be said to hold the balance of power in Idaho and Wyoming, and they are very strong in Nevada, Arizona and in Southwest Colorado.

"The other day the wife of a senator from a state adjoining Utah, herself a Methodist, was asked to use her influence on behalf of our crusade. She replied that she could not do anything about the matter. That shows the Mormon influence in politics.

"We ask that congress shall expel Roberts. We at first petitioned that he be not received, but after conferring with Senator Edmunds and others, we think that the proper procedure is to expel him."

Was Stricken In His Pulpit.

WEST CHESTER, Pa., April 4.-Rev. Mr. Wood, pastor of the Hopewell M. E. church in East Brandywine township, died at the M. E. parsonage at Guthrieville, after a stroke of paralysis. He was stricken while conducting Easter services in his church and fell to the floor on the pulpit platform. He never a rule the vote was light. At Canton, regained consciousness.

! RIBUTE TO SOLDIER DEAD. Otis Sent Good News From the Philippines.

General Also Announced News From the Visayan Islands Was More Encouraging -- Congratulations to Otis From Dewey-Oue Otis Coming Home.

WASHINGTON, April 4,-The department officials were pleased by this cheering dispatch from General Otis:

"MANILA, April 8.

Adjutant General, Washington: "Present indications denote insurgent government in perilous condition; its army defeated, discouraged and scattered. Insurgents returning to their homes in cities and villages between here and points north of Malolos, which our reconnoitering parties have reached, and desire protection of Americans. News from Visayian islands more encouraging every day. Oris."

It contained a great deal of encouragement to them, and those who know General Otis well say he is not a man to take a roseate view of a situation unless there is reason for it. It is argued at the department that the Filipinos have never been used to the kind of warfare that the Americans have given them, and for that reason they are now aware that it will be impossible for them to accomplish anything by fighting. While there is disappointment because the movement for the capture of a large force of Filipinos was not successful, it is believed the pressing of the insurgents steadily toward the north, capturing their capital and driving them from place to place, has had a very discouraging effect upon the natives who have been following Aguinaldo.

It is evident by the reference which General Otis makes to reconnoitering parties that he is having the country thoroughly covered and that the information which they are giving him is the basis of the dispatch received. It is believed that desertions will soon deplete the army of Aguinaldo to little or nothing.

That portion of the dispatch relating to the Visayans refers to the operations of which Iloilo is the base. The group bellion against the United States authority was not very serious in these islands, being stirred up by emissaries of Aguinaldo at Iloilo. The constant defeat of Aguinaldo's forces north of Manila has no doubt had a depressing effect upon other insurrectionists.

Manila, April 4.—The natives continued returning to their homes Monday. They were coming in all along the American lines and many of them, seeing the promises of good treatment were fulfilled, were inducing their rela- Bryan Suggested That They Be Held on tives to return to their homes.

Major General Elwell S. Otis, commander of the American military forces, received the following message: "Hearty congratulations on the most

magificent work of the army. "DEWEY." (Signed) The United States Philippine commis-

sion, the last member of that body, Colonel Charles Denby, former minister to China, having arrived here, wil discuss the situation. The commissioners were hopeful of a speedy restoration of peace, telieving hostilities will soon be confined to the habitual revolutionists. Brigadier General Harrison Gray Otis

sails for home on board the United States transport Sherman. He said he believed the insurrection had received its death blow.

The Sherman will also have on board the sons of Colonel John Hay, secretary of state, and Senator Hale of Maine. who witnessed much of the fighting with the army, and the bodies of Colone Harry C. Egbert of the Twenty-second infantry, killed on March 25, and other officers who had recently fallen in battle.

General Wheaton assumed command of the brigade lately commanded by General Otis. The Third and Twentysecond regiments of General Wheaton's command were returning to this city.

MORE CASUALTIES CABLED. Additional List of Wounded Sent by

General Otis. Washington, April 4.—General Otis

cabled the war department as follows: MANILA, April 3.-Casualties not heretofore reported:

March 25.—Twenty-second infantry wounded, Company H, Private Fritz Hexter, wrist, moderate. April 1.—First North Dakota, Com-pany H, Second Lieutenant Dorman

Baldwin, leg, severe; Company D, Corporal J. C. Bryon, forearm, moderate; Private D. Morgan, eyebrow, slight. Third infantry-Second Lieutenant Chauncy D. Humphrey, forearm, slight. First Nebraska—Company D, Captain

Martin Herpolsheimer, forearm, moderate, accidental. Cable February 7, reporting Egger, First Nebraskr, killed, is error. No

of the late Brigadier General Flagler.

here. Services at his late residence were attended by the family and intimate friends. The honorary pallbearers were General John M. Wilson, chief of engineers; General A. B. Carey, paymaster general; General M. J. T. Dana, U. S. A.; General F. J. Keith, Colonel A. Mordecai and Major Charles Shaler of the ordnance department. Among SOME NATIVES RETURNED HOME. the floral tributes were pieces from President and Mrs. McKinley and Secretary and Mrs. Alger. Interment occurred at Arlington. President McKinley, accompanied by Adjutant General Corbin, attended the funeral.

A HUGE BAR IRON COMBINE

Properties Soon to Be Taken Over by New Corporation-Total Capitalisation, \$55,000,000.

CHICAGO, April 4.—The combination of manufacturers of merchant bar iron. upon which Chicago promoters have been at work for several weeks is practically consummated Within a few days the properties will be taken over by a corporation that has been organized under the laws of New Jersey. The title of the Republic Steel and Iron company has been suggested, although not fully decided upon. The total capitalization will be \$55,000,000, of which \$25,000,000 will be in 7 per cent cumulative preferred stock and \$30,000,000 in common.

The properties include all the bar iron manufacturers of importance west of Pittsburg, some of the largest being in the Birmingham (Ala.) iron district. in the Mesaba range of the Lake Su-perior district will be transferred. Among the concerns are the following:

Andrews Bros. Co., Brown-Bonnell Iron company, Mahoning Valley Iron company, Youngstown; Cherry Valley Iron works, Leetonia, O.; Sharon Iron works, Sharon, Pa.; Atlantic Iron and Steel company, New Castle, Pa.; Lake Erie Iron company, Cleveland; Corn's iron and Steel company, Massillon, O.; Foledo Rolling Mill company, Toledo; Connellsville Coke company, New Casle. Pa.; Croton Land company, New Castle, Pa.

HANNA APPARENTLY ANGRY.

Answer to What He Calls Insinuations of Major Lee.

WASHINGTON, April 4.-In a note to The Associated Press from Thomasville, Ja., Senator Mark Hanna said:

"I see in the newspaper reports that one Major Lee has attempted to drag ny name into the case by questions which conveyed the impression that I was present at some conference where eef contracts were discus say that I never had anything to do with any army contract, nor even exhanged a word with any official of the war department on that subject. make this statement in order that it may have the same publicity which was given to the contemptible insinuations of this man Lee."

THE RIVAL DOLLAR DINNERS.

Different Nights.

NEW YORK, April 4.—Part of a dispatch from W. J. Bryan received by Eugene V. Brewster read as follows regarding the double movement for Bryan silver dinner on April 19:

"Think the two meetings should be held on different nights, so that all Democrate and workingmen can attend both."

The first part of the message is kept back because it is held by Mr. Brewster to be "purely personal and strictly confidential.

WAR TAX CONSTITUTIONAL.

Justice Peckham Announced an Opinion In the Supreme Court.

WASHINGTON, April 4.—Much interest was manifested by lawyers and others in the decision of the cases in the United States supreme court, involving the validity of the war revenue law. The opinion was handed down by Justice Peckham, who orally announced only a bare summary of the written document.

The opinion as prepared for preservation took up the various phases of the subject, holding the law constitutional as applied not only to stock exchanges, but to live stock yards as well, the principle being the same in all cases.

Kipling Thanked the Public. NEW YORK, April 4 .-- A letter of

thanks, through the press, was written by Rudyard Kipling, acknowledging "the wonderful sympathy, affection and kindness shown towards me during my recent illness, as well as the unfailing courtesy that controlled its expression. I am not strong enough to answer letters in detail, so I must take this means of thanking, as humbly as sincerely, the countless people of good will throughout the world who have put me under a debt I can never hope to repay.'

Windsor Hotel Death Record.

NEW YORK, April 4.- The record of the Windsor hotel fire was as follows: Killed during the fire and died subsequently of injuries received during the fire, 11; bodies taken from the ruins and identified, 3; unidentified bodies taken from the ruins, 31; total known dead, 45; injured who subsequently recovered, 30.

It Is Scheduled to Commence In Canton Today.

JUSTIFICATION MAY BE CLAIMED.

Many Rumors as to the Line of Defense to Be Pursued by the Woman's Attorneys--Oue Is That a Man In Woman's Clothing Did the Killing.

CANTON, O., April 4 .- Mrs. Anna George is expected to go on trial today for the murder of George D. Saxton, brother of the president's wife, Mrs. McKinley.

There are many rumors as to the lines to be pursued by the defense, such as another woman, a man in woman's garb. shooting in self-defense, and others, but the most persistent is that the defense will plead justifiable homicide, in support of which the charges in the various suits will be offered, together with efforts to introduce in evidence Saxton's alleged course toward other women.

C., H. & D. FILED ANSWER.

Admitted It Belonged to the Association, In Reply to Monnett.

COLUMBUS, April 4.—The Cincinnati, Extensive iron mines in this section and Hamilton and Dayton railroad filed its answer in the ouster suit brought against the Central Passenger association by the attorney general, on the grounds that the association is in violation of the anti-trust law.

The road is the first to make answer to the charges of the attorney general. It admits that it is a member of the association, but further than that all the allegations of the attorney general are denied.

Pittsburger Died in Akron.

Akron, O., April 4.—W. S. Wright of Pittsburg, president of the Phœnix Brewing company, died of heart failure in the Hotel Bechtel. He was sitting up in bed, when he suddenly gasped and fell back dead. He came to Akron a week ago. He was one of the best known brewers in the country.

DEMOCRATIC GAINS.

Made Them In Large Cities of Michigan. Republicans Held Their Own In Smaller Places.

DETROIT, April 4.—The elections in Michigan did not show any marked change in the general political complexion of the state, which is nominally Republican, but the result shows quite heavy Democratic gains in some of the larger cities, notably so in Detroit, Grand Rapids, Saginaw, Jackson and Kalamazoo. On a generally light vote, the Republicans hold their own in the smaller cities and throughout the rural districts.

Circuit judges were elected in 36 judicial districts. Of these about two-thirds of the new judges, who are elected for six-year terms, are Republicans.

The Republicans re-elect Judge Claudins B. Grant as justice of the supreme court by a majority of at least 20,000. They also elect Henry S. Dean and Eli R. Sutton regents of Michigan university by somewhat greater majorities.

ALTGELD'S STRENGTH PUZZLING.

Claimed He Will Poll Full Silver Democratic Vote Today.

CHICAGO, April 4.—The vote to be polled by John P. Altgeld in the mayoralty election today is admitted by all parties to be a most undecided factor and yet it is the thing upon which all three candidates, Harrison, Dem.; Carter, Rep., and Altgeld, independent Dem., are basing their hopes of final success. The Altgeld men say that their candidate, who is standing upon the Chicago platform, will secure all the straight silver Democratic vote, and will certainly be elected. They allow him 140,000 votes.

In the headquarters of the Harrison faction there was the greatest confidence. They said that there was not the slightest doubt of the mayor's election. They gave him 180,000 votes as against 100,000 for Carter and 30,000 for Altgeld. In the Republican camp the estimate was Carter 130,000, Harrison 120,-000 and Altgeld 80,000. They claimed that Altgeld will draw enough votes from Harrison to elect Carter beyond a

The Democrats agreed that there will be something of a defection from the Harrison ranks in favor of Altgeld, but say that the votes to come to Harrison from the Republican ranks will more than offset whatever he will lose by the candidacy of Altgeld.

The sober admission is, however, in all of the headquarters that there has seldom if ever been an election in Chicago so difficult to forecast with accuracy as this one.

THE EAST END

Charles Goodballet Writes From Manila.

ME IS IN VERY GOOD HEALTH

A New Pole Will be Erected, and a Large Flag Will Soon Float Above East End. List of Speakers For the Presbyterian Meetings Next Week.

Conrad Goodballet, of Helana, last Friday received from his brother Charles, now in Manila serving in the Seventeenth infantry, a letter describing one of the recent battles in which his regiment was engaged. His regiment was in the thickest of the fight, and prior to the time of the letter some sharp battles had been fought, but he escaped injury. A number of his company were killed or wounded. The letter concluded by stating that in the opinion of the writer the Filipinos should be free. They are a desperate set and would do harm to any one, at any time, should such a chance be pre-

Presbyterian Meetings.

A season of prayer will be observed in week, commencing Monday evening at days. 7:30 o'clock. The spring communion will be observed on the following Sunday. Rev. N. M. Crowe has secured the following gentlemen to speak during the week: Monday, Reverend McKee, of Wellsville; Tuesday, Rev. Walter Mansell; Wednesday, Rev. N. M. Crowe; Thursday, Rev. A. D. McCullough, Calcutta; Friday, Dr. John Lloyd Lee. No services will be held Saturday night. A special musical program is being arranged for the week.

New Flag and Pole.

During the war several prominent men of East End erected a flag pole on the hill overlooking Pennsylvania avenue. When peace was declared the pole was taken down by, it is said, a Spanish sympathizer, and as yet it has not been replaced, but will be within a short time. Aaron McDonald yesterday said he would secure a large pole from the woods provided a flag could be ecured. Several young men heard of the offer, and after consulting with Mr. Peach. McDonald a deal was arranged. The flag will be the largest that can be secured in Liverpool

Doing Police Duty.

Fireman Terrence is now doing police duty on the streets every evening between 6 and 10 o'clock. The order was given by Chief Morley and went into effect last Friday. The East End now has an excellent police service as two officers are on duty part of the day, while in other wards only one officer is on duty.

Excellent Work.

Street Commissioner Ramsey is doing some excellent work on the streets. Mulberry street during the past few days has been greatly improved, and the street is now in a better condition than ever before.

Machine Broke.

The brick machine at the plant of the Ohio Clay Manufacturing company broke yesterday afternoon, compelling the entire plant to suspend operations Work was resumed as usual this morning.

Will Be Ready Soon.

The new building being erected in Mulberry street by Frank Alabaugh will be completed within a few days. It will be occupied by a butcher.

Recovering.

Martin Elliott, of Mulberry street, State of Ohio, City of Toledo, SS who recently injured a finger of his left hand, is recovering. The injury has caused him much pain.

Personal.

Keystone State.

Mrs. Finley Improving.

Mrs. W. A. Finley, who has been seriously ill at her home in Mulberry street for several days, is improving rapidly.

Moved to Canton.

William Calhoun today moved his household effects to Canton where he recently took a position.

Improving a House. Conrad Goodballet has commenced Sold by druggists, 75c.

some extensive improvements on his residence in Helana.

JUST DRUNK.

But the Old Man Rolled In California Hollow Mad.

An old man, followed by a crowd of boys, created more than the usual commotion in California hollow, yesterday afternoon.

The individual in question was drunk, very drunk. He had been down in the city, and after filling himself almost to overflowing, had filled a bottle which he carried in his coat pocket. His legs could not support the added weight, and he went down a number of times, falling into the mud and rolling about in his endeavor to rise. They have seen jags before in California hollow, but this one was so complete that many persons went to their doors, while the jeering crowd had increased to a considerable number before the old man finally found his way to his home.

GOING TO WELLSVILLE.

H. A. Weeks Will Have Charge of the New Pottery Office,

H. A. Weeks, who for 11 years had charge of the office work of the Knowles, Taylor & Anderson company in East End, has taken a position with the United States Pottery company, and yesterday took up his duties.

Mr. Weeks will have charge of the office and be the business manager of the new concern. It is expected the the Second Presbyterian church next company will be out for trade within 30

Last Night Enjoyed a Banquet and Cake Walk

The Chevalier club last evening held a banquet at their rooms. Guests to the number of 50 were present, and the address of the evening was made by W. W. Hole. Willis Davidson and George C. Simms responded with neat speeches. A musical program was rendered and the affair ended with a cake walk.

WHO WILL PRESIDE?

When the New Council Is Organized Next Tuesday Night.

Just one week from tonight the new council will meet and organize. There is much speculation as to when the first caucus will be held, but it will probably take place not later than Friday night. Who will be president of the body is the most important question to be deaided but it is thought it will be George

From Bad to Worse.

Several ladies and gentlemen were riding down town in a cable car. They were mostly strangers to one another. but the conversation became general.

One of the ladies had been at the opera the night before and was loud in her expressions of disapproval.

"Worse than all," she went on, "that Mme. Schroeder is much too old for her part. Her singing is becoming unbearable. Don't you think so, too?' she asked, turning to the gentleman next to her.

"Wouldn't you rather tell this to Mme. Schroeder herself? She is sitting beside you," he replied coldly.

After the general silence which fellowed the remark, the critical lady turned to the singer with many confused apologies.

"It is that horrid critic Schmieder who has influenced my judgment concerning your singing. I believe it is he who is always writing against you. He must be a most disagreeable and pedantic person.

"Had you not better tell all this to Mr. Schmieder himself?" calmly inquired Mme. Schroeder. "He is sitting next to me."-New York World.

Fashion Notes From Alaska.

Clothing stores all report a stead increase of Alaska business. The me noteworthy changes in the buy wants from last year are the denia for furs instead of woolens and to lighter footgear. Moccasins are popular Heavy blankets are unsalable. - Tacom

THE NATIONAL CAPITAL.

A Senator's Experience With Mr. Medill's Editorial Policy.

SECRETARY WILSON'S GOOD WORK.

Instances Showing That the Agricultural Department is Up With the Times-Agents Sent to Afghanistan and Smyrna-Burial Place For Volunteers at Arlington.

Senator Cullom recently sat on the comfortable leather sofa in the office of Comptroller Dawes at the treasury department and talked of Joseph Medill. says the St Louis Globe-Democrat correspondent The reminiscences were most kindly, and yet there was a time when the senator read all manner of "shots" at him on the editorial page of the Chicago Tribune That time, too. was in a campaign when such shots were supposed to count. Mr. Medill held to the good old fashioned doctrine that an infusion of the personal in journalism seasoned the editorial page The senator understood this and treasured no grievance One day at the close tives are pacified or subdued. I am go of the campaign, during which The Tribune had conducted continuous hostilities toward him, he was in Chicago and, meeting a Tribune man, inquired how his old friend Medill was. Before he knew what was going on the senator | The gold excitement, in my opinion found that smart young man had in will exceed that over the Klondike formed Mr Medill he wanted to see with no hardships to contend with him and that Mr. Medill had telephoned | Many of the volunteers would like to

went up there, although I had had no which amounts to about \$500, lots of such intention when the conversation | them will stay, for this amount will be started. As I went in Mr. Medill greeted a good stake in this country. me very cordially. He evidently wasn't entertaining anything personal against artillery, writing from Manila to Ther me. So I asked

" 'Look here, Medill! Why in thunder have you been roasting me all through this campaign?'

"Medill smiled and said " 'Cullom. sit down and let me tell you a story John A. Logan asked me a question very much like that at the close of a campaign some years ago. He didn't like what The Tribune had been saying about him One day I heard a knock at the door I said, "Come in. The door opened, and there was John. with his eyes flashing, his hair thrown back and a look on his face a little fiercer than usual "Come in." I said again. "Do I come in a friend or foe?" said Logan. "I pass, senator. You make the roll. It is safe to say, if Uncle San it," I said Logan came in and sat musters us out here, one-fourth of the down, and we had a pleasant visit. Of Wyoming and Montana men will recourse, said Senator Cullom, "I 'fol- main and try to locate a second Klon lowed suit' when Medill had told his dike story on Logan I found him very genial. It was evident at once he hadn't anything against me.

One of the most beautiful sites in the Arlington National cemetery has been selected as the spot for the last resting place of the dead soldiers who lost their lives in the Cuban and Porto Rican campaigns and whose bodies are not claimed by relatives, says the Chicago Tribune. Colonels Moore and True of the quartermaster's department were designated by Secretary Alger to select the place. It is on high ground, overlooking the Potomac river, on the south side of the mansion which was at one time the home of Robert E. Lee. Secretary Alger has approved the selection made by these two officers, and as soon as the transports bring the bodies to Washington they will be buried with military honors. A handsome monument will be erected to mark the last resting place of the heroes who died in the service of their country. Colonel Moore said recently

"If the parents and relatives knew what good care would be taken of these graves, they would not ask to have the bodies sent home to be buried in many instances in the small cities, only to be disturbed by the march of progress. If these bodies are buried at Arlington. the graves will be taken care of as long as the government stands, and on each Memorial day the people will decorate their graves.

"It is true," said Secretary Wilson of the department of agriculture recent ly to a representative of the St Louis Globe-Democrat, "that we are diverting a part of the money for the distribution of seeds. We are doing much more than simply distributing common seeds. This great country has within its confines almost every condition of climate and soil. Our object is to ascertain what particular parts of the United States will grow certain grains, fruits and vegetables. We find, for instance. that the finest muskmelons sold in the eastern markets come from the dry valleys of Colorado. There is, however in the valleys of Afganistan a musk melon greatly superior even to those raised in the west. So to Afghanistan we sent our agent, who returned us a quantity of seeds of this muskmelon. which often grows to a weight of from 20 to 30 pounds, and these seeds we are sending to the west this year.

"The Californians," continued the trees resembled those in the Scripture which bore no figs. Our scientists made a careful examination and decided it

vas because the polien was not reach ing the female flower This was demon strated by means of artificial fertiliza tion, the pollen being blown into the flowers by a blow pipe, and flowers s treated produced excellent fruit A agent was sent to Smyrna to see her trees were fertilized, and he found peculiar bee which lived among the fi trees and carried the pollen flower flower The people of Smyrna did in want to let any of these bees go out the country, but our agent brough some away in twigs Unfortunate they were dead before they reached u and more will have to be obtained

GOLD IN THE PHILIPPINES

Letters Telling of the Placer and Quartz Metal Found by the Natives.

An interesting letter has been receiv ed at Denver from E. C. Hamill of Rock Springs. Wy., who is making a tour of the world and has been sightseeing and prospecting in the Philippines for several months. Mr. Hamill, writing from Manila under date of Feb. 2, says

"I have been constantly on the look out for news of gold prospects in the interior A friend of mine, who has been out prospecting, tells me that in some of the remote districts the natives know where there is gold and sell it for from \$3 to \$10 an ounce. When the na ing back with this man into the in terior, and I am prepared to buy all the gold offered at these prices. I do not be lieve there is a country on earth that presents better opportunities at present for a young man than the Philippines back that he was at The Tribune office. locate here, and, if they can be discharg "Of course." said the senator, "I ed here with travel pay to their homes

Fay Fiefield of Battery A. Alger light

mopolis, Wy., says

"Gold has been found along the streams in the outskirts of Manila The natives bring in both placer and quartz gold. They say there is plenty of it in the interior, but that they don't know how to work it The natives have brought rock into Manila that fairly glittered with gold and bave also brought in coarse pieces of placer gold which they claim they got along the creeks. It is such exhibits as these that have started a miners' union in Manila Several old miners in the Montana regi ment started the ball rolling, and though the membership is small at pres ent, every day adds new members to -Denver Republican

THE EAST END

FIGHTING

Writes Goodballet Charles From Manila.

IS IN VERY GOOD HEALTH

A New Pole Will be Erected, and a Larg Flag Will Soon Float Above East End. List of Speakers For the Presbyterian Meetings Next Week.

Conrad Goodballet, of Helana, last Triday received from his brother Charles, now in Manila serving in the Seventeenth infantry, a letter describing one of the recent battles in which his regiment was engaged. His regiment was in the thickest of the fight, and prior to the time of the letter some sharp battles had been fought, but he escaped injury. A number of his company were killed or wounded. The letter concluded by stating that in the opinion of the writer the Filipinos should be free. They are a desperate set and would do harm to any one, at any time, should such a chance be pre-

Presbyterian Meetings.

week, commencing Monday evening at days. 7:80 o'clock. The spring communion will be observed on the following Sunday. Rev. N. M. Crowe has secured the following gentlemen to speak during the week: Monday, Reverend McKee, of Wellsville; Tuesday, Rev. Walter Mansell; Wednesday, Rev. N. M. Orowe; Thursday, Rev. A. D. McCullough, Calcutta; Friday, Dr. John Lloyd Lee. No services will be held Saturday night. A special musical program is being arranged for the week.

New Flag and Pole.

During the war several prominent men of East End erected a flag pole on the hill overlooking Pennsylvania avenue. When peace was declared the pole was taken down by, it is said, a Spanish sympathizer, and as yet it has not been replaced, but will be within a short time. Asron McDonald yesterday said he would secure a large pole from the woods provided a flag could be cured. Several young men heard the offer, and after consulting with Mr. McDonald a deal was arranged. The flag will be the largest that can be secured in Liverpool.

Doing Police Duty.

Fireman Terrence is now doing police duty on the streets every evening between 6 and 10 o'clock. The order was given by Chief Morley and went into effect last Friday. The East End now has an excellent police service as two officers are on duty part of the day, while in other wards only one officer is on duty.

Excellent Work.

Street Commissioner Ramsey is doing some excellent work on the streets. Mulberry street during the past few days has been greatly improved, and the street is now in a better condition than ever before.

Machine Broke.

The brick machine at the plant of the Ohio Clay Manufacturing company broke yesterday afternoon, compelling the entire plant to suspend operations Work was resumed as usual this morning.

Will Be Ready Soon.

The new building being erected in Mulberry street by Frank Alabaugh will be completed within a few days. It will be occupied by a butcher.

Recovering.

THE EAST END

Goodballet Writes Charles From Manila.

ME IS IN VERY GOOD HEALTH

A New Pole Will be Erected, and a Large Flag Will Soon Float Above East End. List of Speakers For the Presbyterian Meetings Next Week.

Conrad Goodballet, of Helana, last Friday received from his brother Charles, now in Manila serving in the Seventeenth infantry, a letter describing one of the recent battles in which his regiment was engaged. His regiment was in the thickest of the fight, and prior to the time of the letter some sharp battles had been fought, but he escaped injury. A number of his company were killed or wounded. The letter concluded by stating that in the opinion of the writer the Filipinos should be free. They are a desperate set and would do harm to any one, at any time, should such a chance be pre-

Presbyterian Meetings.

the Second Presbyterian church next company will be out for trade within 30 week, commencing Monday evening at days. 7:30 o'clock. The spring communion will be observed on the following Sunday. Rev. N. M. Crowe has secured the following gentlemen to speak during the week: Monday, Reverend McKee, of Wellsville; Tuesday, Rev. Walter Mansell; Wednesday, Rev. N. M. Orowe; Thursday, Rev. A. D. McCullough, Calcutta; Friday, Dr. John Lloyd Lee. No services will be held Saturday night. A special musical program is being arranged for the week.

New Flag and Pole.

During the war several prominent men of East End erected a flag pole on the hill overlooking Pennsylvania avenue. When peace was declared the pole was taken down by, it is said, a Spanish sympathizer, and as yet it has not been replaced, but will be within a short time. Asron McDonald yesterday said he would secure a large pole from the woods provided a flag could be secured. Several young men heard of cided, but it is thought it will be George the offer, and after consulting with Mr. McDonald a deal was arranged. The flag will be the largest that can be secured in Liverpool.

Doing Police Duty.

Fireman Terrence is now doing police duty on the streets every evening between 6 and 10 o'clock. The order was given by Chief Morley and went into effect last Friday. The East End now has an excellent police service as two officers are on duty part of the day, while in other wards only one officer is on duty.

Excellent Work.

Street Commissioner Ramsey is doing some excellent work on the streets. Mulberry street during the past few days has been greatly improved, and the street is now in a better condition than ever before.

Machine Broke.

The brick machine at the plant of the Ohio Clay Manufacturing company broke yesterday afternoon, compelling the entire plant to suspend operations Work was resumed as usual this morning.

Will Be Ready Soon.

The new building being erected in Mulberry street by Frank Alabaugh will be completed within a few days. It will be occupied by a butcher.

Recovering.

who recently injured a finger of his left hand, is recovering. The injury has caused him much pain.

Personal.

in the city yesterday morning on the every case of catarrh that cannot be Keystone State.

Mrs. Finley Improving.

Mrs. W. A. Finley, who has been seriously ill at her home in Mulberry street for several days, is improving rapidly.

Moved to Canton.

William Calhoun today moved his household effects to Canton where he recently took a position.

Improving a House.

some extensive improvements on his residence in Helana.

JUST DRUNK,

But the Old Man Rolled In California

An old man, followed by a crowd of boys, created more than the usual commotion in California hollow, yesterday afternoon.

The individual in question was drunk, very drunk. He had been down in the city, and after filling himself almost to overflowing, had filled a bottle which he carried in his coat pocket. His legs could not support the added weight, and he went down a number of times, falling into the mud and rolling about in his endeavor to rise. They have seen jags before in California hollow, but this one was so complete that many persons went to their doors, while the jeering crowd had increased to a considerable number before the old man finally found his way to his home.

GOING TO WELLSVILLE.

H. A. Weeks Will Have Charge of the New Pottery Office

H. A. Weeks, who for 11 years had charge of the office work of the Knowles. Taylor & Anderson company in East End, has taken a position with the United States Pottery company, and yesterday took up his duties.

Mr. Weeks will have charge of the office and be the business manager of A season of prayer will be observed in the new concern. It is expected the

CHEVALIER CLUB

Last Night Enjoyed a Banquet and Cake Walk.

The Chevalier club last evening held a banquet at their rooms. Guests to the number of 50 were present, and the address of the evening was made by W. W. Hole. Willis Davidson and George C. Simms responded with neat speeches. A musical program was rendered and the affair ended with a cake walk.

WHO WILL PRESIDE?

When the New Council Is Organized Next Tuesday Night.

Just one week from tonight the new council will meet and organize. There is much speculation as to when the first caucus will be held, but it will probably take place not later than Friday night. Who will be president of the body is the most important question to be de-

From Bad to Worse.

Several ladies and gentlemen were riding down town in a cable car. They were mostly strangers to one another, but the conversation became general.

One of the ladies had been at the opera the night before and was loud in her expressions of disapproval.

"Worse than all," she went on, 'that Mme. Schroeder is much too old for her part. Her singing is becoming unbearable. Don't you think so, too?" she asked, turning to the gentleman next to her.

"Wouldn't you rather tell this to Mme. Schroeder herself? She is sitting beside you," he replied coldly.

After the general silence which fellowed the remark, the critical lady turned to the singer with many confused apologies.

"It is that horrid critic Schmieder who has influenced my judgment concerning your singing. I believe it is he who is always writing against you. He must be a most disagreeable and pedantic person.

"Had you not better tell all this to Mr. Schmieder himself?" calmly inquired Mme. Schroeder. "He is sitting next to me. "-New York World.

Fashion Notes From Alaska.

Clothing stores all report a stead increase of Alaska business. The me noteworthy changes in the buy wants from last year are the dense for furs instead of woolens and t lighter footgear. Moccasins are popular Heavy blankets are unsalable. - Taccana Ledger

THE NATIONAL CAPITAL.

A Senator's Experience With Mr. Medill's Editorial Policy.

SECRETARY WILSON'S GOOD WORK.

Instances Showing That the Agricultural Department Is Up With the Times-Agents Sent to Afghanistan and Smyrna-Burial Place For Volunteers at Arlington.

Senator Cullom recently sat on the comfortable leather sofa in the office of Comptroller Dawes at the treasury department and talked of Joseph Medill. says the St Louis Globe-Democrat correspondent The reminiscences were most kindly, and yet there was a time when the senator read all manner of "shots" at him on the editorial page of the Chicago Tribune. That time, too. was in a campaign when such shots were supposed to count. Mr. Medill held to the good old fashioned doctrine that an infusion of the personal in journalism seasoned the editorial page The senator understood this and treasured no grievance One day at the close of the campaign, during which The Tribune had conducted continuous hostilities toward him, he was in Chicago and, meeting a Tribune man, inquired how his old friend Medill was. Before he knew what was going on the senator found that smart young man had informed Mr. Medill he wanted to see him and that Mr. Medill had telephoned back that he was at The Tribune office.

"Of course, said the senator, "I went up there, although I had had no such intention when the conversation started. As I went in Mr. Medill greeted me very cordially. He evidently wasn't entertaining anything personal against me. So I asked

" 'Look here, Medill! Why in thunder have you been roasting me all

through this campaign?

"Medill smiled and said " 'Cullom. sit down and let me tell you a story John A. Logan asked me a question very much like that at the close of a campaign some years ago He didn't like what The Tribune had been saying about him One day I heard a knock at the door I said, "Come in. The door opened, and there was John. with his eyes flashing, his hair thrown back and a look on his face a little fiercer than usual. "Come in." I said again. "Do I come in a friend or foe?" said Logan. "I pass, senator. You make it." I said Logan came in and sat down, and we had a pleasant visit. Of Wyoming and Montana men will recourse," said Senator Cullom, "I 'fol- main and try to locate a second Kion lowed suit' when Medill had told his dike "-Denver Republican story on Logan I found him very genial. It was evident at once he hadn't anything against me.

One of the most beautiful sites in the Arlington National cemetery has been selected as the spot for the last testing place of the dead soldiers who lost their lives in the Cuban and Porto Rican campaigns and whose bodies are not claimed by relatives, says the Chicago Tribune. Colonels Moore and True of the quartermaster's department were designated by Secretary Alger to select the place. It is on high ground, overlooking the Potomac river, on the south side of the mansion which was at one time the home of Robert E. Lee. Secretary Alger has approved the selection made by these two officers, and as soon as the transports bring the bodies to Washington they will be buried with military honors. A handsome monument will be erected to mark the last resting place of the heroes who died in the service of their country. Colonel Moore said recently

"If the parents and relatives knew what good care would be taken of these graves, they would not ask to have the bodies sent home to be buried in many instances in the small cities, only to be disturbed by the march of progress. If these bodies are buried at Arlington. the graves will be taken care of as long as the government stands, and on each Memorial day the people will decorate their graves.

"It is true," said Secretary Wilson of the department of agriculture recently to a representative of the St Louis Globe-Democrat, "that we are diverting a part of the money for the distribution of seeds. We are doing much more than simply distributing common seeds. This great country has within its confines almost every condition of climate and soil. Our object is to ascertain what particular parts of the United States will grow certain grains, fruits that the finest muskmelons sold in the eastern markets come from the dry valleys of Colorado. There is, however in the valleys of Afganistan a musk melon greatly superior even to those raised in the west. So to Afghanistan we sent our agent, who returned us a quantity of seeds of this muskmelon. which often grows to a weight of from 20 to 30 pounds, and these seeds we are sending to the west this year.

"The Californians," continued the secretary. "complained that their fig trees resembled those in the Scripture which bore no figs. Our scientists made a careful examination and decided it

vas because the polien was not reach ing the female flower This was demon strated by means of artificial fertiliza tion, the pollen being blown into the flowers by a blow pipe, and flowers treated produced excellent fruit A agent was sent to Smyrna to see ho trees were fertilized, and he found peculiar bee which lived among the f trees and carried the pollen flower flower The people of Smyrna did no want to let any of these bees go out the country, but our agent brough some away in twigs Unfortunate they were dead before they reached u and more will have to be obtained

GOLD IN THE PHILIPPINES

Letters Telling of the Placer and Quartz Metal Found by the Natives.

An interesting letter has been receiv ed at Denver from E. C. Hamill of Rock Springs. Wy., who is making a tour of the world and has been sightseeing and prospecting in the Philippines for sev eral months. Mr. Hamill, writing from Manila under date of Feb. 2, says

"I have been constantly on the look out for news of gold prospects in the interior. A friend of mine, who has been out prospecting, tells me that in some of the remote districts the natives know where there is gold and sell it for from \$3 to \$10 an ounce. When the na tives are pacified or subdued. I am go ing back with this man into the in terior, and I am prepared to buy all the gold offered at these prices. I do not be lieve there is a country on earth that presents better opportunities at present for a young man than the Philippines The gold excitement, in my opinion will exceed that over the Klondike with no hardships to contend with Many of the volunteers would like to locate here, and, if they can be discharg ed here with travel pay to their homes. which amounts to about \$500, lots of them will stay, for this amount will be a good stake in this country.

Fay Fiefield of Battery A. Alger light artillery, writing from Manila to Ther

mopolis, Wy., says

"Gold has been found along the streams in the outskirts of Manila The natives bring in both placer and quartz gold. They say there is plenty of it in the interior, but that they don't know how to work it The natives have brought rock into Manila that fairly glittered with gold and have also brought in coarse pieces of placer gold which they claim they got along the creeks. It is such exhibits as these that have started a miners' union in Manila Several old miners in the Montana regi ment started the ball rolling, and though the membership is small at pres ent every day adds new members to the roll. It is safe to say, if Uncle San musters us out here, one-fourth of the

EVERY INCH A FIGHTER

Former Comrade of Colonel Egbers says a Gamer Man Never Lived.

The family of the late Colonel Henry C. Egbert formerly lived at Norwali. O He has three daughters and one son James, who enlisted in the Twenty second when it started for Manife Colonel Eghert was 60 years old Colo nel M A Cochran, formerly of the Sixth regiment, said recently

"A gamer man never lived than Es bert Although of small stature, he waevery inch a fighter and loved the smell of powder Colonel Egbert never over looked an opportunity to get to the front in time of battle. Personally is was a genial, whole souled fellow, albeit a stern disciplinarian It was a fore gone conclusion that if Egbert ever got into the Philippines he would be where danger was

The actions of Colonel Egbert up entering the grass field at the foot San Juan hill are described by men o his former command as remarkable The farther they went into the wilder ness of death the better pleased the li tle colonel seemed to be When the bu lets began singing around him. smiled. He watched his men with pleas ant curiosity and was gratified to fin them just as brave as himself. - No York Herald

A Salvation Army Leader For Mayor In James W Tapp Wichita, Kan has a reform candidate for may whose platform is more sweeping that has been any other thing of the kin even in reform Kansas. The reform which Candidate Tapp urges are n confined to city government or to poli tics, but include all fields in which he thinks he can make men and women better than they are. Mr. Tapp is the leader of the local Salvation Army, a prosperous merchant, real estate owner and philanthropist. - Chicago Times

An Original Oath of Allegiance.

In the old days when the Spanish province of Aragon was a proud and independent monarchy the people used, when choosing their king, the following singular form of election:

"We, the freeborn inhabitants of the ancient kingdom of Aragon, who are equal to you, Don Philip, and something more, elect you to be our king on condition that you preserve to us our rights and privileges. If in this you should fail, we own you for our king no longer. '-Harper's Round Table.

up to a sulky and take him to the race track for a spin. You doctor him. You cannot work or recreate a man into good health any more than you can a horse. Riconline horse. Bicycling will make healthy men more healthy; will make unhealthy men more unhealthy

When a man has been living in too big a hurry, when he has worked himself out, when he has got so that he does not sleep or eat, or rest and the whole world looks gloomy to him it is time for him to take medicine. Then,

when he is braced up a bit, it is time enough for him to take to the bicycle. When a man's nerves have an edge on them, so that the least little disappoint ment rasps on his temper like a file, when his stomach and liver and nerves are de ranged, and he is continually gloomy and melancholy, he should take Dr. Pierce's Golden Medical Discovery. It makes a man as hungry as a fisherman and sees to absorbed into the blood. It braces up the liver and puts it to work in the right way It drives all bilious impurities from the system. It fills flesh, nerves, brain cella sinews and bones with the life-giving elements of rich, red, pure blood. It makes a man healthy and then a bicycle will make him strong. Medicine dealers self it, and have nothing "just as good."

"Through your skillful treatment I am once more a well man," writes J. N. Arnold, Esq., of Gandy, Logan Co., Neb. "I suffered for years with constipation and torpidity of the liver irritation of the prostate and inflammation of the bladder. I took six bottles of 'Golden Medical Discovery' and 'Pleasant Pellets' and am permanently cured. You have been the means of saving my life."

A man or woman who neglects constipation suffers from slow poisoning. Dr. Pierce's Pleasant Pellets cure constipation. One little "Pellet" is a gentle laxative, and two a mild cathartic All medicine dealers sell them. No other pills are "just as good."

NEW LAUGHLIN POTTERY FOR THE STUDY OF BOTANY.

The Contract Was Given to Councilman McHenry.

TO BE FINISHED IN FIVE MONTHS

the Amount Involved Is Close to \$30,000. Work Will Be Commenced at Once. The Plant Will Have Six Kilns and Four Decorating Kilns.

The contract for the pottery to be erected by the Laughlin China company in East End was given out yesterday afternoon. The lucky bidder was Harvey McHenry, councilman elect from the First ward.

Work will be commenced on the plant at once, and it is believed the building will be completed and ready for occupancy in five months. The plant will be placed in operation as soon afterward as possible.

At the office of the company the amount of the contract could not be ascertained, but from another source it is learned that the amount is very close to \$30,000. The plant will be complete, consisting of the necessary buildings, ax kilus and four decorating kilus. It will be among the very best potteries in the country.

NO MEETING

Was Held by the Board of Education Last Night.

The board of education failed to meet last evening, as was the intention. Only three members appeared and it was decided to hold a meeting next Monday night.

Had the meeting been held it would have been a short one, inasmuch as very little business was to have been transacted.

APPRAISING PROPERTY.

Beputy Supplee Working In the Southern Section.

Deputy Sheriff Walter Supplee arrived an the city last night. This morning he appraised the Benjamin R. Little property in California hollow, and this after noon went to Calcutta where he appraised the Rauch estate. Tomorrow he will go to Salineville where he will serve summons in the case of Rebecca M. Baker against Phila McPherson.

SPRING MOVINGS.

A Number Received at the Freight Depot Today.

More movings were handled at the freight depot today than there has been at any one time for several weeks.

The effects of A. D. Eidiner were sent to Kensington, Pa., and the effects of H. M. Willis were received from Kittaning. The goods of Mrs. Clara Galenwolt came in from Steubenville.

BRING IT BACK.

This Thief Will Save Trouble by so Doing.

Station In Porto Rico.

The United States is planning to establish a botanical station in Porto Rico. Efforts are being made now to have the headquarters for scientists of this country in the newly acquired island of the United States. Application has been made to the department of agriculture, and the matter is under advisement in Washington.

The movement for a national biological station in the tropics was started several years ago by leading scientists in America. It assumed tangible form more than a year ago, when a committee was appointed to select a suitable location and to enlist the leading men of science in the country to support it. This committee announced its decision in favor of Jamaica, but the war with Spain came on before anything was done to establish the station. Since the United States has come into the possession of Porto Rico this island has been regarded as a suitable location for a scientific station.

Investigation has shown that the conditions are as favorable there as in Jamaica. As a consequence the committee of scientists has proposed the establishment of a station for research and investigation on the island. A petition has been sent to the department of agriculture asking government aid for the enterprise. It is proposed to establish a plant similar to the Buitenzorg station sustained by the German government in Java. It will be a place where American scientists can go for observation and study of the fauna and flora of the tropics. Some of the most valuable scientific discoveries in recent years have been the result of work done at the Buitenzorg station.

Dr. J. M. Coulter, professor of botany in the University of Chicago, who was chairman of the committee to locate the station, said of the matter the other day: "The department of agriculture has a man on the island now examining its flora with a view to advancing the commercial interests of the United States. Upon his return we shall ask the department to consider the advisa tility of establishing a station for scien tific research on the island. The island would be suitable for our purposes. The conditions are right for studying tropic al plant life. "-Chicago Times-Herald

TELEPHONES THAT SHOUT

invention That Renders a Microphone Audible Several Yards On.

An engineer named Germain in the French ministry of posts and telegraph has just brought out an invention which he claims will revolutionize the tele

phone. By an ingenious adaptation of the telephone wire the microphone is made to develop and intensify the vibration received so that it is unnecessary to place the receiver to the ear or stand with the mouth close to the transmitter. and conversation is easily carried on between two persons, both of whom may be several yards distant from the instrument.

The invention has been several times officially tested and pronounced a complete specess. It is familiarly known as "high speaker."-New York World

STRANGEFUNERALRITES TOPPOSTORISM TO THE STRANGEFUNERAL RITES

How Hawaii Buried the Princess Kaiulani.

SEVEN DAYS OF WEIRD-MOURNING.

A Waving of Plumes and Chanting of Lamentations Over the Casket. Midnight Removal of the Body-The Hearse Drawn by 230 Natives-Old Customs Revived.

The remains of Princess Kaiulani rest in the tomb where lie the bodies of all the Kamehamehas, except the great Kamehameha, who was buried, like Moses, no man knows where. The funeral took place on Sunday, March 12, and fully 25,000 people attended it. It is Hawaii's superstitition that the death of a member of the royal family is accompanied by the severest rainfall of the year. The conditions attending the death and burial of Kaiulani bore out the superstition. The rain began falling in torrents after she died and continued until after she was buried. The hours of the funeral, however, were bright and clear.

All that the military and civic pomp of civilization could add to the strange old Hawaiian funeral customs went to make the ceremony one not easily forgotten. For nearly seven days there was not an instant when some ceremony was not in progress. Soon after her death kahili bearers began waving royal kahilis, or feather plumes, ever her body. Every bearer, whether a man or a woman, wore a yellow feather cape. which is a sign of Hawaiian royalty The bearers stood rigidly erect, and the waving of the plumes was done according to a formula, from which it was a point of honor not to vary. At the beginning each bearer held his kahili in the "carry arms" position. At a signal the kahilis were extended in a horizontal position till they touched tips with those on the opposite side of the casket. Each bearer then waved his kahili to the right, then to the left, repeating each motion, and then holding the plumes aloft, finally returning to the first position. During the week several kahili bearers fainted from sheer exhausticn.

The body lay in state at Ainahan until the Friday preceding the funeral and was then removed to the Kawaialias church. The ceremony of removal was weird. It took place in the middle of the night. The sky was heavily overcast and threatened rain. Kahili bearers walked beside the hearse, waving aloft torches made of oily kukui nuts spitted on bamboo poles. Following the hearse. came members of the royal family in carriages, then friends, old servants and retainers. Among the last were many Mele women, who hand down from generation to generation the historical chants reciting the valor, great deeds and history of the Hawaiian people. They wailed and chanted throughout the journey to the church. Others wailed in cadence, while some of the old servants broke out in lamentations and expressions of personal grief. The darkness, the weird light of torches, the absence of the constraining presence of the white man and the white man's customs, revived in many of the old Hawaiians thought, and feelings of earlier days, and they broke into hula hula songs and dances, according to the ancient custom, which has latterly fallen into disuse since the hula has become

discredited. At the church a short service was held and finished at 2 o'clock in the morning. The church decorations were in sympathy with the Hawaiian cus-

toms on such occasions. Throughout Saturday rain fell in torrents, but the remains were viewed by thousands. After the funeral the quiet of the scene was broken by chants or by wailings and lamentations of old servants of the princess, who recited incidents of her life. Their words were extemporaneous, spoken in a chanting. melodious way, sometimes accompanied by a swaying of the body, which was kept up until the speakers dropped from sheer physical exhaustion.

The services on Sunday were those of the Anglican church. The funeral procession was led by the marshal of the republic, A. H. Brown, his deputies and a company of mounted police. Then followed members of the royal family. civil officials, foreign consuls, representatives of societies and the clergy including the Catholic bishop. The hearse was drawn by 230 natives, uni formed in white trousers, blue sweat ers, white hats and blue and yellow cloth capes From the church to the tomb is two miles, but the entire distance was lined with spectators. The services at the tomb were very simple The coffin was placed next to that containing the body of Princess Likelike, Kaiulani's mother, and near that of Kalakana. - New York Sun.

Lord Brassey Says We Should Establish an Autocratic Government.

Lord Brassey, governor of Victoria. has recently been accumulating data for a treatise or several treatises on the self governing colonies of Great Britain When speaking of the matter in an interview recently, he took for his text the plan of government suggested by the press in the United States for Cuba

and the Philippines. "If I had to insure success in respect to the maintenance of relations between a mother country and her colonies," he said. "I would insist that the mother country should not attempt to govern them There should be a laissez faire method which is what prevails in a measure now, and which, in the case of Great Britain, is the secret of the success of self government.

"If a country's sons go forth in the world to form new colonies, let them govern themselves. They were trained to good government, or should be. But this does not apply where an inferior race is to be governed, and Britain's success in that quarter is due almost entirely to two facts. Her governors are able men, and she never enrichee herself from the treasury of the country governed. We have learned this lesson often, but emphatically, and once for all in the war with America.

"In the case of America and Cuba and the Philippines. America must form a government on the lines of our crown colonies—an autocratic government-but no tribute must be laid on the subdued people. All revenues must be employed in the development of their own resources. Let the governors be chosen from the ablest diplomats of the

NEW LAUGHLIN POTTERY

The Contract Was Given to Councilman McHenry.

TO BE FINISHED IN FIVE MONTHS

the Amount Involved Is Close to \$30,000. Work Will Be Commenced at Once. The Plant Will Have Six Kilns and Four Decorating Kilns.

The contract for the pottery to be erected by the Laughlin China company in East End was given out yesterday afternoon. The lucky bidder was Harvey McHenry, councilman elect from the First ward.

Work will be commenced on the plant at once, and it is believed the building will be completed and ready for occupancy in five months. The entific station. plant will be placed in operation as soon afterward as possible.

At the office of the company the amount of the contract could not be ascertained, but from another source it s learned that the amount is very close to \$30,000. The plant will be complete, monsisting of the necessary buildings, gix kilus and four decorating kilus. It will be among the very best potteries in the country.

NO MEETING

Was Held by the Board of Education Last Night.

FOR THE STUDY OF BOTANY.

Movement to Establish a Botanical Station In Porto Rico.

The United States is planning to establish a botanical station in Porto Rico. Efforts are being made now to have the headquarters for scientists of this country in the newly acquired island of the United States. Application has been made to the department of agriculture, and the matter is under advisement in Washington.

The movement for a national biological station in the tropics was started several years ago by leading scientists in America. It assumed tangible form more than a year ago, when a committee was appointed to select a suitable location and to enlist the leading men of science in the country to support it. This committee announced its decision in favor of Jamaica, but the war with Spain came on before anything was done to establish the station. Since the United States has come into the possession of Porto Rico this island has been regarded as a suitable location for a sci-

Investigation has shown that the conditions are as favorable there as in Jamaica. As a consequence the committee of scientists has proposed the establishment of a station for research and inveetigation on the island. A petition has been sent to the department of agriculture asking government aid for the enterprise. It is proposed to establish a plant similar to the Buitenzorg station sustained by the German government in Java. It will be a place where American scientists can go for observation and study of the fauna and flora of the tropics. Some of the most valuable scientific discoveries in recent years have been the result of work done at the Buitenzorg station.

Dr. J. M. Cculter, prefessor of botany in the University of Chicago, who was chairman of the committee to locate the station, said of the matter the other day: "The department of agriculture has a man on the island now examining its flora with a view to advancing the commercial interests of the United States. Upon his return we shall ask the department to consider the advisa tility of establishing a station for scien tific research on the island. The island would be suitable for our purposes. The conditions are right for studying tropic al plant life. "-Chicago Times-Herald

How Hawaii Buried the Princess Kajulani.

SEVEN DAYS OF WEIRD-MOURNING.

A Waving of Plumes and Chanting of Lamentations Over the Casket. Midnight Removal of the Body-The Hearse Drawn by 230 Natives-Old Customs Revived.

The remains of Princess Kaiulani rest in the tomb where lie the bodies of all the Kamehamehas, except the great Kamehameha, who was buried, like Moses, no man knows where. The funeral took place on Sunday, March 12, and fully 25,000 people attended it. It is Hawaii's superstitition that the death of a member of the royal family is accompanied by the severest rainfall of the year. The conditions attending the death and burial of Kaiulani bore out the superstition. The rain began falling in torrents after she died and continued until after she was buried. The hours of the funeral, however, were

bright and clear. All that the military and civic pomp of civilization could add to the strange old Hawaiian funeral customs went to make the ceremony one not easily forgotten. For nearly seven days there was not an instant when some ceremony was not in progress. Soon after ber death kahili bearers began waving royal kahilis, or feather plumes, ever her body. Every bearer, whether a man or a woman, wore a yellow feather cape. which is a sign of Hawaiian royalty The bearers stood rigidly erect, and the waving of the plumes was done according to a formula, from which it was a point of honor not to vary. At the beginning each bearer held his kahili in the "carry arms" position. At a signal the kahilis were extended in a horizontal position till they touched tips with those on the opposite side of the casket. Each bearer then waved his kahili to the right, then to the left, repeating each motion, and then holding the plumes aloft, finally returning to the first position. During the week several kahili bearers fainted from sheer

exhausticn. The body lay in state at Ainahan until the Friday preceding the funeral and was then removed to the Kawaialias church. The ceremony of removal was weird. It took place in the middle of the night. The sky was heavily overcast and threatened rain. Kahili bearers walked beside the hearse, waving aloft torches made of oily kukui nuts spitted on bamboo poles. Following the hearse. came members of the royal family in carriages, then friends, old servants and retainers. Among the last were many Mele women, who hand down from generation to generation the historical chants reciting the valor, great deeds and history of the Hawaiian people. They wailed and chanted throughout the journey to the church. Others wail ed in cadence, while some of the old servants broke out in lamentations and expressions of personal grief. The darkness, the weird light of torches, the absence of the constraining presence of the white man and the white man's customs, revived in many of the old Hawaiians thought, and feelings of earlier days, and they broke into hula hula songs and dances, according to the ancient custom, which has latterly fallen into disuse since the hula has become

discredited. At the church a short service was held and finished at 2 o'clock in the morning. The church decorations were in sympathy with the Hawaiian cus-

toms on such occasions. Throughout Saturday rain fell in tor rents, but the remains were viewed by thousands. After the funeral the quiet of the scene was broken by chants on by wailings and lamentations of old servants of the princess, who recited incidents of her life. Their words were extemporaneous, spoken in a chanting. melodious way. sometimes accompanied by a swaying of the body, which was kept up until the speakers dropped from sheer physical exhaustion.

The services on Sunday were those of the Anglican church. The funeral procession was led by the marshal of the republic. A. H. Brown, his deputies and a company of mounted police. Then followed members of the royal family. civil officials, foreign consuls, representatives of societies and the clergy including the Catholic bishop. The hearse was drawn by 280 natives, uni formed in white trousers, blue sweat ers, white hats and blue and yellow cloth capes From the church to the tomb is two miles, but the entire distance was lined with spectators. The services at the tomb were very simple The coffin was placed next to that containing the body of Princess Likelike, Kainlani's mother, and near that of Kalakaua. - New York Sun.

Lord Brassey Says We Should Es tablish an Autocratic Government.

Lord Brassey, governor of Victoria. has recently been accumulating data for a treatise or several treatises on the self governing colonies of Great Britain When speaking of the matter in an interview recently, he took for his text the plan of government suggested by the press in the United States for Cuba and the Philippines.

"If I had to insure success in respect to the maintenance of relations between a mother country and her colonies." he said. "I would insist that the mother country should not attempt to govern them There should be a laissez faire method which is what prevails in a measure now, and which, in the case of Great Britain, is the secret of the

success of self government. "If a country's sons go forth in the world to form new colonies, let them govern themselves. They were trained to good government, or should be. But this does not apply where an inferior race is to be governed, and Britain's success in that quarter is due almost entirely to two facts: Her governors are able men, and she never enriches herself from the treasury of the country governed. We have learned this lesson often, but emphatically, and once for all in the war with America.

"In the case of America and Cuba and the Philippines. America must form a government on the lines of our crown colonies-an autocratic govern ment-but no tribute must be laid on the subdued people. All revenues must be employed in the development of their own resources. Let the governors be chosen from the ablest diplomats of the

CUTHBERT could have won out easily in the Fourth ward had it not been understood, by neighbors of Mr. Fisher that he could be depended upon for dean and righteous government. He may yet disagreeably disappoint the whisky and lawless element.

THE CONVENTION.

It is possible the Republican convention will be held about the middle of May at some place not yet decided upon. There are many reasons why the ticket should be early in the field, but it is intimated that at least one candidate is very anxious to have the early date chosen. For that reason some others are opposed to May and think the old custom should be followed. Whether the matter will cause sufficient commotion to create a breeze remains to be seen, but it must be remembered that the Republican nomination for governor is being eagerly sought and the battle is on in earnest.

STILL HUMANE.

The determination of the government to remove to this country the bodies of American soldiers who gave up their lives in the Philippines, shows once more that humanity which is indeed a part of the Republic When it was announced last fall that none of our soldiers should lie in Cuban soil the world opened its eyes in wonder and could not understand, for other nations think little of the men who follow their flag until it takes them to death. Now they can wonder again. This time, instead of going a few hundred miles, the men who will return with the death ships will cross a great trackless waste No. 315 East Market street, last evenof water, consuming weeks in making ing at 8:30 o'clock. Had it not been for the journey. There is no nation on earth like the American government.

INTERESTING.

Will Likely be Asked For County and Township Doctors.

The township trustees have been for show 'em that there's more wards than some time endeavoring to arrange with the infirmary directors to employ a county and township physician, and let the contract to the lowest bidder.

The trustees now understand that the infirmary directors have already engaged Doctor Andrews as county physician, and it is probable Doctor Williams will be engaged as township physician without any bids being taken. The matter will be settled in a few weeks.

PLACES It Sometimes Results In the Death of Bridgeroom.

A St. Paul man who has recently returned from a journey in the wilds of Luzon describes the courtship of the na tives as follows

The courtship of the natives is novel. to say the least, sometimes resulting in the death of the intending bridegroom When the would be husband finds his ideal, he goes to her father and asks for her hand. If the parent approves of the young man's choice he says, "All right, my boy," or words to that effect, and the would be goes to seek the object of his admiration.

They stroll together in the forest, he whispering soft nothings, she cooing and on the lookout for two fine ralm leaves. Upon finding them she holds one under each arm while the wooer stands at a prescribed distance and, brandishing his spear, attempts to pierce the leaves, one after the other. Should he miss his mark and mark his miss she gives an ear splitting whoop, and her father arrives on the scene and slays the clumsy spearman with his own weapon. -St. Paul Pioneer Press.

New Chinese Nuts.

The ly-chee nut has appeared above the horizon as the latest accessory to the luncheon or dinner party. It come from China and in appearance, taste and odor has all the orientalism of most such products. Besides being hard to obtain, it is sufficiently dear to prevent its becoming common, while it also possesses the virtue of being a decided novelty. But no hostess need fear that her guests will consume too many chee nuts, to the exclusion of other viands on the table, for, while they taste as sandalwood sweetened might be supposed to taste, two are about as many as the ordinary palate cares for-Chi cago Times-Herald.

Kaffir Swimming Feats.

The Kaffirs are great swimmers. They can do things in the water which other folk would look upon with astonishment. For example, a Kaffir boy can ford a stream shoulder high, running as swiftly as if shot from a torrent The way they accomplish the feat is thus: Just before entering the water they get a huge stone, sometimes as heavy as themselves, and with the help of a companion place it upon the head A weight like this gives the boy barance, and he can keep his footing against the heaviest stream. If he were to drop the stone, he would be so light that the water would sweep him off his feet. And this is just one of the Kaffir tricks to accomplish things against tide

COOK COOKED IN THE SECOND

a Big Majority-Fisher Was a Surprise In for some time, and went in to win the Fourth, Defeating Cuthbert-Repub- Today he is being congratulated by his licans Will Occupy Seats In the Board of many friends. leation, But A. S. Young Went Ahead of His Ticket.

George Peach is to again occupy his seat as a member from the Third, and F. M. Fisher will be the representative from the Fourth. These facts represent the most interesting portion of the returns from the municipal election of

When the polls closed last evening there were few, even among old politicians who had been watching the fight, who would venture an opinion as to the outcome. The campaign had been bitterly fought in some wards, and there were such issues at stake that no man could venture the opinion as to how his neighbor would vote. The ticket was not long, but the results came in slowly, and it was after 10 o'clock before the count in the second precinct of the Fourth ward was ready for the public. Of course the News Review bulletined the result in every precinct as soon as it was known, and a large crowd spent the evening in Washington street watching eagerly for the figures that would announce the fate of their favorite candidates. McHenry seemed to be close to the majority, for a cheer went up when his election was bulletined. It was the only cheer of the evening. The report was highly appreciated as it was the only place in the city where the general public could obtain the information it so eagerly sought.

The interest manifested in the councilmanic contest was keen. Harvey McHenry, much more as the candidate of the Good Citizens League than as the nominee of the Democratic caucus, made a wonderful run in the First ward against James Challis, whose name was under the eagle. Mr. McHenry's friends turned out in troops to his support, and he won. The East End was a surprise to many persons since Challis had carried it by a big vote at the primaries and it was generally believed he would repeat his success. The other precincts also showed so well for McHenry that his victory was complete. Challis did not carry a precinct of the ward.

Josiah T. Smith, the new councilman the First, a contractor and builder. He works bonds was defeated. was supported at the primaries by the

Cook, made a strong fight for the place and succeeded in carrying the first precinct, but when the vote was counted in the second, the hill precinct as it is known, Mr. Smith had a substantial majority. The fight here waged from the day following the primaries, when it was stated that a contest would be made for the seat if Mr. Smith was elected on the ground that he is not & resident of the ward. He showed, how-While Peach Won Out In the Third With ever, that he had resided in the ward

George Huston, Democratic can didate for council in the Third, was endorsed by the League, and Challis has gone to join his friends they worked hard to make him win, but who were defeated at the late Republi. George Peach, who is now in council. can primaries, Josiah T. Smith will rep. fought for the seat, and was reresent the Second ward in council, elected by a substantial majority. One feature of the campaign in this ward was the number of circulars issued by the contesting parties.

> Out in the Fourth was waged the hottest battle of the day. William Cuthbert had defeated George Olnhausen at the primaries, and in addition to being the Republican nomines was backed by the league. F. M. Fisher, the Democratic candidate, was supported in his campaign by many members of his party who are also connected with the league. When yesterday arrived it was found, however, that another element was backing Fisher for all it was worth. and he was elected. Mr. Cuthbert carried the first precinct by four votes, and gave Fisher a close chase in the second It will be remembered that he was nominated by the heavy vote given him in

> the precinct he lost on election day. The new members of the board of education are Rev. Dr. Taggart and J. H. Smith, Walter B. Hill succeeding himself. A. S. Young, Prohibition candidate, polled a very good vote, being by long odds the leader on his ticket The number of ladies who voted was much larger than for several years.

The remainder of the city Republican ticket was elected with large majorities. while the township showed itself to be safely for the same ticket.

The total number of votes cast for the regular city ticket was 2,643, divided 88 follows: Republican 1,703, Democratio 431, Prohibition 169; school board, 2,701 In the township 122 votes were cast.

Salem.

The election yesterday resulted as follows:

Marshal-Johnson, R., 879, Howell. D., 536. Council—Sears, R., 206 Wisner, D., 137; Reed, R., 144, Steele, D., 105; Saxton, R., 123, Cavanaugh D., 161; Wilson, R., 183, McNeelan, D 222. School board-Hampson, R., 808 Hayes, R., 838, McArtor, D., 488, Wal ton, D., 477.

Lisbon.

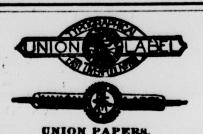

The Republicans won yesterday, but from the Second, is like the winner in the proposition to issue \$20,000 water

GOOD BYE CHALLIS

He Followed Olnhausen and His Friend Stewart.

COOK COOKED IN THE SECOND

the Fourth, Defeating Cuthbert-Republication Today he is being congratulated by his licans Will Occupy Seats. In the Board of many friends. Education, But A. S. Young Went Ahead of His Ticket.

F. M. Fisher will be the representative from the Fourth. These facts represent the most interesting portion of the returns from the municipal election of yesterday.

When the polls closed last evening there were few, even among old politicians who had been watching the fight, who would venture an opinion as to the outcome. The campaign had been bitterly fought in some wards, and there were such issues at stake that no man could venture the opinion as to how his neighbor would vote. The ticket was not long, but the results came in slowly, and it was after 10 o'clock before the count in the second precinct of the Fourth ward was ready for the public. Of course the News Review bulletined the result in every precinct as soon as it was known, and a large crowd spent the evening in Washington street watching eagerly for the figures that would announce the fate of their favorite candidates. McHenry seemed to be close to the majority, for a cheer went up when his election was bulletined. It was the only cheer of the evening. The report was highly appreciated as it was the only place in the city where the general public could obtain the information it so eagerly sought.

The interest manifested in the councilmanic contest was keen. Harvey McHenry, much more as the candidate of the Good Citizens League than as the nominee of the Democratic caucus, made a wonderful run in the First ward against James Challis, whose name was under the eagle. Mr. McHenry's friends turned out in troops to his support, and he won. The East End was a surprise to many persons since Challis had carried it by a big vote at the primaries and it was generally believed he would repeat his success. The other precincts also showed so well for McHenry that his victory was complete. Challis did not carry a precinct of the ward.

Josiah T. Smith, the new councilman from the Second, is like the winner in the First, a contractor and builder. He was supported at the primaries by the

League, and won against W. C. Stewart. His Democratic opponent, Edward Cook, made a strong fight for the place and succeeded in carrying the first precinct, but when the vote was counted in the second, the hill precinct as it is known, Mr. Smith had a substantial majority. The fight here waged from the day following the primaries, when it was stated that a contest would be made for the seat if Mr. Smith was elected on the ground that he is not a resident of the ward. He showed, how-While Peach Won Out In the Third With ever, that he had resided in the ward a Big Majority-Fisher Was a Surprise In for some time, and went in to win

George Huston, Democratic candidate for council in the Third, was endorsed by the League, and Challis has gone to join his friends they worked hard to make him win, but who were defeated at the late Republi. George Peach, who is now in council. can primaries, Josiah T Smith will rep. fought for the seat, and was reresent the Second ward in council, elected by a substantial majority. One George Peach is to again occupy his feature of the campaign in this ward seat as a member from the Third, and was the number of circulars issued by the contesting parties.

> Out in the Fourth was waged the hottest battle of the day. William Cuthbert had defeated George Olnhausen at the primaries, and in addition to being the Republican nomines was backed by the league. F. M. Fisher, the Democratic candidate, was supported in his campaign by many members of his party who are also connected with the league. When yesterday arrived it was found, however, that another element was backing Fisher for all it was worth. and he was elected. Mr. Cuthbert carried the first precinct by four votes, and gave Fisher a close chase in the second It will be remembered that he was nominated by the heavy vote given him in the precinct he lost on election day.

> The new members of the board of education are Rev. Dr. Taggart and J. H. Smith, Walter B. Hill succeeding himself. A. S. Young, Prohibition candidate, polled a very good vote, being by long odds the leader on his ticket The number of ladies who voted was much larger than for several years.

> The remainder of the city Republican ticket was elected with large majorities. while the township showed itself to be safely for the same ticket.

> The total number of votes cast for the regular city ticket was 2,643, divided as follows: Republican 1,703, Democration 431, Prohibition 169; school board, 2,701 In the township 122 votes were cast.

The election yesterday resulted as

Marshal-Johnson, R., 879, Howell, D., 536. Council-Sears, R., 206 Wisner, D., 137; Reed, R., 144. Steele D., 105; Saxton, R., 123, Cavanaugh D., 161; Wilson, R., 183, McNeelan, D. 222. School board-Hampson, R., 808 Hayes, R., 838, McArtor, D., 488, Wal ton, D., 477.

Lisbon.

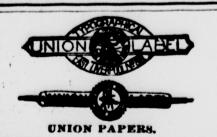

The Republicans won yesterday, but the proposition to issue \$20,000 water works bonds was defeated.

SEADING DAILY OF COLUMBIANA COUNTY

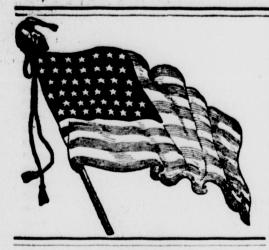

PUBLISHED DAILY EXCEPT SUNDAY BY THE NEWS REVIEW COMPANY. HARRY PALMER, Manager and Proprietor. [Entered as second class matter at the East Liverpool, O., postoffice.]

TERMS OF SUBSCRIPTION: Postage free in United States and Canada.)

BAST LIVERPOOL, O., TUESDAY, APRIL 4.

All Union papers of East Liverpool are news to the various craft and unions of e city by the printing of the above Union Labels at the head of their columns

CUTHBERT could have won out easily in the Fourth ward had it not been understood, by neighbors of Mr. Fisher that he could be depended upon for clean and righteous government. He may 'yet disagreeably disappoint the whisky and lawless element.

THE CONVENTION.

It is possible the Republican convention will be held about the middle of May at some place not yet decided apon. There are many reasons why the ticket should be early in the field, but it is intimated that at least one candidate is very anxious to have the early date chosen. For that reason some others are opposed to May and think the old custom should be followed. Whether the matter will cause sufficient commotion to create a breeze remains to be seen, but it must be remembered that the Republican nomination for governor is being eagerly sought and the battle is on in earnest.

STILL HUMANE.

The determination of the government to remove to this country the bodies of Almost Caused the Destruction American soldiers who gave up their lives in the Philippines, shows once more that humanity which is indeed a part of the Republic When it was announced last fall that none of our soldiers should lie in Cubsn soil the world opened its eyes in wonder and could not understand, for other nations think little of the men who follow their flag until it takes them to death. Now they can wonder again. This time, instead of going a few hundred miles, the men who will return with the death the journey. There is no nation on earth like the American government.

INTERESTING.

the candidate of the clean element of floor, and in each room the flames were the Democratic party, as represented in found in a bed. A number of extinthe Good Citizens League. The League guishers were used, and within half felt they were safe in the Fourth ward, an hour the flames were extinas Cuthbert was known to be a safe and guished. As the fireman a true man. A full line of these goods—waist bones sold by the yard -in cotton, gros grain or satin eovered. Piping bone for skirts, hook and eye bone, and featherbone tape.

Featherbone Bustles.

Elastic, durable, correctly shaped, 50c and 85c. Shirt waist forms and bust form extenders.

of a House.

GIVEN **EXPLANATION** IS

When the Department Arrived Flames Were Found In Three Beds on the Sec end Floor, and In a Closet on the First. The Damage Is Slight.

A fire of mysterious origin occurred in the house occupied by Harriet Bills, ships will cross a great trackless waste No. 315 East Market street, last evenof water, consuming weeks in making ing at 8:30 o'clock. Had it not been for the quick response of the department it is very probable the house would have been burned.

When the department arrived fire was Mr. Fisher, of the Fourth ward, was discovered in three rooms on the second

The house is owned by City Engineer Meredith. It was feared by earnest George, and when seen this morning he practical workers that Mr. Fisher could stated he could not give an estimate of not be relied upon when this was made his loss, as he had not seen the build-

> The fire was a hard one for the firemen to fight, as the smoke from the burning building was dense.

NO BIDS

Will Likely be Asked For County and Township Doctors.

The township trustees have been for some time endeavoring to arrange with the infirmary directors to employ a county and township physician, and let the contract to the lowest bidder.

The trustees now understand that the infirmary directors have already engaged Doctor Andrews as county physician, and it is probable Doctor Williams will be engaged as township physician without any bids being taken. The matter will be settled in a few weeks.

FILIPINO COURTSHIP.

It Sometimes Results In the Death of

A St. Paul man who has recently re turned from a journey in the wilds of Luzon describes the courtship of the ua tives as follows

The courtship of the natives is novel. to say the least, sometimes resulting in the death of the intending bridegroom When the would be husband finds his ideal, he goes to her father and asks for her hand. If the parent approves of the young man's choice he says, "All right, my boy," or words to that effect, and the would be goes to seek the object of his admiration.

They stroll together in the forest, he whispering soft nothings, she cooing and on the lookout for two fine ralm leaves. Upon finding them she holds one under each arm while the wooer stands at a prescribed distance and, brandishing his spear, attempts to pierce the leaves, one after the other. Should he miss his mark and mark his miss she gives an ear splitting whoop, and her fa ther arrives on the scene and slays the clumsy spearman with his own weapon St. Paul Pioneer Press

New Chinese Nuts.

The ly-chee nut has appeared above the horizon as the latest accessory to the luncheon or dinner party. It comes from China and in appearance, taste and odor has all the orientalism of most such products. Besides being hard to obtain, it is sufficiently dear to prevent its becoming common, while it also possesses the virtue of being a decided novelty. But no hostess need fear that her guests will consume too many chee nuts, to the exclusion of other viands on the table, for, while they taste as sandalwood sweetened might be supposed to taste, two are about as many as the ordinary palate cares for-Chi cago Times-Herald

Kattir Swimming Feats.

The Kaffirs are great swimmers. They can do things in the water which other folk would look upon with astonishment. For example, a Kaffir boy can ford a stream shoulder high, running as swiftly as if shot from a torrent The way they accomplish the feat is thus: Just before entering the water they get a huge stone, sometimes as heavy as themselves, and with the help of a companion place it upon the head A weight like this gives the boy bal ance, and he can keep his footing against the heaviest stream. If he were to drop the stone, he would be so light that the water would sweep him off his feet. And this is just one of the Kaffir tricks to accomplish things against tide

Salem.

The election yesterday resulted as follows:

Marshal-Johnson, R., 879, Howell. D., 536. Council-Sears, R., 206 Wisner, D., 137; Reed, R., 144, Steele D., 105; Saxton, R., 123, Cavanaugh D., 161; Wilson, R., 183, McNeelan, D. 222. School board-Hampson, R., 808. Hayes, R., 838, McArtor, D., 488, Walton, D., 477.

Lisbon.

The Republicans won yesterday, but the proposition to issue \$20,000 water works bonds was defeated.

MR. CRIST GIVES UP

He Is No Longer a Candidate For Representative.

ANNOUNCEMENT MADE MONDAY

The West Township Man Has Not Made a Statement but It Is Thought He Will Explain In a Card-Only Three Aspirants Now In the Field.

The announcement is made today that D. W. Crist has withdrawn from the ticket and is no longer a candidate for the Republican nomination for representative.

Mr. Crist resides in West township and has been a candidate for a year. He worked hard and soon made a great many friends in the county. Although he paid little attention to this place while making his canvass, he had a following in Wellsville and would have polled some votes here. His main strength was in the center and northern parts of the county, where he is well known. Mr. Crist determined last night to quit the race.

There have been so many withdraw als from the contest for representative that to keep pace with them seems difficult. At present the candidates are Elijah W. Hill and W. B. McCord, of this place, and Samuel Buell, of Salem.

TO THE LIMIT

Was the Grand Opera House Packed Last Night.

The Thomas E. Shea company last evening broke all records at the Grand sor-McKee 101, Crawford 120. in point of attendance and the house was crowded to its limit.

"The Man-o'-Warsman," in which Mr. Shea has scored such a success, was presented and was enthusiastically reseived. Mr. Shea is supported by a splendid company, and the stage settings were excellent. Tonight "Dr. Jekyll and Mr. Hyde' will be played and the advance sale of seats assures a packed bouse.

A Captive Kentucky Meteor.

Persons who saw the meteor that flashed through the heavens the other night at Breckinridge, Ky., can go to Fisher's drug store and see what it looks like when cooled off. The meteor on exhibition at the store is composed of nickel, iron and cobalt, and was at a white heat when it struck the earth. It was very much like a bubble, and the air inside made it hollow. It is about 18 inches long and 19 inches wide and weighed 12 pounds. It was found in the gravel pit at Skillman, 50 feet below the surface of the earth, showing the fearful velocity it had attained in its travels. In cooling off the meteorite cracked, and the crevices in it are clearly defined The outside is oxidized by C. L. V. McKee, P., 87; Mary J. Wells, exposure to the elements. -Breckinridge | P., 78.

Maine Girl Brives a Team of Lambs.

Mary had a little lamb, but little Clementine Rockliffe of Coruna, Me., has a team of them. They are a little more than a year old and are driven harnessed to a handsome sleigh specially made for their owner. Miss Clementine's father. H. B. Rockliffe, is a big stock farmer, and the lambs were trained entirely by the girl. The team makes very good time upon the road and are intelligently docile and obedient to the will of their driver under all circumstances She intends to drive them tandem to a little wagon this summer. -- New York Journal

Elected Officers.

The Ladies' Home Missionary society of the First Presbyterian church held their annual election of officers at the home of Mrs. Charles McGregor, Main street, last evening. Mrs. L. F. Laverty was elected president; Miss Mary Smith first vice president; Mrs. D. S. Brookman, second vice president; Mrs. Charles McGregor, third vice president; Miss Gertrude Everson, secretary; Mrs. Thomas Dickson, treasurer.

A program was made out for the coming year and leaders assigned to the different departments.

News of Wellsville.

Harry Rogers, of Salmeville, was in town yesterday on business.

Mr. and Mrs. John Menough are in Pittsburg today.

Sam Myers left for Alliance today, where he will be employed for several days in the express office.

Miss Mary Denham is a Pittsburg visitor today.

R. A. Blair is confined to his home with a severe attack of grip. Mrs. H. H. Beane left for a short visit

in Pittsburg today. Miss Susie Stevenson leaves tomorrow

for a visit with her sister, Mrs. Ross Mc-Kim, of Pittsburg.

Mrs. Duncan Smith will give a parlor entertainment for the benefit of the Ladies' Aid society of the First Presbyterian church.

The Wellsville friends of Mrs. Emmet Chandler, who recently moved to Salineville from this place, will be pleased to learn that she has returned from a Cleveland hospital much improved in health.

Mr. and Mrs. Harry Thompson returned today from a week's visit at Logansport, Ind.

No Arrests Last Night.

No arrests were made during the night and yesterday, and not a case was before Mayor Bough this morning.

Timothy Strain has not been disposed of as yet, but something will be done in his case before the week ends.

M. C. A., from 6:30 to 8:30 p. m., Tuesday evening. Social upstairs at 8:30; music and fun. Periodical sale during the evening.

OUR NEW DWARF BEASTS

Some Midget Animals That Live In the Philippines.

A freak beast which will excite curiosity in our zoological gardens is the tamarau, a dwart guffalo found in the forests of Mindero of the Philippine group. It is a stunted form of the old world buffalo, not of the American bison. It sometimes occurs high up in the mountains. It tunnels pathways through the thick bamboo undergrowth covering the mountain sides above 6,000 feet. Hunters mast go upon hands and knees to follow these trails. The aborigines never hunt this little beast, being deathly afraid of it.

The midget Philippine squirrel is an other odd creature. It is about the size of a mouse, has legs longer in proportion than those of the ordinary squirrel, larger eyes and rounded ears. A large brown rat, gray underneath and with a squirrellike head and eyes, but black, cordlike tail, is of still greater interest from an evolutionary point of view. It is discovered to be the last link long needed to complete the chain of rela tionship between the true rat and the water rats. A wild pig, dignified by the name of "Sus celebensis Philippinensis," is found throughout the whole Philippine group. It is exceedingly ex clusive during the day, when it hides in the forests, but sallies gayly forth during the night into the native maize and rice fields, where it does much damage. The natives call this badly be loved pig "babui."

The Philippines will also contribute a giant fruit eating bat. All American bats, of course, subsist entirely upon insects and are provided with sharp teeth with which to nip them. The fruit eating bat of these islands is larger than a rat, has a long head and blunt teeth. It makes nightly inroads upon the banana plantations and other fruit preserves. During the day it sleeps, hanging head downward from a tree. In Bataan, of the Philippine group, is found a chevretain, or "mouse deer." a tiny little pygmy, as cunning as a fox, and which when snared feigns death until freed, when it leaps up like a lightning flash and takes to the forest. leaving the inexperienced trapper in great surprise. The Philippines also contain civets, wildcats, porcupines lizards, snakes and alligators. The 'chacon.' one variety of alligator, is prized by the natives as affording in munity against death by earthquake

shock. Professor Dean C. Worcester, lately appointed a member of the Philippine commission. has submitted to the Smithsonian an extensive report upor the ornithology of those islands, wher he recently counted no less than 250 different species of birds. Notable among these are some beautiful little parrakeets, cockatoos, mound builders hornbills and jungle fowls. The lasnamed are the principal game birds of the group. The natives tame the horn bills and keep them as pets. The only important food fishes of the fresh wa ters of the Philippines are species of catfish and carp. - Washington Star.

Quaintly Expressed.

Lady Dufferin, in her reminiscences, gives some instances of the variations of the English language as she is spoke by the learned baboo, whose European education has given him a little knowledge which is dangerous. The gratification expressed in the following sentence has something pathetic in it: "You have been very good to us, and may Almighty God give you tit for tat "

A small piece of paraffin wax, which melts and spreads in an airtight layer over the surface of the liquid, is found by a German chemist to prevent change in the taste of milk on boiling.

A Swiss law compels every newly married couple to plant trees shortly after the ceremony of marriage. The pine and weping willow alone are proscribed

MR. CRIST GIVES UP

He Is No Longer a Candidate For Representative.

ANNOUNCEMENT MADE MONDAY

The West Township Man Has Not Made a Statement but It Is Thought fie Will Explain In a Card-Only Three Aspirants Now In the Field.

The announcement is made today that D. W. Crist has withdrawn from the ticket and is no longer a candidate for the Republican nomination for representative.

Mr. Crist resides in West township and has been a candidate for a year. He worked hard and soon made a great many friends in the county. Although he paid little attention to this place while making his canvass, he had a following in Wellsville and would have polled some votes here. His main strength was in the center and northern parts of the county, where he is well known. Mr. Crist determined last night to quit the race.

There have been so many withdrawals from the contest for representative that to keep pace with them seems difficult. At present the candidates are Elijah W. Hill and W. B. McCord, of this place, and Samuel Buell, of Salem.

TO THE LIMIT

Was the Grand Opera House Packed Last Night.

The Thomas E. Shea company last evening broke all records at the Grand in point of attendance and the house was crowded to its limit.

"The Man-o'-Warsman," in which Mr. Shea has scored such a success, was presented and was enthusiastically reseived. Mr. Shea is supported by a splendid company, and the stage settings were excellent. Tonight "Dr. Jekyll and Mr. Hyde" will be played and the advance sale of seats assures a packed bouse.

A Captive Kentucky Meteor.

Persons who saw the meteor that flashed through the heavens the other night at Breckinridge, Ky., can go to Fisher's drug store and see what it looks like when cooled off. The meteor on exhibition at the store is composed of nickel, iron and cobalt, and was at a white heat when it struck the earth. It was very much like a bubble, and the air inside made it hollow. It is about 18 inches long and 19 inches wide and weighed 12 pounds. It was found in the gravel pit at Skillman, 50 feet below the surface of the earth, showing the fearful velocity it had attained in its travels. In cooling off the meteorite cracked, and the crevices in it are clearexposure to the elements. -Breckinridge | P., 78.

Maine Girl Drives a Team of Lambs.

Mary had a little lamb, but little Clementine Rockliffe of Coruna, Me., has a team of them. They are a little more than a year old and are driven barnessed to a handsome sleigh specially made for their owner. Miss Clementine's father. H. B. Rockliffe, is a big stock farmer, and the lambs were trained entirely by the girl. The team makes very good time upon the road and are intelligently docile and obedient to the will of their driver under all circumstances. She intends to drive them tandem to a little wagon this summer. -- New York Journal.

OUR NEW DWARF BEASTS

the Philippines.

A freak beast which will excite curiosity in our zoological gardens is the tamarau, a dwart wuffalo found in the Fourth ward-W. A. Pugh, R., 112; forests of Mindoro of the Philippine world buffalo, not of the American bison. It sometimes occurs high up in the mountains. It tunnels pathways through the thick bamboo undergrowth covering the mountain sides above 6,000 feet. Hunters must go upon hands and knees to follow these trails. The aborigines never hunt this little beast, being deathly afraid of it.

The midget Philippine squirrel is another odd creature. It is about the size of a mouse, has legs longer in proportion than those of the ordinary squirrel, larger eyes and rounded ears. A large brown rat, gray underneath and with a squirrellike head and eyes, but black, cordlike tail, is of still greater interest from an evolutionary point of view. It is discovered to be the last link long needed to complete the chain of relationship between the true rat and the water rats. A wild pig, dignified by the name of "Sus celebensis Philippinensis," is found throughout the whole Philippine group. It is exceedingly ex clusive during the day, when it hidein the forests, but sallies gayly forth during the night into the native maize and rice fields, where it does much damage. The natives call this badly be loved pig "babui.

The Philippines will also contribute a giant fruit eating bat. All American bats, of course, subsist entirely upon insects and are provided with sharp teeth with which to nip them. The fruit eating bat of these islands is larger than a rat, has a long head and blunt teeth. It makes nightly inroads upon the banana plantations and other fruit preserves. During the day it sleeps, hanging head downward from a tree. In Bataan, of the Philippine group, is found a chevretain, or "mouse deer." a tiny little pygmy, as cunning as a fox, and which when snared feigns death until freed, when it leaps up like a lightning flash and takes to the forest. leaving the inexperienced trapper in great surprise. The Philippines also contain civets, wildcats, porcupines lizards, snakes and alligators. The "chacon," one variety of alligator, is prized by the natives as affording im munity against death by earthquake shock.

Professor Dean C. Worcester, lately appointed a member of the Philippine commission, has submitted to the Smithsonian an extensive report upon the ornithology of those islands, where he recently counted no less than 250 different species of birds. Notable among these are some beautiful little parrakeets, cockatoos, mound builders hornbills and jungle fowls. The last named are the principal game birds o the group. The natives tame the horn bills and keep them as pets. The only important food fishes of the fresh wa ters of the Philippines are species of catfish and carp. - Washington Star.

Quaintly Expressed.

Lady Dufferin, in her reminiscences, gives some instances of the variations of the English language as she is spoke by the learned baboo, whose European education has given him a little know! edge which is dangerous. The gratifica tion expressed in the following sentence has something pathetic in it: "You have been very good to us, and may Almighty God give you tit for tat "

A small piece of paraffin wax, which melts and spreads in an airtight layer over the surface of the liquid, is found by a German chemist to prevent change in the taste of milk on boiling.

Woman Kills Two Foxes with Une Shot.

Mrs. Mary White, who lives at Rio. six miles west of Port Jervis, N. Y .. was in town the other day, bringing the skins of two red foxes she had shot near her home. She obtained of the town supervisor the bounty of \$2 and then sold the skins to Chief of Police Brown for \$2.75. This is the first instance in Orange county in which a woman claimed a bounty for killing a fox. What is more remarkable is that. Mrs. White shot both foxes with a single bullet. A few days ago she saw two full grown red foxes near her house. Hastily securing a gun, she took aim, and as they were in range she brought both down with one shot. - Exchange

IMMUNES AT SANTIAGO.

How They Taught the Cubans to Clean Their City.

HAVE ERECTED A MODEL CAMP.

Et le Visited and Admired by Our Own and Foreign Officers - Their Colonel Shows How the Experiment of Such Commands Has Proved a Great Success

Colonel H. H. Sargent, United States Fifth infantry, describes in the New York Journal the work of the immune regiment in regenerating Santiago as follows:

The regeneration of Santiago is going on so swiftly as to astonish the inhabitants. The fever has been stamped out, the Nanigos have been suppressed, and the American troops have proved themselves as brave in peace as in war. How the work has been accomplished is a long etory. Every commander and regiment has done its share toward bringing about the general result. If peace has its victories no less renowned than war. I feel certain that the officers and men of my command are entitled to the highest credit.

Our camp lies on a beautiful site beyoud the city, overlooking the bay. As you enter the romantic harbor and pass the Morro, where once Sampson and Schley thundered day and night, you can see it gleam a line of snowy white beyond the city to the right and above the walls of tents a tall flagpole, at whose top the stars and stripes wave in the breeze from dawn to dusk.

The regiment was organized from the 10,000 immunes and received its training in Columbus, Miss. It consisted of young men, fresh from fields, farms, offices and workshops, and in one month and eight days was as well disciplined a body as ever marched out of a camp It left Columbus Aug. 6 and arrived at Santiago Aug. 12. It had a hard siege at first. Though Toral had surrendered. the Spanish prisoners of war were there to be guarded, Nanigos were there to fight and vauquish, and, worse still, fever, filth and disease were everywhere menacing health and life.

At that time men and women, little children, soldiers and civilians, Spandards and Americans were filling the hospitals and dying in houses and on the open etreet. The Fifth regiment was ordered to encamp a mile south of the city. It moved there, clearing a others looked after him as he was strug woad part of the way, and on its arrival gling to make the best time possible selected a site and prepared the ground and apparently concluded that it would for the establishment of its habitation | be lost time chasing that sort of a run There was a lack of transportation and away. To Marsh's relief the train pres a scarcity of water, but the enthusiasm of the men overcame these and all other obstacles. They worked day and night to make their new home comfortable. clean and healthful. The site was drained, all decaying matter disinfected, and improved sinks constructed at proper points where the natural drainage of the soil would carry away any health destroying elements. A boiled water plant was erected which turned out three times the amount of boiled water necessary for drinking purposes. and strict orders were issued prohibit ing the use of the springs and streams in the neighborhood.

To prevent the danger arising from sleeping on the ground the men were directed to make beds, bunks, hammocks or any contrivances which would answer the purpose. Some of these were wery comical, consisting of barrel staves fastened together with ropes or of boxes nailed together to form a wooden bench Nevertheless it was only a few days before every man had a bed raised three feet from the earth. While doing this onerous work the regiment furnished guards to protect government property and preserve order and performed other military duties. The men were taught to follow the example of the natives and to remain under cover as far as possible during the hot hours of the day and to have all their food cooked before it was served on the mess tables.

Thanks to these precautions and to The discipline which marked nearly every regiment in Santiago, there was no more sickness in the camp than in a similar camp garrisoned by regulars at | camps in the valley home. Within a month the place was a model and was visited and admired not only by our own officers, but by foreign officers and troops of natives. It seemed to exert a good influence, because we noticed that many of the Cubans living in the neighborhood went to work on their own account and made similar improvements around their own houses and in the roads and streets near their one small shot struck his wife in the homes. Since that time the labor of the regiment has become almost mechanical in its regularity and efficiency The camp is still a model and the health of the men admirable They have aided the people in closing up the pest holes of the city, in repaying the thoroughfares, in draining the roads and in removing the debris and rubbish which seem never to have been touched since the place was founded. It keeps perfect order in the neighborhood, and it has had no trouble whatever with either Spaniards or Cubans.

I know of no finer example of a regiment of American volunteers making such a magnificent record in so brief a time. The organization of the immunes | him. - New York Sun.

was an experiment, but its success shows that the idea was as wise as any which our generals ever put into execu-

TOLD OF PROFESSOR MARSH.

Story Showing That In Him Were Combined Energy and Knowledge.

The late Professor O. C. Marsh was sometimes spoken of, even by dignified men of science, as a "hustler." One of his friends used to tell a story of him illustrating one of his characteristics. which led to the bestowal of this de scriptive epithet upon him. During the early development and improvement of Colorado excavations revealed what promised to be a "find" in the department of science with which Professor Marsh was concerned. The moment the first news of it published in New Haven fell under Professor Marsh's eye, he placed a few essentials in a grip and took the first train for the west After the train had passed the last important station on the way to his destination the professor went through the cars gunning for anybody who might possibly be on the same errand as himself He recognized no fellow in science, but got into conversation with a man who proved to be one and on the same mis sion. March carefully avoided permit ting his identity or interest in the sub ject to become known and after finish ing his chat returned to his own car There he began studying the time table and such maps as were obtainable Then he put judicious questions to the conductor and trainbands and came to the conclusion that he could beat the other fellow if he could get off the train about 20 miles outside of the city of their common destination He figured that he could in that event go straight on the short side of a triangle to the place of the discovery which he desired to investigate, while the other man would have to travel two sides of the triangle, one on the train and the other by horse and wagon

Professor Marsh quietly betook him self and his grip to the rear car of the train. At an opportune moment he went out to the platform. He studied the landscape and gauged the speed of the train and noted the mileposts and other marks of which he had learned from the railroad men. He was relieved to see a house not far from the point he had fixed upon as the most advantage ous for him When near it, he pulled the bell rope, and as soon as the train had slowed enough for him to risk it he jumped off and sprinted over the fields toward the house. The train had gone some little way farther before it was brought to a stop. The conductor and ently went ahead again.

He made his way to the farmbouse and hired a horse to take him to the spot he so much wanted to reach. He got there and had just completed ar rangements by which he secured the rights he desired, when his quondan traveling companion came up in a wagon, a much disgusted man. - New York Sun.

How They Celebrated.

Nine Drury students appeared in chapel the other day with high standing collars of deep green in honor of St Patrick. President Fuller notified the students that they would not be recognized until they appeared in ordinary collars. The students called his attention to the fact that striped and other collars were in use, but the president was firm. - Kansas City Star

a half square, and is printed on buffcolored paper. It union made hal before it leaves the workman's hands If a dealer takes a label from one has and places it in another, or has any detached labels in his store, do not buy from him, as his labels may be counterfeit, and his hats may be the product

This Label about an inch and

of scab or non-union labor. UNION MADE CLOTHES.

You will find the linen label attached by machine stitching to the inside broas pocket of the coat, on the inside of the buckle strap of the vest, and on the waistband line in the waistband line. ing of the pants

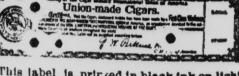

BICYCLE LABEL

"Do unto others as ye would that others should do unto you." You will endorse the "Golden Rule" by buying and riding bicycles bearing this Label. The colors are as follows: The Union shield is in red, white and blue, on a background of

pea green, bordered by gold.

The Label will be placed on the upper front side of the tele that receives the seat post. BLUR LABRL CIGARS.

This label is princed in black ink on light blue paper, and is pasted on the cigar-box. Don't mix it up with the U.S. revenue label on the box, as the latter is nearly of a similar color.

TOBACCO LABEL.

The above Label, printed on blue paper, will be found on all plug tobacco and on the wrappers of chewing tobacco manufactures in union tobacco fraterios. in union tobacco factories.

UNION BREAD AND CRACKERS.

This is a full size fac-simile of the Label of the Bakers' and Con-fectioners' union. It is printed on fine white paper and is pasted on each loaf of union-made bread. It is an evidence that the bread is made under fair and wholesome conditions,

and in clean and healthy bakeshops. Following is the confectioners' and cracker Label:

IMMUNES AT SANTIAGO.

How They Taught the Cubans to Clean Their City.

HAVE ERECTED A MODEL CAMP.

It Is Visited and Admired by Our and Foreign Officers - Their Colonel Shows How the Experiment of Such Commands Has Proved a Great Success.

Colonel H. H. Sargent, United States Fifth infantry, describes in the New York Journal the work of the immune regiment in regenerating Santiago as follows:

The regeneration of Santiago is going on so swiftly as to astonish the inhabitants. The fever has been stamped out, the Nanigos have been suppressed, and the American troops have proved themselves as brave in peace as in war. How the work has been accomplished is a long etery. Every commander and regiment has done its share toward bringing about the general result. If peace has its victories no less renowned than war, I feel certain that the officers and men of my command are entitled to the highest credit.

Our camp lies on a beautiful site beyoud the city, overlooking the bay. As you enter the romantic harbor and pass the Morro, where once Sampson and Schley thundered day and night, you can see it gleam a line of snowy white beyond the city to the right and above the walls of tents a tall flagpole, at whose top the stars and stripes wave in the breeze from dawn to dusk.

The regiment was organized from the 10,000 immunes and received its training in Columbus, Miss. It consisted of young men, fresh from fields, farms, offices and workshops, and in one month and eight days was as well disciplined a body as ever marched out of a camp It left Columbus Aug. 6 and arrived at Santiago Aug. 18. It had a hard siege at first. Though Toral had surrendered. the Spanish prisoners of war were there to be guarded, Nanigos were there to fight and vauquish, and, worse still, fever, filth and disease were everywhere menacing health and life.

At that time men and women, little children, soldiers and civilians, Spanfards and Americans were filling the hospitals and dying in houses and on the open etreet. The Fifth regiment was ordered to encamp a mile south of the city. It moved there, clearing a others looked after him as he was strug road part of the way, and on its arrival gling to make the best time possible selected a site and prepared the ground and apparently concluded that it would for the establishment of its habitation There was a lack of transportation and a scarcity of water, but the enthusiasm of the men overcame these and all other obstacles. They worked day and night to make their new home comfortable. clean and healthful. The site was .drained, all decaying matter disinfected, and improved sinks constructed at proper points where the natural drainage of the soil would carry away any health destroying elements. A boiled water plant was erected which turned out three times the amount of boiled water necessary for drinking purposes. and strict orders were issued prohibit ing the use of the springs and streams in the neighborhood.

To prevent the danger arising from sleeping on the ground the men were directed to make beds, bunks, hammocks or any contrivances which would answer the purpose. Some of these were very comical, consisting of barrel staves fastened together with ropes or of boxes nailed together to form a wooden bench Nevertheless it was only a few days before every man had a bed raised three feet from the earth. While doing this onerous work the regiment furnished guards to protect government property and preserve order and performed other military duties. The men were taught on record. to follow the example of the natives and to remain under cover as far as possible during the hot hours of the day and to have all their food cooked before it was served on the mess tables.

Thanks to these precautions and to the discipline which marked nearly every regiment in Santiago, there was no more sickness in the camp than in a similar camp garrisoned by regulars at home. Within a month the place was a model and was visited and admired not only by our own officers, but by foreign officers and troops of natives. It seemed to exert a good influence, because we noticed that many of the Cubans living | men were leading behind it in the neighborhood went to work on their own account and made similar improvements around their own houses and in the roads and streets near their homes. Since that time the labor of the regiment has become almost mechanical in its regularity and efficiency The camp is still a model and the health of the men admirable They have aided the people in closing up the pest holes of the city, in repaying the thoroughfares, in draining the roads and in removing the debris and rubbish which seem never to have been touched since the place was founded. It keeps perfect order in the neighborhood, and it has had no trouble whatever with either Spaniards or Cubans.

I know of no finer example of a regiment of American volunteers making such a magnificent record in so brief a time. The organization of the immunes | bim. - New York Sun.

was an experiment, but its success shows that the idea was as wise as any which our generals ever put into execu-

TOLD OF PROFESSOR MARSH.

Story Showing That In Him Were Combined Energy and Knowledge.

The late Professor O. C. Marsh was sometimes spoken of, even by dignified men of science, as a "hustler." One of his friends used to tell a story of him illustrating one of his characteristics. which led to the bestowal of this descriptive epithet upon him. During the early development and improvement of Colorado excavations revealed what promised to be a "find" in the department of science with which Professor Marsh was concerned. The moment the first news of it published in New Haven fell under Professor Marsh's eye, he placed a few essentials in a grip and took the first train for the west After the train had passed the last important station on the way to his destination the professor went through the cars gunning for anybody who might possibly be on the same errand as himself He recognized no fellow in science, but got into conversation with a man who proved to be one and on the same mis sion. March carefully avoided permit ting his identity or interest in the subject to become known and after finish ing his chat returned to his own car There he began studying the time table and such maps as were obtainable Then he put judicious questions to the conductor and trainbands and came to the conclusion that he could beat the other fellow if he could get off the train about 20 miles outside of the city of their common destination He figured that he could in that event go straight on the short side of a triangle to the place of the discovery which he desired to investigate, while the other man would have to travel two sides of the triangle, one on the train and the other by horse and wagon

Professor Marsh quietly betook him self and his grip to the rear car of the train. At an opportune moment he went out to the platform. He studied the landscape and gauged the speed of the train and noted the mileposts and other marks of which the had learned from the railroad men. He was relieved to see a house not far from the point he had fixed upon as the most advantage ous for him When near it, he pulled the bell rope, and as soon as the train had slowed enough for him to risk it he jumped off and sprinted over the fields toward the house. The train had gone some little way farther before it was brought to a stop. The conductor and be lost time chasing that sort of a run away. To Marsh's relief the train pres ently went ahead again.

He made his way to the farmhouse and hired a horse to take him to the spot he so much wanted to reach. He got there and had just completed ar rangements by which he secured the rights be desired, when his quondan traveling companion came up in ; wagon, a much disgusted man. - New York Sun.

How They Celebrated.

Nine Drury students appeared in chapel the other day with high standing collars of deep green in honor of St Patrick. President Fuller notified the students that they would not be recognized until they appeared in ordinary collars. The students called his attention to the fact that striped and other collars were in use, but the president was firm. - Kansas City Star

UNION LABELS.

It should be a deep-rooted principle of all union workmen and union sympathizers, and particularly those members of the different organizations of Rece Liverpool, to buy nothing but Union Label goods, in preference to all others And why not? If we ask fair wages for our labor, why should we buy goods made at unfair wages by others?

The Union Label in every industry to a guarantee of fair wages, decent work. ing hourr and union labor employed.

PATRONIZE UNION CLERKS.

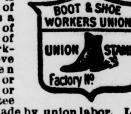

Au members of the R. C. N. P. A. can show this card 4sk for it when making your purchases.

UNION MADE BOOTS AND SHORE.

Good only coring months named in lower left hand corner was a roperly signed, and STAMPED with the number of the Land.

The Boot and Shoe Workers' union is the national head of the trade, and is a new combination of all the branches of boot and shoe work-ers. The above trade-mark when found on the sole or lining of a boot or

shor, is a guarantee that the same is made by union labor. Look for the above design stamped on the eole of every pair of boots or shoes you buy.

CUSTOM TAILORS' LABEL

The Journeymen Tailor's Label is to be found in the inside breast pocket of the coat on the under side of the buckle strap of this vest, and on the waistband lining of the pants. It is printed in black ink on white linen.

UNION WADE HATS. This Label about an inch and

a half square, and is printed on buff-colored paper. It is placed on every union made has before it leaves the work man's hands. workman's handa If a dealer takes a label from one has and places it in another, or has any detached labels in his store, do not buy from him, as his labels may be counterfeit, and his hats may be the product

of scab or non-union labor. UNION MADE CLOTHES.

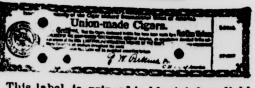

You will find the linen label attached by machine stitching to the inside bream pocket of the coat, on the inside of the buckly strap of the vest, and on; the waistband line in the next. ing of the pants

BICYCLE LABEL

"Do unto others as ye would that others should do unto you." You will endorse the "Golden Rule" by huying and riding hicycles bearing this Label. The this Label. The colors are as follows: The Union shield is in red, white and blue, on a background of pea green both.

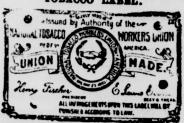

a background of pea green, bordered by gold.

The Label will be placed on the upper front side of the that receives the seat post. BLUR LABEL CIGARS.

This label is princed in black ink on light blue paper, and is pasted on the cigar-box. Don't mix it up with the U. S. revenue label on the box, as the latter is nearly of a similar color.

TOBACCO LABEL.

The above Label, printed on blue paper, will be found on all plug tobacco and on the wrappers of chewing tobacco manufactures in union tobacco factories.

UNION BREAD AND CRACKERS. This is a full size fac-

simile of the Label of the Bakers' and Con-fectioners' union. It is printed on fine white paper and is pasted on each loaf of union-made bread. It is an evidence that the bread is made under fair and wholesome conditions,

and in clean and healthy bakeshops. Following is the confectioners' and cracker Label:

IMMUNES AT SANTIAGO

How They Taught the Cubans to Clean Their City.

HAVE ERECTED A MODEL CAMP.

It Is Visited and Admired by Our Own and Foreign Officers - Their Colonel Shows How the Experiment of Such Commands Has Proved a Great Success

Colonel H. H. Sargent, United States Fifth infantry, describes in the New York Journal the work of the immune regiment in regenerating Santiago as follows:

The regeneration of Santiago is going on so swiftly as to astonish the inhabitants. The fever has been stamped out, the Nanigos have been suppressed, and the American troops have proved themselves as brave in peace as in war. How the work has been accomplished is a long etory. Every commander and regiment has done its share toward bringing about the general result. If peace has its victories no less renowned than war. I feel certain that the officers and men of my command are entitled to the highest credit

Our camp lies on a beautiful site beyoud the city, overlooking the bay. As you enter the romantic harbor and pass the Morro, where once Sampson and Schley thundered day and night, you can see it gleam a line of snowy white beyond the city to the right and above the walls of tents a tall flagpole, at whose top the stars and stripes wave in the breeze from dawn to dusk.

The regiment was organized from the 10,000 immunes and received its training in Columbus, Miss. It consisted of young men, fresh from fields, farms, offices and workshops, and in one month and eight days was as well disciplined a body as ever marched out of a camp It left Columbus Aug. 6 and arrived at Santiago Aug. 12. It had a hard siege at first. Though Toral had surrendered. the Spanish prisoners of war were there to be guarded, Nanigos were there to fight and vanquish, and, worse still, fever, filth and disease were everywhere menacing health and life.

At that time men and women, little children, soldiers and civilians, Spanlards and Americans were filling the bospitals and dying in houses and on toward the house. The train had gone the open etreet. The Fifth regiment was ordered to encamp a mile south of brought to a stop. The conductor and the city. It moved there, clearing a road part of the way, and on its arrival selected a site and prepared the ground for the establishment of its habitation There was a lack of transportation and away. To Marsh's relief the train pres a scarcity of water, but the enthusiasm | ently went ahead again of the men overcame these and all other obstacles. They worked day and night to make their new home comfortable. clean and healthful. The site was drained, all decaying matter disinfect-. ed, and improved sinks constructed at proper points where the natural drainage of the soil would carry away any health destroying elements. A boiled water plant was erected which turned out three times the amount of boiled water necessary for drinking purposes. and strict orders were issued prohibit ing the use of the springs and streams in the neighborhood.

To prevent the danger arising from sleeping on the ground the men were directed to make beds, bunks, hammocks or any contrivances which would answer the purpose. Some of these were very comical, consisting of barrel staves fastened together with ropes or of boxes nailed together to form a wooden bench Nevertheless it was only a few days before every man had a bed raised three feet from the earth. While doing this onerous work the regiment furnished guards to protect government property and preserve order and performed other military duties. The men were taught to follow the example of the natives and to remain under cover as far as possible during the hot hours of the day and to have all their food cooked before

it was served on the mess tables. Thanks to these precautions and to the discipline which marked nearly every regiment in Santiago, there was no more sickness in the camp than in a similar camp garrisoned by regulars at home. Within a month the place was a model and was visited and admired not only by our own officers, but by foreign officers and troops of natives. It seemed to exert a good influence, because we noticed that many of the Cubans living in the neighborhood went to work on their own account and made similar improvements around their own houses and in the roads and streets near their homes. Since that time the labor of the regiment has become almost mechanical in its regularity and efficiency The camp is still a model and the health of the men admirable. They have aided the people in closing up the pest holes of the city, in repaving the thoroughfares, in draining the roads and in removing the debris and rubbish which seem never to have been touched since the place was founded. It keeps perfect order in the neighborhood, and it has had no trouble whatever with either Spaniards or Cubans.

I know of no finer example of a regiment of American volunteers making such a magnificent record in so brief a time. The organization of the immunes | him. - New York Sun.

The late Professor O. C. Marsh was sometimes spoken of, even by dignified men of science, as a "bustler." One of his friends used to tell a story of him illustrating one of his characteristics. which led to the bestowal of this de scriptive epithet upon him. During the early development and improvement of Colorado excavations revealed what promised to be a "find" in the department of science with which Professor Marsh was concerned. The moment the first news of it published in New Haven fell under Professor Marsh's eye. he placed a few essentials in a grip and took the first train for the west After the train had passed the last important station on the way to his destination the professor went through the cars gunning for anybody who might possibly be on the same errand as himself He recognized no fellow in science, but got into conversation with a man who proved to be one and on the same mis sion. March carefully avoided permit ting his identity or interest in the sub ject to become known and after finish ing his chat returned to his own car There he began studying the time table and such maps as were obtainable Then he put judicious questions to the conductor and trainbands and came to the conclusion that he could beat the other fellow if he could get off the train about 20 miles outside of the city of their common destination He figured that he could in that event go straight on the short side of a triangle to the place of the discovery which he desired to investigate, while the other man would have to travel two sides of the triangle, one on the train and the other by horse and wagon

Professor Marsh quietly betook him self and his grip to the rear car of the train. At an opportune moment he went out to the platform. He studied the landscape and gauged the speed of the train and noted the mileposts and other marks of which he had learned from the railroad men. He was relieved to see a house not far from the point he had fixed upon as the most advantage ous for him When near it, he pulled the bell rope, and as soon as the train had slowed enough for him to risk it he jumped off and sprinted over the fields some little way farther before it was others looked after him as he was strug gling to make the best time possible and apparently concluded that it would be lost time chasing that sort of a run

He made his way to the farmhouse and hired a horse to take him to th spot he so much wanted to reach. H got there and had just completed ar rangements by which he secured the rights he desired, when his quondan traveling companion came up in a wagon, a much disgusted man. - New York Sun.

How They Celebrated.

Nine Drury students appeared in chapel the other day with high standing collars of deep green in honor of St Patrick. President Fuller notified the students that they would not be recognized until they appeared in ordinary collars. The students called his attention to the fact that striped and other collars were in use, but the president was firm. - Kansas City Star

UNION LABELS.

It should be a deep-rooted principle of all union workmen and union sympa. thizers, and particularly those members of the different organizations of East Liverpool, to buy nothing but Union Label goods, in preference to all others And why not? If we ask fair wages for our labor, why should we buy goods made at unfair wages by others?

The Union Label in every industry a guarantee of fair wages, decent work. ing hourr and union labor employed.

PATRONIZE UNION CLERKS.

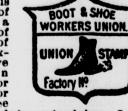

All members of the R. C. N. P. A. can show this card Ask for it when making your purchases. . Endorsed by the A. F. of L.

UNION MADE BOOTS AND SHORE.

Good only coring months named in lower left hand corner war, roperly signed, and STAMPED with the number of the Local

The Boot and Shoe Workers' union is the national head of the trade, and is a new combination of all the branches of boot and shoe work-ers. The above trade-mark when found on the sole or lining of a boot or shor, is a guarantee

that the same is made by union labor. Look for the above design stamped on the cole of every pair of boots or shoes you buy.

CUSTOM TAILORS' LABEL.

The Journeymen Tailor's Label is to be found in the inside breast pocket of the coat on the underside of the buckle strap of the vest, and on the waistband lining of the pants. It is printed in black ink on white lines.

UNION WADE HATS.

This Label is about an inch and a half square, and is printed on buff-colored paper. It is placed on every union made halbefore it leaves the workman's hands if a dealer taken a If a dealer takes a label from one hat and places it in another, or has any detached labels in his store, do not buy from him, as his labels may be counterfeit, and his hats may be the product

of scab or non-union labor. UNION MADE CLOTHES.

You will find the linen label attached by machine stitching to the inside breash pocket of the coat, on the inside of the buckle strap of the vest, and on; the waistband lining of the pants

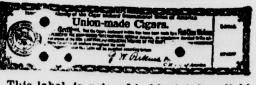

BICYCLE LABEL

"Do unto others as ye would that others should do unto you." You will endorse the "Golden Rule" by buying and riding bleycles bearing this Label. The colors are as follows: The Union shield is in red, white and blue, on a background of pea green, bor-

pea green, bordered by gold.

The Label will be placed on the apper front side of the with that receives the seat post. BLUR LABRE CIGARS.

This label is princed in black ink on light blue paper, and is pasted on the cigar-box. Don't mix it up with the U. S. revenue label on the box, as the latter is nearly of a similar color. TOBACCO LABEL.

The above Label, printed on blue paper, will be found on all plug tobacco and on the wrappers of chewing tobacco manufactures in union tobacco factories.

UNION BREAD AND CRACKERS. International

This is a full size facsimile of the Label of the Bakers' and Con-fectioners' union. It is printed on fine white paper and is pasted on each loaf of union-made bread. It is an evidence that the bread is made under fair and wholesome conditions,

and in clean and healthy bakeshops. Following is the confectioners' and cracker

ADIEU TO BACHELORDOM

William K. Vanderbilt, Jr.,'s Dinner to His Friends.

THEY SAT AROUND LIMPID POOLS.

hive Ducks Swam About In Spaces Formed by the Banquet Table. Priends of the Millionaire Drank to the Bride to Be-Special Menus For Each Guest.

William K. Vanderbilt the younger move a farewell dinner to his bachelor triends the other night at Sherry's. It was the most costly and the most origmal bachelor dinner ever given in New York. The young host has a pretty ancy in such matters, and so has his new styles were displayed the king's atbetrothed, Virginia Fair.

Mis3 Fair indeed was the inspiration of many of the cleverest surprises of the affair. No rural damsel ever worked harder over a church fair than she over his feast-from which she was to be excluded. She hovered over the scene till the last moment, smiling, restless, indulgent, authoritative, as unselfishly absorbed in the spirit of the occasion as if she had been "fixing things" for a children's party.

The preparations for this banquet began weeks ago. There were a hundred and one things to be done as such things had never been done before, but the triumph of invention was the table itself, as is fitting when folks are going to eat, and the table shall be told about first. It was a table and duck pond combined. To consider it first in its capacity of table, it was oblong and large enough to seat 30 persons and still leave each a great deal of room. Beyond the generous outside strip apportioned for the accommodation of plates and glasses and so forth, was a bank of American Beauty roses, two teet wide, running clear round the board. Inclosed within this border were two duck ponds and a fountain.

The fountain was in the exact center of the table, and it was a very graceful Mair, fashioned out of the precious metals and spraying upward and around a thousand tiny jets of delicately perfamed liquid, which the artfully arranged lights caused to resemble showers of rubies and diamonds and emeralds. It was flanked by what have here been called, irreverently, duck ponds. In lovelier ponds did ducks never swim. Titania might take swimming lessons in them with gratification. The sides and bottom of each shone with the burnishroses already spoken of formed also the banks of the golden duck ponds, and in the center of each duck pond was a littleisland, on which grew a pretty white. Mowering shrub.

As nature has not provided ducks of superior character to swim at millionaire bachelor dinner parties, it was necessary to be content with ducks that are worth no more per pound than other fat ducks, with some attention to whiteness of plumage and tractability of temper. A Roman youth giving a dinner party with duck pond accessories would probably have gilded the birds, but that would have been cruel. Nevertheless the duck question gave rise to a little furry of excitement at the eleventh

At 5:30 in the evening Miss Fair fluttered into the banquet room, intent on putting the final touches to everything. She was greeted by a chorus of deep throated "quacks." In each of the golden ponds swam three large birds. They were strong swimmers and they knew it. They were constructed on battleship lines and needed plenty of sea room. They had a great deal to say: they had some kind of vendetta among themselves, and they appeared anxious to "That would spoil the effect entirely. noisy and too rough. If large birds were required, we would have ordered swans, which are much nicer. Take these away and bring small ducks—the smallest you can get." Sherry's men descended upon the large ducks and bore them, quacking, flapping, to the lower regions.

And after much excitement and run-Bing about half a dozen pretty and well behaved ducklings were brought with clipped wings to swim in the golden ponds, peck experimentally at the American Beauty roses, clamber awkwardly up the banks of the flowering islets, tumble back with helpless little splashes, gobble up the crumbs tossed to them by young Mr. Vanderbilt and bis guests, paddle spasmodically at each pop of a cork, look perfectly innocent during the height of the conversation and generally behave themselves like well brought up little birds. There were two orchestras to play tunes-the finest orchestras that could be had there were clever people to sing and dance and crack jokes, and there were charming little surprises introduced at every turn.

That the guests, most of whom were Harvard chums of young Mr. Vander bilt, drank his health and that of Miss Fair a great many times is also true. They sang college songs and "Auld Lang Syne" and all the other things that spirited and warm hearted young men might be expected to sing on such

Each guest was furnished with menn decorated especially with an eye to his individual idiosyncrasies. The host himself designed this menu. Each had a water color sketch in the upper left hand corner. For Sydney J. Smith there was a cross country rider taking a five barred fence. Young Gerry, recently admitted to the Coaching chub. had a spirited four in hand scene. For one or two of well known languid natures there were chaps reclining at ease with brandy and soda beside them. New York Journal.

KOREAN KING'S REFORM.

Adopts American Style of Dress and Shaves Off His Topknot.

The king of Korea and his court have caused a sensation at Seoul by suddenly adopting American fashions in the matter of both dress and carriages. The first important occasion on which the tendants and guards were likewise clothed in American style. The king was so highly pleased with his new dress, which was made by a Seoul firm of Japanese tailors, that he presented 100 yen to the master of the firm and 50 yen to be distributed among his workmen. A dispatch from Seoul to Tokyo announces that the king has cut

off his topknot, or short cue, which from time immemorial has adorned the tops of the Korean kings' heads.

In other ways the king has shown his desire to conform hereafter to occidental customs. He desires to ride in carriages fashioned after American ideas and has just given an order for the construction of a royal carriage, which will be modeled in some respects after a carriage used by the Japanese emperor. ed warmth of gold leaf. The bank of Riots which recently occurred between expression. the reform and conservative elements of Korea have subsided. The reformists who can read, but of these 14,513 canwere victorious in a large measure and | not write | Nearly 800,000 are without regard the king's adoption of occidental knowledge beyond that of their own costumes as an important sign that he hut In every town there are certain is imbued with their ideas. -- St. Louis people with varying attainments in Globe-Democrat.

NAVAL MILITIA AT HAWAII.

It is Proposed to Perfect an Organization at Honoiniu.

Hawaii is to have a naval militia or ganization similar to the auxiliary forces possessed by many of the states which were so valuable in the recent Spanish war. Secretary Long received a letter on the subject recently from J. B. Castle, who was the Hawaiian secretary of legation at Washington before annexation was accomplished, asking of the poor and in their apparently for all the necessary regulations regarding the militia, in order that steps could be taken at once at Honolulu to rance of the fact that the lower animals perfect an organization.

fied with the prospect of such a reserve prick their oxen cruelly with goads force in the mid-Pacific as Mr. Castle They do not, however, mean to be cruel and the Hawaiians interested with him They are very humane people to their propose to establish, especially as it is own neighbors who are sufferers. They impossible to maintain as large a regu- show affection for children, though not leave the room. The appropriation of congress providing for arms and equipment for naval with interpreters and introductions to militia organizations may not be at once available for the Hawaiian battalion, as it is apparently limited to states, omitting any mention of territories, although the District of Columbia militia. which was recently organized, participates in the fund. The Hawaiians are aware of this legislative oversight, but they propose to go ahead and bear all expenses themselves, if necessary, realizing that such protection as they will give Honolulu is indispensable. - New York Tribune.

The Money They Bring.

Statistics in regard to the amount of money brought to this country by European immigrants show that the German is the richest, with an average of \$52.50, while the Englishman is a close second, with \$52. The Frenchman has \$47.25 and the Belgian \$45, while the Irishman brings but \$15, the Russian \$12.50 and the Italian \$10.

Probably the Italian takes more back to his native land, however, than any of the others - New York Tribone.

LIFE IN PORTO RICO

Interesting Facts About the Conditions In the Island.

SPECIAL COMMISSIONER'S REPORT

Dr. Beard Says the Natives Live on Bananas, and Only 12 Per Cent Can Write-No Buildings Are Specially Set Apart as Schoolhouses - Meat Rarely Esten.

Dr. A F. Beard, who was sent to Porto Rico as the special commissioner of the American Missionary association. has made a report of the conditions in that island, as related to population. education, homes and opportunities for a new Americanism, such as the assobalf a century. Following is a summary of his report

"A census of Porto Rico lately taken gives the population as 890,000, which may be divided in round numbers as follows White, 500,000; colored, 390, 000, of whom about 90,000 are blacks. This gives a dense population of nearly 248 to the square mile. The whites comprise the Spaniards and Porto Ricans of Spanish blood. The colored are of all shades, chiefly burnt sienna, and mostly straight haired. The blacks are negroes, pure and simple. The whites may be divided into the ruling class. numbering perhaps 100,000, and the peasants, or gibaros, 400,000. The colored are mixed (mestizos). The peasants, or gibaros, with the mestizos and blacks, together form the class of unskilled laborers. They are miserably poor, and literally live from hand to mouth Their cabins, or "shacks," are set on poles driven into the ground, the floor being raised a few feet. The average household furniture consists of a few dishes and utensils made of calabash shells, or gourds, with some rude earthenware A little patch of land for the plantain grove, or some corn or sweet potatoes, possibly a cow, a pig and a diminutive horse of Gothic architecture form the property and provision for life.

"The people seldom get any meat and but little bread for food, as none of the cereals grow well there. As a result, they are as a class anæmic and hungry looking Their staple food is the banana. which, for steady diet, does not put a great deal of iron into the blood. Most of their food grows on trees. Here they are. more than one-half of the population, in dense ignorance, too ignorant to be discontented with this existence. which in its condition is pitiful beyond

"Out of 890,000 there are 111,380 education, who hold the more responsible positions in life, but they have entirely failed to realize any responsibility for this appalling mass of ignorance about them One-half of the population is in towns All of the towns are built on the same general plan, and in most of them four of the five senses are constantly offended. Odors are always in evidence. As to feeling, the opportunities for the study of entomology are unbounded. As to taste, everything is saturated with garlic. The sight is hurt constantly in the wan and pinched faces needless poverty in a land where plenty would come easily and in their ignoare God's creatures. They lash their The navy department is highly grati-stunted horses without mercy: they

"As to government, the island is dihigh toned officers, seeking the betterment of the people. They furnished us the schools and gave us every facility in our investigation. We visited many schools in many places. With one exception we found no building constructed and set apart for educational use Public schools are in private houses. In every town the Spaniards had substantial buildings for the military, which kept the people down, but no schoolhouses Certainly Spain went away none too soon

"The teacher of the private school is paid from the public fund, but he furnishes the schoolroom and all that therein is and this does not require much wealth Seldom did we find in any schools desks, and there were only backless benches. One reading book sufficed for a class, being passed from one pupil to another. The schools are ungraded and but a small fraction of the pupils got beyond reading and writing, and these pupils were the exceptional few

"The military governor, General Henry gives his position and influence to all things that are good He is an

able administrator for civil improvements The large theater in San Juan is secured for religious services and well attended. Sunday school is held there every Sunday morning. Sermons are preached in Spanish and English American officers and their wives sing in the choir. The American Missionary association has already voted to plant three schools in three different interesting centers of Porto Rico, to be in full operation in October next. One of these schools will be in the north, another in the center and the third on the west coast of the island "-New York Press.

PORK CAUSED AN INDIAN WAR

Question of Beef Cost Uncle Sam \$20,000,000 In Another Case.

'The present beef inquiry,' said an official of the war department, "recalls the fact that one of the most expensive Indian wars we ever had was caused by ciation has represented for more than the efforts of a contractor for furnishing supplies to the Indians to foist upon them a lot of hog meat that did not come up to the standard. This was back in 1862. The contractor unloaded a consignment of what he pretended was prime pork, but proved to be the refuse portions of hogs, consisting mostly of heads. It was the Sioux Indians he wanted to feed on this, but they made a vigorous kick. The contractor very unwisely tried to force his objectionable pork on them, and there was a rebellion. The Indians put on their war paint and went scalp hunting. Generals Sibley and Sully, with fully 15,000 men, had months of the hardest kind of fighting to bring the braves to their pork. Our loss of life was not great, but the campaign was an expensive "Ten years prior to this war the

> great Sioux war began, and this, too, had the beef question mixed up in itin fact, was the cause of the war. However, the beef was on the hoof and not in cans or refrigerated. Near the military post at Fort Laramie some Sioux were camped, and one day a train of Mormon emigrants came along, having with them several cows. Some of the Indians were beef hungry, and a brave stepped out and killed one of the cows, and he and his friends had a feast. The Mormons complained to the officer in charge of the post, and he sent out 20 men under command of an officer. The soldiers demanded the surrender of the Indian who had killed the cow, but this was positively declined, the Indians declaring, however, that they were ready and willing to pay the Mormons the full value of the cow. The officer would not listen to any such proposition, and after again demanding the surrender of the cow killer and meeting with a refusal he ordered his men to open fire.

"Well, in less time than it takes to tell it the Indians had killed and scalped the officer and his 20 men. This blood made the Sioux ugly, and they were ready for more, and the fight which began about the shooting of one cow was the beginning of a war which lasted for more than three years and cost this government \$20,000,000, to say noth. Our Type. ing of the loss of hundreds of lives. 1 am forced to say that this war could have been -or, anyway, might have been-averted if the officer had acted with any degree of judgment and discretion."-New York Sun.

QUICKEST CAMERA KNOWN.

Machine That Will Turn Out a Picture in 1-600 of a Second.

What is to be the fastest camera in the world is being constructed in Chicago for the Smithsonian institution at Washington. The specifications for this splendid instrument require that it shall be capable of making a successful exposure in one-six-hundredth part of a second, and it is hoped that this speed will be so greatly increased that a good negative may be secured by an exposure of only a thousandth of a second. This marvelous rapidity in photographing has never been approached save by one camera, which is said to have secured a negative by an exposure of one-five-

hundredth of a second. A better appreciation of the marvelous alertness of this mechanical eye is to be gained from the statement that it is capable of catching the image of an arrow speeding through midair while the bowstring is still quivering from the recoil of its propulsive action. The snap of its trigger when its sights are well aimed for an instant on the body of the fleetest game bird in full flight will imprint on the negative a faithful picture. The camera is designed by William Gaertner, who was formerly in the employ of the Smithsonian institution. - St. Louis Post-Dispatch

Visitors Barred From the Sudan.

Many persons have since the recon quest of the Sudan been desirous of making trips of curiosity to Khartum and Omdurman, but all endeavors to do so have been fruitless The sirdar will allow no stranger to enter the cities and the government refuses all applications for permission to cross the desert Lord Kitchener is proceeding with the work of planning out Khartum, and by the time that travelers are free to enter the city they will find very little to show them what the city was like in Gordon's day The reason for this action on the part of the government is that the desert is not yet safe for those who have not a military escort. -Cin einnati Commercial Tribune.

Tells the Story.

ADIEU TO BACHELORDOM

William K. Vanderbilt, Jr.,'s Dinner to His Friends.

THEY SAT AROUND LIMPID POOLS.

hive Ducks Swam About In Spaces Formed by the Banquet Table. priends of the Millionaire Drank to the Bride to Be-Special Menus For Each Guest.

William K. Vanderbilt the younger ave a farewell dinner to his bachelor riends the other night at Sherry's. It was the most costly and the most orighal bachelor dinner ever given in New York. The young host has a pretty ancy in such matters, and so has his betrothed, Virginia Fair.

Miss Fair indeed was the inspiration d many of the cleverest surprises of the affair. No rural damsel ever worked harder over a church fair than she over his feast-from which she was to be excluded. She hovered over the scene till the last moment, smiling, restless, indulgent, authoritative, as unselfishly absorbed in the spirit of the occasion as if she had been "fixing things" for a children's party.

The preparations for this banquet began weeks ago. There were a hundred and one things to be done as such things had never been done before, but the triumph of invention was the table itself, as is fitting when folks are going to eat, and the table shall be told about first. It was a table and duck pend combined. To consider it first in its capacity of table, it was oblong and large enough to seat 30 persons and still leave each a great deal of room. Beyond the generous outside strip apportioned for the accommodation of plates and glasses and so forth, was a bank of American Beauty roses, two feet wide, running clear round the board. Inclosed within this border were two duck ponds and a fountain.

The fountain was in the exact center of the table, and it was a very graceful Mair, fashioned out of the precious metals and spraying upward and around a thousand tiny jets of delicately perfuned liquid, which the artfully arranged lights caused to resemble showers of rubies and diamonds and emeralds. It was flanked by what have here been called, irreverently, duck ponds. In lovelier ponds did ducks never swim. Titania might take swimming lessons in them with gratification. The sides and bottom of each shone with the burnished warmth of gold leaf. The bank of banks of the golden duck ponds, and in the center of each duck pond was a littleisland, on which grew a pretty white. Lowering shrub.

As nature has not provided ducks of soperior character to swim at millionaire bachelor dinner parties, it was necessary to be content with ducks that are worth no more per pound than other fat ducks, with some attention to whiteness of plumage and tractability of temper. A Roman youth giving a dinner party with duck pond accessories would probably have gilded the birds, but that would have been cruel. Nevertheless furry of excitement at the eleventh bour.

At 5:30 in the evening Miss Fair fluttered into the banquet room, intent on putting the final touches to everything. She was greeted by a chorus of deep throated "quacks." In each of the golden ponds swam three large birds. They were strong swimmers and they knew it. They were constructed on battleship lines and needed plenty of sea room. They had a great deal to say: they had some kind of vendetta among themselves, and they appeared anxious to leave the room. "That wasn't my idea at all!" exclaimed Miss Fair in dismay. "That would spoil the effect entirely. noisy and too rough. If large birds were required, we would have ordered swans, can get." Sherry's men descended upon the large ducks and bore them, quackmg, flapping, to the lower regions.

And after much excitement and runaing about half a dozen pretty and well behaved ducklings were brought with clipped wings to swim in the golden ponds, peck experimentally at the American Beauty roses, clamber awkwardly up the banks of the flowering islets, tumble back with helpless little splashes, gobble up the crumbs tossed to them by young Mr. Vanderbilt and his guests, paddle spasmodically at each pop of a cork, look perfectly innocent during the height of the conversation and generally behave themselves like well brought up little birds. There were two orchestras to play tunes—the finest orchestras that could be had: there were clever people to sing and dance and crack jokes, and there were charming little surprises introduced at every turn.

That the guests, most of whom were Harvard chums of young Mr. Vander bilt, drank his health and that of Miss Fair a great many times is also true. They sang college songs and "Auld Lang Syne" and all the other things that spirited and warm hearted young men might be expected to sing on such l

OCCRETODE

Each guest was furnished with a menu decorated especially with an eye to his individual idiosyncrasies. The host himself designed this menu. Each had a water color sketch in the upper left hand corner. For Sydney J. Smith there was a cross country rider taking a five barred fence. Young Gerry, recently admitted to the Coaching chub. had a spirited four in hand scene. For one or two of well known languid natures there were chaps reclining at ease with brandy and sods beside them. New York Journal.

KOREAN KING'S REFORM.

Adopts American Style of Dress and Shaves Of His Topknot.

The king of Korea and his court have caused a sensation at Seoul by suddenly adopting American fashions in the matter of both dress and carriages. The first important occasion on which the new styles were displayed the king's attendants and guards were likewise clothed in American style. The king was so highly pleased with his new dress, which was made by a Seoul firm of Japanese tailors, that he presented 100 yen to the master of the firm and 50 yen to be distributed among his workmen. A dispatch from Seoul to Tokyo announces that the king has cut

off his topknot, or short cue, which from time immemorial has adorned the tops of the Korean kings' heads.

In other ways the king has shown his desire to conform hereafter to occidental customs. He desires to ride in carriages fashioned after American ideas and has just given an order for the construction of a royal carriage, which will be modeled in some respects after a carriage used by the Japanese emperor. Riots which recently occurred between expression. roses already spoken of formed also the the reform and conservative elements of "Out of 890,000 there are 111.380 Globe-Democrat.

NAVAL MILITIA AT HAWAII.

It Is Proposed to Perfect an Organization at Honolulu.

Hawaii is to have a naval militia organization similar to the auxiliary forces possessed by many of the states which were so valuable in the recent the duck question gave rise to a little Spanish war. Secretary Long received a letter on the subject recently from J. B. Castle, who was the Hawaiian secretary of legation at Washington before annexation was accomplished, asking of the poor and in their apparently for all the necessary regulations regarding the militia, in order that steps could be taken at once at Honolulu to rance of the fact that the lower animals perfect an organization.

The navy department is highly gratified with the prospect of such a reserve force in the mid-Pacific as Mr. Castle and the Hawaiians interested with him They are very humane people to their propose to establish, especially as it is impossible to maintain as large a regular naval force there at present as the importance of the locality would justify did Admiral Dewey not require so They are too large, those ducks, and too many vessels in the Philippines. It is expected that a naval officer will soon | Spanish laws and governed by local aube spared to undertake the instruction thorities. Each town has now, however which are much nicer. Take these away of the Hawaiian battalion in technical and bring small ducks—the smallest you matters, drills and routine ship life, garrison of soldiers to make sure of and, if possible, a monitor or gunboat good government in this time of transiwill be assigned to the battalion for tion We found these commandants

cruising duty. The appropriation of congress providing for arms and equipment for naval with interpreters and introductions to militia organizations may not be at once available for the Hawaiian battalion, as it is apparently limited to states, omitting any mention of territories, although the District of Columbia militia. which was recently organized, participates in the fund. The Hawaiians are aware of this legislative oversight, but tial buildings for the military, which they propose to go ahead and bear all expenses themselves, if necessary, realizing that such protection as they will give Honolulu is indispensable. - New York Tribune.

The Money They Bring.

Statistics in regard to the amount of money brought to this country by European immigrants show that the German is the richest, with an average of \$52.50, while the Englishman is a close second, with \$52. The Frenchman has \$47.25 and the Belgian \$45, while the Irishman brings but \$15, the Russian \$12.50 and the Italian \$10.

Probably the Italian takes more back to his native land, however, than any of the others - New York Tribune.

LIFE IN PORTO

Interesting Facts About the Conditions In the Island.

SPECIAL COMMISSIONER'S REPORT.

Bananas, and Only 12 Per Cent Can Write-No Buildings Are Specially Set Apart as Schoolhouses - Meat Rarely Enten.

Dr. A F. Beard, who was sent to Porto Rico as the special commissioner of the American Missionary association. has made a report of the conditions in that island, as related to population. education, homes and opportunities for a new Americanism, such as the association has represented for more than balf a century. Following is a summary of his report

"A census of Porto Rico lately taken gives the population as 890,000, which may be divided in round numbers as follows White, 500,000; colored, 390,-000, of whom about 90,000 are blacks. This gives a dense population of nearly 248 to the square mile. The whites comprise the Spaniards and Porto Ricans of Spanish blood. The colored are of all shades, chiefly burnt sienna, and mostly straight haired. The blacks are negroes, pure and simple. The whites may be divided into the ruling class. numbering perhaps 100,000, and the peasants, or gibaros, 400,000. The col ored are mixed (mestizos). The peasants, or gibaros, with the mestizos and blacks, together form the class of unskilled laborers. They are miserably poor, and literally live from hand to mouth Their cabins, or "shacks," are set on poles driven into the ground, the floor being raised a few feet. The average household furniture consists of a few dishes and utensils made of calabash shells, or gourds, with some rude earthenware A little patch of land for the plantain grove, or some corn or sweet potatoes, possibly a cow, a pig and a diminutive horse of Gothic archi tecture form the property and provision for life.

"The people seldom get any meat and but little bread for food, as none of the cereals grow well there. As a result, they are as a class anæmic and hungry looking Their staple food is the banana. which, for steady diet, does not put a great deal of iron into the blood. Most of their food grows on trees. Here they are, more than one-half of the population, in dense ignorance, too ignorant to be discontented with this existence. which in its condition is pitiful beyond

Korea have subsided. The reformists who can read, but of these 14,513 canwere victorious in a large measure and | not write | Nearly 800,000 are without regard the king's adoption of occidental knowledge beyond that of their own costumes as an important sign that he hut In every town there are certain is imbued with their ideas. -- St. Louis people with varying attainments in education, who hold the more responsible positions in life, but they have entirely failed to realize any responsibility for this appalling mass of ignorance about them One-half of the population is in towns All of the towns are built on the same general plan, and in most of them four of the five senses are constantly offended. Odors are always in evidence. As to feeling, the opportunities for the study of entomology are unbounded. As to taste, everything is saturated with garlic. The sight is hurt constantly in the wan and pinched faces needless poverty in a land where plenty would come easily and in their ignoare God's creatures. They lash their stunted horses without mercy; they prick their oxen cruelly with goads They do not, however, mean to be cruel own neighbors who are sufferers. They show affection for children, though not

"As to government, the island is di vided into seven districts, with a county seat in each. These are as yet under United States commandant and a high toned officers, seeking the betterment of the people. They furnished us the schools and gave us every facility in our investigation. We visited many schools in many places. With one exception we found no building constructed and set apart for educational use Public schools are in private houses. In every town the Spaniards had substan kept the people down, but no schoolhouses. Certainly Spain went away

none too soon "The teacher of the private school is paid from the public fund, but he furnishes the schoolroom and all that therein is and this does not require much wealth Seldom did we find in any schools desks, and there were only backless benches. One reading book sufficed for a class, being passed from one pupil to another. The schools are ungraded and but a small fraction of the pupils got beyond reading and writing, and these pupils were the exceptional few

"The military governor, General Henry gives his position and influence to all things that are good He is an cinnati Commercial Tribune.

able administrator for civil improvements The large theater in San Juan is secured for religious services and well attended. Sunday school is held there every Sunday morning. Sermons are preached in Spanish and English American officers and their wives sing in the choir. The American Missionary association has already voted to plant three schools in three different interesting centers of Porto Rico, to be in full operation in October next. One of these schools will be in the north, another in the center and the third on the west coast of the island "-New York Press

PORK CAUSED AN INDIAN WAR

A Question of Beef Cost Uncle Sam \$20,000,000 In Another Case.

"The present beef inquiry," said an official of the war department, "recalls the fact that one of the most expensive Indian wars we ever had was caused by the efforts of a contractor for furnishing supplies to the Indians to foist upon them a lot of hog meat that did not come up to the standard. This was back in 1862. The contractor unloaded a consignment of what he pretended was prime pork, but proved to be the refuse portions of hogs, consisting mostly of heads. It was the Sioux Indians he wanted to feed on this, but they made a vigorous kick. The contractor very unwisely tried to force his objectionable pork on them, and there was a rebellion. The Indians put on their war paint and went scalp hunting. Generals Sibley and Sully, with fully 15,000 men, had months of the hardest kind of fighting to bring the braves to their pork. Our loss of life was not great, but the campaign was an expensive

"Ten years prior to this war the great Sioux war began, and this, too, had the beef question mixed up in itin fact, was the cause of the war. However, the beef was on the hoof and not in cans or refrigerated. Near the military post at Fort Laramie some Sioux were camped, and one day a train of Mormon emigrants came along, having with them several cows. Some of the Indians were beef hungry, and a brave stepped out and killed one of the cows, and he and his friends had a feast. The Mormons complained to the officer in charge of the post, and he sent out 20 men under command of an officer. The soldiers demanded the surrender of the Indian who had killed the cow, but this was positively declined, the Indians declaring, however, that they were ready and willing to pay the Mormons the full value of the cow. The officer would not listen to any such proposition, and after again demanding the surrender of the cow killer and meeting with a refusal he ordered his men to open fire.

"Well, in less time than it takes to tell it the Indians had killed and scalped the officer and his 20 men. This blood made the Sioux ugly, and they were ready for more, and the fight which began about the shooting of one cow was the beginning of a war which lasted for more than three years and cost this government \$20,000,000, to say noth. Our Type. ing of the loss of hundreds of lives. 1 am forced to say that this war could have been -or, anyway, might have been-averted if the officer had acted with any degree of judgment and discretion."-New York Sun.

QUICKEST CAMERA KNOWN.

Machine That Will Turn Out a Pic-

ture in 1-600 of a Second. What is to be the fastest camera in the world is being constructed in Chicago for the Smithsonian institution at Washington. The specifications for this splendid instrument require that it shall be capable of making a successful exposure in one-six-hundredth part of a second, and it is hoped that this speed will be so greatly increased that a good negative may be secured by an exposure of only a thousandth of a second. This marvelous rapidity in photographing has never been approached save by one camera, which is said to have secured a negative by an exposure of one-five hundredth of a second.

A better appreciation of the marvel ous alertness of this mechanical eye is to be gained from the statement that it is capable of catching the image of an arrow speeding through midair while the bowstring is still quivering from the recoil of its propulsive action. The snap of its trigger when its sights are well aimed for an instant on the body of the fleetest game bird in full flight will imprint on the negative a faithful picture. The camera is designed by William Gaertner, who was formerly in the employ of the Smithsonian institution. - St. Louis Post-Dispatch

LIFE IN PORTO RICO.

Interesting Facts About the Conditions In the Island.

SPECIAL COMMISSIONER'S REPORT.

Dr. Beard Says the Natives Live on Bananas, and Only 12 Per Cent Can Write-No Buildings Are Specially Set Apart as Schoolbouses - Meat Rarely Esten.

Dr. A F. Beard, who was sent to Porto Rico as the special commissioner of the American Missionary association. has made a report of the conditions in that island, as related to population. education, homes and opportunities for a new Americanism, such as the association has represented for more than half a century. Following is a summary of his report

"A census of Porto Rico lately taken gives the population as 890,000, which may be divided in round numbers as follows White, 500,000; colored, 390, 000, of whom about 90,000 are blacks. This gives a dense population of nearly 248 to the square mile. The whites comprise the Spaniards and Porto Ricans of Spanish blood. The colored are of all shades, chiefly burnt sienna, and mostly straight haired. The blacks are negroes, pure and simple. The whites may be divided into the ruling class. numbering perhaps 100,000, and the peasants, or gibaros, 400,000. The colored are mixed (mestizos). The peasants, or gibaros, with the mestizos and blacks, together form the class of unskilled laborers. They are miserably poor, and literally live from hand to mouth Their cabins, or "shacks," are set on poles driven into the ground, the floor being raised a few feet. The average household furniture consists of a few dishes and utensils made of calabash shells, or gourds, with some rude earthenware A little patch of land for the plantain grove, or some corn or sweet potatoes, possibly a cow, a pig and a diminutive horse of Gothic architecture form the property and provision for life.

"The people seldom get any meat and but little bread for food, as none of the cereals grow well there. As a result, they are as a class anæmic and hungry looking Their staple food is the banana. which, for steady diet, does not put a great deal of iron into the blood. Most of their food grows on trees. Here they are, more than one-half of the population, in dense ignorance, too ignorant to be discontented with this existence. which in its condition is pitiful beyond

"Out of 890,000 there are 111,380 education, who hold the more responsible positions in life, but they have en tirely failed to realize any responsibility for this appalling mass of ignorance about them One-half of the population is in towns All of the towns are built on the same general plan, and in most bounded. As to taste, everything is saturated with garlic. The sight is hurt constantly in the wan and pinched faces are God's creatures. They lash their stunted horses without mercy; they prick their oxen cruelly with goads show affection for children, though not care for them.

"As to government, the island is di garrison of soldiers to make sure of good government in this time of transition. We found these commandants high toned officers, seeking the betterment of the people. They furnished us the schools and gave us every facility in our investigation. We visited many schools in many places. With one exception we found no building constructed and set apart for educational use Public schools are in private houses. In every town the Spaniards had substantial buildings for the military, which kept the people down, but no schoolhouses Certainly Spain went away none too soon

"The teacher of the private school is paid from the public fund, but he furnishes the schoolroom and all that therein is and this does not require much wealth Seldom did we find in any schools desks, and there were only backless benches. One reading book sufficed for a class, being passed from one pupil to another. The schools are ungraded and but a small fraction of the pupils got beyond reading and writing, and these pupils were the exceptional few

The military governor, General Henry gives his position and influence to all things that are good He is an

able administrator for civil improvements The large theater in San Juan is secured for religious services and well attended. Sunday school is held there every Sunday morning. Sermons are preached in Spanish and English American officers and their wives sing in the choir. The American Missionary association has already voted to plant three schools in three different interesting centers of Porto Rico, to be in full operation in October next. One of these schools will be in the north, another in the center and the third on the west coast of the island "-New York Press.

PORK CAUSED AN INDIAN WAR

A Question of Beef Cost Uncle Sam \$20,000,000 In Another Case.

"The present beef inquiry," said an official of the war department, "recalls the fact that one of the most expensive Indian wars we ever had was caused by the efforts of a contractor for furnishing supplies to the Indians to foist upon them a lot of hog meat that did not come up to the standard. This was back in 1862. The contractor unloaded a consignment of what he pretended was prime pork, but proved to be the refuse portions of hogs, consisting mostly of heads. It was the Sioux Indians he wanted to feed on this, but they made a vigorous kick. The contractor very unwisely tried to force his objectionable perk on them, and there was a rebellion. The Indians put on their war paint and went scalp hunting. Generals Sibley and Sully, with fully 15,000 men, had months of the hardest kind of fighting to bring the braves to their pork. Our loss of life was not great, but the campaign was an expensive

"Ten years prior to this war the great Sioux war began, and this, too, had the beef question mixed up in itin fact, was the cause of the war. However, the beef was on the hoof and not in cans or refrigerated. Near the military post at Fort Laramie some Sioux were camped, and one day a train of Mormon emigrants came along, having with them several cows. Some of the Indians were beef hungry, and a brave stepped out and killed one of the cows, and he and his friends had a feast. The Mormons complained to the officer in charge of the post, and he sent out 20 men under command of an officer. The soldiers demanded the surrender of the Indian who had killed the cow, but this was positively declined, the Indians declaring, however, that they were ready and willing to pay the Mormons the full value of the cow. The officer would not listen to any such proposition, and after again demanding the surrender of the cow killer and meeting with a re- Book Work. fusal he ordered his men to open fire.

"Well, in less time than it takes to tell it the Indians had killed and scalped the officer and his 20 men. This blood made the Sionx ugly, and they were ready for more, and the fight which began about the shooting of one cow was the beginning of a war which lasted for more than three years and cost this government \$20,000,000, to say noth Our Type. ing of the loss of hundreds of lives. I am forced to say that this war could have been -or, anyway, might have been-averted if the officer had acted with any degree of judgment and discretion. '-New York Sun.

QUICKEST CAMERA KNOWN.

Machine That Will Turn Out a Picture In 1-600 of a Second.

What is to be the fastest camera in the world is being constructed in Chicago for the Smithsonian institution at Washington. The specifications for this splendid instrument require that it shall be capable of making a successful exposure in one-six-hundredth part of a second, and it is hoped that this speed will be so greatly increased that a good negative may be secured by an exposure of only a thousandth of a second. This marvelous rapidity in photographing has never been approached save by one camera, which is said to have secured a negative by an exposure of one-fivehundredth of a second.

A better appreciation of the marvel ous alertness of this mechanical eye is to be gained from the statement that it is capable of catching the image of an arrow speeding through midair while the bowstring is still quivering from the recoil of its propulsive action. The snap of its trigger when its sights are well aimed for an instant on the body of the fleetest game bird in full flight will imprint on the negative a faithful picture. The camera is designed by William Gaertner, who was formerly in the employ of the Smithsonian institution. - St. Louis Post-Dispatch

Visitors Barred From the Sudan. Many persons have since the recon

quest of the Sudan been desirous of making trips of curiosity to Khartum and Omdurman, but all endeavors to do so have been fruitless. The sirdar will allow no stranger to enter the cities. and the government refuses all applications for permission to cross the desert Lord Kitchener is proceeding with the work of planning out Khartum, and by the time that travelers are free to enter the city they will find very little to show them what the city was like in Gordon's day The reason for this action on the part of the government is that the desert is not yet safe for those who have not a military escort. -Cin einnati Commercial Tribune.

HARRY PALMER, Owner and Manager.

LOCAL BREVITIES.

Henry Knoblock, of the Dresden company, is here after a short eastern trip.

The street sprinkler and sweeper were out this afternoon for the first time this

erection of a handsome new residence in Fourth street. The board of health and water works

Henry Deitz has commmenced the

trustees will meet in regular session Friday evening. Trades council will meet tomorrow

evening and have much important business to transact. Harry Scott left this morning for

Bellevue where he will remain several days on business.

night in Smith's Ferry visiting a relative who is very ill. The eight-year-old son of Mr. and Mrs. William Copestick, is seriously ill

with pleuro pneumonia. Several of the alleys in the business portion of the city are sadly in need of

cleaning and present a very disreputable appearance. The packet Ben Hur unloaded considerable freight on the Virginia side

opposite Jethro yesterday afternoon on its way south. George W. Clark, of the Laughlin

China company, left at noon for an extended western trip. His first stop will be at Denver. Smith Fowler yesterday purchased

from J. M. Ferguson the Ferguson & Hill building, in the Diamond. Consideration \$23,500.

A. W. Ross left this morning for Sewickley, where he will superintend the carpenter work of a large residence being erected in that place.

Manager Swaney, of the telephone office, this morning went to Salineville and Irondale where he made some improvements in the service in those places.

Edwin O'Conner, of Fifth street, was in Beaver Falls today, and closed a contract for the erection of a large kiln at the plant of the Beaver Falls Cut-Glass company.

The first fakir of the season made his appearance in the Diamond last evening. but did not do a land office business, as the people were too interested in the election returns.

Rev. J. R. Greene left today for Cleveland where he attended the commencement exercises of the medical college. His brother-in-law, Albert Porter, will receive his degree.

Mrs. O. A. Robertson, who has been absent from the city for nearly a year, is spending a week with her husband and son at the residence of Mr. Kaufman, corner College and Forest streets.

Word has been received in the city that Rebecca Jones has been granted a pension of \$8 per month with back pay for over nine years. The total amount to be received will be in the neighborhood of \$1,000.

There is again a great deal of paper in the streets, but a majority of it is campaign literature that has been scattered to the four winds. The street force will clean the streets, and it is expected they will not be bothered with the paper until the next election.

Miss Nellie Bunting, of Congo, will be married tomorrow evening to Walter Allison, of Grant district. The ceremony will be performed by Reverend Fisher, of Fairview. Thursday morning the young couple will leave for the west on a short wedding tour.

Business at the hotels yesterday was more brisk than it has been for several weeks. At one, applicants for rooms could not be accommodated while at another every room was taken. It has been some time since such a state of affairs has existed among the hotels.

THE TROUBLE IN SAMOA.

President Considering a Suitable Man For the Commissioner-A German Official In Washington.

WASHINGTON, April 4.—The president and Secretary Hay have been giving consideration to the selection of a representative of the United States govern-Conductor James Duffy spent last ment on the Samoan commission. He will not be a member of either the senate or house of representatives, according to present lights. It is probable that the effort will be to find some person thoroughly familiar with the issue likely to be presented in the settlement of this Samoan dispute.

It was conceived here that all that was needful for reforming conditions there and placing them on a basis that will insure a tranquil and satisfactory administration of affairs may be secured through the adoption of some additional articles to the Berlin convention, not even affecting the general principle of

the tripartite control. Many cable dispatches passed between Washington and London in regard to the Samoan settlement. The main point is on determining exactly the extent of authority which the high commission is to possess, Lord Salisbury de siring all uncertain points first clea up and an exact definition of what the commission is to do before committing Great Britain. It was said the British government was as ready as the United States or Germany to accept the general principle of commissioners, but it wanted to know in advance as to the power of the commission.

The indications are that the British authorities will give their adherence to the agreement within a day or two, but it is stated that there is still a chance, although a very slight one, that the agreement may not be concluded.

Dr. Solf, the newly appointed president of the municipality of Samoa, arrived here. He came at the request of the German ambassador, Dr. Von Holleben, to talk over Samoan affairs, and was presented to Secretary Hay. He created an agreeable impression.

It was arranged that he should remain in Washington for a few days and during that time he will have an opportunity to confer with the state department officials and relative to Samoan affairs. It is hoped that misunderstandings may be avoided in the future if a perfect comprehension is reached in advance of Dr. Solf's departure. As he had already visited the British authorities in London, the way appeared to be now cleared for such an understanding.

It was said here that Admiral Kautz was fully sustained by the navy department in every measure that he had taken. It was assumed that the admiral acted strictly in accordance with his instructions.

PROPOSED MUNICIPAL OWNERSHIP.

Detroit's Purchase of Street Railways to Be Contested.

DETROIT, April 4.—Governor Pingree and the other commissioners who will negotiate for purchase by the city of as the Pico de Comanche, west of Chi-Detroit street railways executed bonds huahua, Mexico, was struck by a meteor, for \$250,000 each and took their oaths of office. They sent a letter to the street railway companies stating that the commission is organized and ready for business, and the lines upon which they are willing to negotiate.

Members of a citizens' committee, which is opposing the municipal ownership plan, say that application will be made to the attorney general today to begin a test of the act authorizing the purchase and the proceedings thereunder.

Secretary Gage a Guest.

NEW YORK, April 4.—Secretary of the Treasury Lyman J. Gage was the guest of honor at a dinner given at Sherry's last night by the directors of the Bank of the Manhattan company, to celebrate the one hundred anniversary of the founding of the company under a char er obtained by Aaron Burr.

Succeeds Rev. Dr. Fox.

NEW YORK, April 4.—Rev. Alexander McGaffin, now pastor of the Presby terian church in Mt. Sterling, Ills., has announced his acceptance to the pas-

torate of the Second Presbyterian church, Brooklyn, succeeding Kev. Dr. John Fox, who resigned to become one of the secretaries of the American Bible society.

LELAND VERY LOW.

The Proprietor of Burned Windsor Hotel Took a Turn For the Worse.

NEW YORK, April 4.—The condition of Warren F. Leland, proprietor of the burned Windsor hotel, who was operated upon for appendicitis on Sunday afternoon, took a serious turn about 9

WARREN F. LELAND.

o'clock last night, and an hour later Dr. Pitkin was hurriedly called. He at once pronounced the change a very grave one, and advised that all the relatives be summoned.

Mr. Leland's son, Charles W., was already with his father, and a telegram was immediately sent to Chicago for the remaining son. Miss Fannie, the surviving daughter, was also called to her father's bedside. Dr. Pitkin said only a miracle could save the patient's life.

A Novel Hand Car.

J. M. Staton, bridge inspector, and C. E. Powell, supervisor of buildings and bridges, of the Chesapeake and Ohio railroad, accompanied by four bridge engineers, arrived in Newport News recently on a novel hand car, having made the trip on this new device all the way from Cincinnati. The car is operated by an engine, the motive power being gasoline and electircity combined. The engine is of the same pattern as that used in the naththa launches on the lagoon at the World's fair. This peculiar car was built at the Chesapeake and Ohio shops, under the supervision of Mr. Staton, and is the only one in existence. Others will be manufactured at once. - Special New York Tribune.

Smashed a Mountain.

A few days ago a mountain known and the whole peak was destroyed. The meteor fell at night and was observed by a number of people. It appeared to be an immense ball of fire and descend ed at an angle of about 40 degrees. throwing the entire top of the peak into the valley and following it down. The meteor was of great size and composed of various metals, principally iron which has the appearance of having been melted. A number of people have visited the spot.—Chihuahua (Mexico) Cor. Chicago Inter Ocean.

Soldier Died In Cuba.

Washington, April 4.—Gen. Brook from Havana reported the death o March 31 of Private Charles McMichael Company G, Eighth cavalry, from typhoid at Puerto Principe.

Searching the Sewers.

Paris sewers are being searched care fully for treasure trove, owing to the recent discovery by a workman under the Rue Montmartre of a bundle containing 600,000 francs in securities.

White Expects a Settlement.

LONDON, April 4.—The Berlin corres condent of The Standard said: "Mr White, the American ambassador, expressed to me today (Monday) his firm conviction that the whole Samoan question is now in a fair way to a settlement satisfactory to all the powers inter-

Two Women Burned to Death.

TRAVERSE CITY, Mich., April 4 .-Word reached here of a fire occurring at Kingsley, in which two women were burned to death. They were Mrs. Sarah Shubert, aged 60, and Mrs. Beyers.

D. A. Waterman Died.

NEW YORK, April 4.—D. A. Water man, treasurer of the Michigan Central railroad, died at his home in Yonkers. after an illness of less than 24 hours He was attending Easter services Sunday in the First Baptist church with his wife and daughters, and was suddenly

It is hoped that misunderstandings may be avoided in the future if a perfect comprehension is reached in advance of Dr. Solf's departure. As he had already visited the British authorities in London, the way appeared to be now cleared for such an understanding.

It was said here that Admiral Kautz was fully sustained by the navy department in every measure that he had taken. It was assumed that the admiral acted strictly in accordance with his instructions.

PROPOSED MUNICIPAL OWNERSHIP.

Detroit's Purchase of Street Railways to Be Contested.

DETROIT, April 4.—Governor Pingree and the other commissioners who will negotiate for purchase by the city of Detroit street railways executed bonds for \$250,000 each and took their oaths of office. They sent a letter to the street meteor fell at night and was observed railway companies stating that the commission is organized and ready for business, and the lines upon which they are willing to negotiate.

Members of a citizens' committee, which is opposing the municipal ownership plan, say that application will be made to the attorney general today to begin a test of the act authorizing the purchase and the proceedings thereunder.

Secretary Gage a Guest.

New York, April 4 .- Secretary of the Treasury Lyman J. Gage was the guest of honor at a dinner given at Sherry's last night by the directors of the Bank of the Manhattan company, to celebrate the one hundred anniversary of the founding of the company under a charter obtained by Aaron Burr.

Succeeds Rev. Dr. Fox.

NEW YORK, April 4.-Rev. Alexander McGaffin, now pastor of the Presbyterian church in Mt. Sterling, Ills., has announced his acceptance to the pas-

torate of the Second Prespyterian church, Brooklyn, succeeding Kev. Dr. John Fox, who resigned to become one of the secretaries of the American Bible society.

LELAND VERY LOW.

The Proprietor of Burned Windsor Hotel Took a Turn For the Worse.

New York, April 4.—The condition of Warren F. Leland, proprietor of the burned Windsor hotel, who was operated upon for appendicitis on Sunday afternoon, took a serious turn about 9

o'clock last night, and an hour later Dr. Pitkin was hurriedly called. He at once pronounced the change a very grave one, and advised that all the relatives be summoned.

Mr. Leland's son, Charles W., was already with his father, and a telegram was immediately sent to Chicago for the remaining son. Miss Fannie, the surviving daughter, was also called to her father's bedside. Dr. Pitkin said only a miracle could save the patient's life.

A Novel Hand Car.

J. M. Staton, bridge inspector, and C. E. Powell, supervisor of buildings and bridges, of the Chesapeake and Ohio railroad, accompanied by four bridge engineers, arrived in Newport News recently on a novel hand car, having made the trip on this new device all the way from Cincinnati. The car is operated by an engine, the motive power being gasoline and electircity combined. The engine is of the same pattern as that used in the naththa launches on the lagoon at the World's fair. This peculiar car was built at the Chesapeake and Ohio shops, under the supervision of Mr. Staton, and is the only one in existence. Others will be manufactured at once. - Special New York Tribune.

Smashed a Mountain.

A few days ago a mountain known as the Pico de Comanche, west of Chihuahua, Mexico, was struck by a meteor. and the whole peak was destroyed. The by a number of people. It appeared to be an immense ball of fire and descend ed at an angle of about 40 degrees. throwing the entire top of the peak into the valley and following it down. The meteor was of great size and composed of various metals, principally iron which has the appearance of having been melted. A number of people have visited the spot.—Chihuahua (Mexico) Cor. Chicago Inter Ocean.

THE TROUBLE IN SAMOA.

President Considering a Suitable Man For the Commissioner-A German Official In Washington.

Washington, April 4.—The president and Secretary Hay have been giving consideration to the selection of a representative of the United States govern-Conductor James Duffy spent last ment on the Samoan commission. He ate or house of representatives, according to present lights. It is probable that the effort will be to find some person thoroughly familiar with the issue likely to be presented in the settlement of this Samoan dispute.

It was conceived here that all that was needful for reforming conditions will insure a tranquil and satisfactory administration of affairs may be secured through the adoption of some additional articles to the Berlin convention, not even affecting the general principle of

the tripartite control.

Many cable dispatches passed between Washington and London in regard to the Samoan settlement. The main point is on determining exactly the extent of authority which the high comnission is to possess, Lord Salisbury de siring all uncertain points first cleared up and an exact definition of what the Great Britain. It was said the British government was as ready as the United States or Germany to accept the general A. W. Ross left this morning for principle of commissioners, but it power of the commission.

The indications are that the British authorities will give their adherence to the agreement within a day or two, but it is stated that there is still a chance, although a very slight one, that the agreement may not be concluded.

Dr. Solf, the newly appointed president of the municipality of Samoa, arrived here. He came at the request of the German ambassador, Dr. Von Holleben, to talk over Samoan affairs, and was presented to Secretary Hay. He

created an agreeable impression. It was arranged that he should remain in Washington for a few days and during that time he will have an opportunity to confer with the state department officials and relative to Samoan affairs. It is hoped that misunderstandings may be avoided in the future if a perfect comprehension is reached in advance of Dr. Solf's departure. As he had already visited the British authorities in London, the way appeared to be now cleared for such an understanding.

It was said here that Admiral Kautz was fully sustained by the navy department in every measure that he had taken. It was assumed that the admiral acted strictly in accordance with his instructions.

virst Republican Mayor In 12 Years Elected at Columbus - Republicans Carried Cincinnati - Democrats Elected Their Candidates In Various Cities.

CLEVELAND, April 4 .- John H. Farley, Dem., was elected mayor over Robert E. McKisson, Rep., the present incumbent, by a plurality of about 3,500.
The first returns indicated a much greater victory for Farley, but his plurality was cut down by later returns. The remainder of the Republican ticket, including y treasurer, police judge, police pros ut , , justice and four members of the school council, elected at

MAYOR JONES OF TOLEDO.

large, will have substantial pluralities. The Republicans will control the city

McKisson's defeat was due to the defection of Republicans who voted against him because of his betrayal of Senator Hanna and his party during the contest before the legislature a year ago last winter. The whole ticket suffered somewhat on account of the opposition to McKisson, but not enough to defeat y of the other candidates.

Toledo, April 4.—Mayor S. M. Jones, who was a candidate on an independent ticket with a platform of municipal ownership of utilities, was elected by at least 5,000 plurality and probably a majority over all. Returns seemed to show that the regular Republican ticket, except for mayor, has been elected by a

Corporal Patrick Henehen, the Democratic candidate for city attorney, was probably elected. He is with the Sixth Ohio in Cuba, and his returned soldier friends of the Tenth Ohio turned out, irrespective of party, and pushed him through. George W. Acker, Democrat, has been elected police commissioner. The remainder of the regular Republican ticket has been elected.

With the return of Mayor Jones to his place, the question of the city purchasing an electric lighting plant and other public utilities will come before the council and the people will be given an opportunity of voting on the same and they will no doubt sanction the pur-

COLUMBUS, April 4.—Samuel L. Black, Dem., mayor of Columbus, was defeated for re-election by Samuel J. Swartz, Rep., former police judge by a decisive majority. The election was fought on strictly party lines, however, and was one of the most bitterly contested in the history of the city. Judge Swartz is the first Republican elected mayor of the city in 12 years. His plurality was estimated at 1,393. The city is normally Republican by about 1,000, though it has given majorities of upward of 3,000. Heretofore local issues and factional fights have operated against the Repubheans, but united action was secured by an agreement which gave Judge Nash, who is a candidate for the Republican nomination for governor, the solid delegation from Franklin county in the coming state convention. All other candidates on the Republican city ticket were

CINCINNATI, April 4.—The Republicans had a plurality of about 7,000. The present Democratic mayor was elected two years ago by almost as large a plurality. At Dayton the Democrats made municipal gains, but the Republicans gained in the township. The Western reserve maintained its usual Repubhean majorities, with some gains over those of former April elections, notably at Youngstown, Warren, Cadiz, Dela-ware and other cities in Northwestern Ohio. In the smaller cities, as well as in the rural districts, the Republicans claimed gains, notably at Chillicothe, where there was a change, Mayor Brown being defeated for re-election by James Wood by about 300.

At Defiance the Democrats lost two councilmen and a member of the board of education. At Hamilton the Democrats maintained their majorities; also at Lima, Newark, Circleville, Upper Sandusky, Wapakoneta, Millersburg and Van Wert. At Zanesville and Marysville the Republicans were successful, and they made gains at Napoleon. As a rule the vote was light. At Canton, regained consciousness.

the home of McKinley, James Robertson, Republican, was elected Mayor by about 13 plurality, a change from the present Democratic administration.

! RIBUTE TO SOLDIER DEAD. Otis Sent Good News From the

President Ordered Military, Naval and Other Honors During Burial at Arlington.

Washington, April 4.—The president issued the following executive order:

It is fitting that in behalf of the nation tributes of honor be paid to the memories of the noble men who lost their lives in their country's service during the late war with Spain. It is the more fitting inasmuch as in consonance with the spirit of our free institutions and in obedience o the most exalted promptings of patriosm, those who were sent to other shores o do battle for their country's honor ander their country's flag, went freely rom every quarter of our beloved land. ach soldier, each sailor, parting from ome ties and putting behind him private nterests in the presence of the stern mergency of unsought war with an alien or, was an individual type of that devotion of the citizen to the state which nakes our nation strong in unity and in

Those who died in another land left in nany homes the undying memories that the end the heroic dead of all ages. It was iting that with the advent of peace, won by their sacrifice, their bodies should be cathered with tender care and restored to some and kindred. This has been done vish the dead of Cuba and Porto Rico. Those of the Philippines still rest where ney feit, watched over by their surviving omrades, and crowned with the love of a

The remains of many brought to our nores have been delivered to their famies for private burial. But for others of ne brave officers and men who perished here has been reserved interment in gound sacred te the soldiers and sailors unid the tributes of military honor and national mourning they have so well deserved. I therefore order that upon the irrival of the cortege at the national cemetery at Arlington all proper military and naval honors be paid to the dead hethat suitable ceremonies shall at tend their interment; that the customary tery, and that on the same day at 2 o'clock p. m., Thursday, the 6th day of April, the national ensign be displayed at half mast on all public buildings, forts, the same and public vessels of the United States and that at 12 clock per of said States, and that at 12 o'clock noon of said day all the departments of the government at Washington shall be closed.

WILL CARE FOR THE WIDOWS.

Half-Brother of Captain Capron Appointed to a Good Office.

WASHINGTON, April 4.—The president appointed Webster Vinson paymaster in the regular army, with the rank of and others of less importance. The ree regular army, with the rank of major. The vacancy was caused by the death of Colonel Glenn. Major Vinson is a half brother of Captain Allyn Capron of the First artillery, who died of disease contracted in Cuba, and an uncle of Captain Allyn Capron. Jr., of the rough riders, who was killed in the first charge at San Juan.

Major Vinson is the sole support of the widows of the Caprone, and when the case was presented to the president last fall he said he would make the appointment when opportunity offered, as it would be a part of his policy to make such recognition of the relatives of those who lost their lives in the war.

Alger Reported All Well.

WASHINGTON. April 4.—A telegram was received at the war department from Secretary Alger at Santiago saying that all the members of his party are well. He made no mention of political affairs on the island and is silent as to his future movements.

TO CHECK THE MORMONS.

Methodist Minister Asks That Roberts Be Expelled-Power of the Mormons.

New York. April 4.—The Rev. Dr. Thomas C. Iliff of Salt Lake City addressed the Methodist preachers' weekly meeting in this city on "The Present Situation In Utah." In the course of his address Dr. Iliff said:

"If Brigham H. Roberts is permitted to sit in congress it will be interpreted in every Mormon hamlet as the fulfillment of Brigham Young's prophecy and also as nationalizing polygamy. The Mormons will redouble their energies. Already they may be said to hold the balance of power in Idaho and Wyoming, and they are very strong in Nevada, Arizona and in Southwest Colo.

"The other day the wife of a senator from a state adjoining Utah, herself a Methodist, was asked to use her influence on behalf of our crusade. She replied that she could not do anything about the matter. That shows the Mor mon influence in politics.

"We ask that congress shall expel Roberts. We at first petitioned that he be not received, but after conferring with Senator Edmunds and others, we think that the proper procedure is to expel him.'

Was Stricken In His Pulpit.

WEST CHESTER, Pa., April 4.-Rev. Mr. Wood, pastor of the Hopewell M. E. church in East Brandywine town-ship, died at the M. E. parsonage at Guthrieville, after a stroke of paralysis. He was stricken while conducting Easter services in his church and fell to the floor on the pulpit platform. He never

Philippines.

SOME NATIVES RETURNED HOME.

General Also Announced News From the Visayan Islands Was More Encouraging - Congratulations to Otis From Dewey-Oue Otis Coming Home.

WASHINGTON, April 4,-The department officials were pleased by this cheering dispatch from General Otis:

"MANILA, April 8. Adjutant General, Washington:

"Present indications denote insurgent government in perilous condition; its army defeated, discouraged and scattered. Insurgents returning to their homes in cities and villages between here and points north of Malolos, which our reconnoitering parties have reached, and desire protection of Americans. News from Visayian islands more en-couraging every day.

Otts,"

It contained a great deal of encouragement to them, and those who know General Otis well say he is not a man to take a roseate view of a situation unless there is reason for it. It is argued at the department that the Filipinos have never been used to the kind of warfare that the Americans have given them, and for that reason they are now aware that it will be impossible for them to accomplish anything by fighting. While there is disappointment because the movement for the capture of a large force of Filipinos was not successful, it is believed the pressing of the insurgents steadily toward the north, capturing their capital and driving them from place to place, has had a very discouraging effect upon the natives who have been following Aguinaldo.

It is evident by the reference which General Otis makes to reconnoitering parties that he is having the country thoroughly covered and that the information which they are giving him is the basis of the dispatch received. It is believed that desertions will soon deplete the army of Aguinaldo to little or nothing.

That portion of the dispatch relating to the Visayans refers to the operations of which Iloilo is the base. The group bellion against the United States authority was not very serious in these islands, being stirred up by emissaries of Aguinaldo at Ilbilo. The constant defeat of Aguinaldo's forces north of Manila has no doubt had a depressing effect upon other insurrectionists.

MANILA, April 4.—The natives continued returning to their homes Monday. They were coming in all along the American lines and many of them, seeing the promises of good treatment were fulfilled, were inducing their relatives to return to their homes.

Major General Elwell S. Otis, commander of the American military forces, received the following message:

"Hearty congratulations on the most magificent work of the army.

(Signed) The United States Philippine commis sion, the last member of that body, Colonel Charles Denby, former minister to China, having arrived here, wil discuss the situation. The commissioners were hopeful of a speedy restoration of peace, telieving hostilities will soon be confined to the habitual revolutionists.

Brigadier General Harrison Gray Otis sails for home on board the United States transport Sherman. He said he believed the insurrection had received its death blow.

The Sherman will also have on board the sons of Colonel John Hay, secretary of state, and Senator Hale of Maine, who witnessed much of the fighting with the army, and the bodies of Colonel Harry C. Egbert of the Twenty-second infantry, killed on March 25, and other officers who had recently fallen in

General Wheaton assumed command of the brigade lately commanded by General Otis. The Third and Twentysecond regiments of General Wheaton's command were returning to this city.

MORE CASUALTIES CABLED.

Additional List of Wounded Sent by General Otis.

WASHINGTON, April 4.—General Otio cabled the war department as follows: MANILA, April 3 .- Casualties not heretofore reported:

March 25.-Twenty-second infantry wounded, Company H, Private Fritz Hexter, wrist, moderate.

April 1.-First North Dakota, Company H, Second Lieutenant Dorman Baldwin, leg, severe; Company D, Corporal J. C. Bryon, forearm, moderate; Private D. Morgan, eyebrow, slight.
Third infantry—Second Lieutenant

Chauncy D. Humphrey, forearm, slight. First Nebraska—Company D, Captain Martin Herpolsheimer, forearm, moderate, accidental.

Cable February 7, reporting Egger, First Nebraskr, killed, is error. No such man.

Funeral of General Flagler. WASHINGTON, April 4.- The funeral of the late Brigadier General Flagler.

bere. Services at his late residence were attended by the family and intimate iriends. The honorary pallbearers were General John M. Wilson, chief of engineers; General A. B. Carey, pay-master general; General M. J. T. Dana, U. S. A.; General F. J. Keith, Colonel A. Mordecai and Major Charles Shaler of the ordnance department. Among the floral tributes were pieces from President and Mrs. McKinley and Secretary and Mrs. Alger. Interment oc-curred at Arlington. President McKin-ley, accompanied by Adjutant General Corbin, attended the funeral.

A HUGE BAR IRON COMBINE

Properties Soon to Be Taken Over by New Corporation-Total Capitalitation, \$55,000,000.

CHICAGO, April 4.—The combination of manufacturers of merchant bar iron, upon which Chicago promoters have been at work for several weeks is practically consummated Within a few days the properties will be taken over by a corporation that has been organized under the laws of New Jersey. The title of the Republic Steel and Iron company has been suggested, although not fully decided upon. The total capitalization will be \$55,000,000, of which \$25,000,000 will be in 7 per cent cumulative preferred stock and \$30,000,000 in common.

The properties include all the bar iron manufacturers of importance west of Pittsburg, some of the largest being in he Birmingham (Ala.) iron district. Extensive iron mines in this section and in the Mesaba range of the Lake Superior district will be transferred. Among the concerns are the following:

Andrews Bros. Co., Brown-Bonnell Iron company, Mahoning Valley Iron company, Youngstown; Cherry Valley Iron works, Leetonia, O.; Sharon Iron works, Sharon, Pa.; Atlantic Iron and Steel company, New Castle, Pa.; Lake Erie Iron company, Cleveland; Corn's fron and Steel company, Massillon, O.; Foledo Rolling Mill company, Toledo; onnellsville Coke company, New Casle. Pa.; Croton Land company, New Castle, Pa.

HANNA APPARENTLY ANGRY. Answer to What He Calls Insinuations

of Major Lee. Washington, April 4 .- In a note to

The Associated Press from Thomasville, Ja., Senator Mark Hanna said: "I see in the newspaper reports that me Major Lee has attempted to drag

ny name into the case by questions which conveyed the impression that I present at some conference where eef contracts were discussed. I wish say that I never had anything to do vith any army contract, nor even exchanged a word with any official of the war department on that subject. I make this statement in order that it may have the same publicity which was given to the contemptible insinuations of this man Lee."

THE RIVAL DOLLAR DINNERS.

Bryan Suggested That They Be Held on Different Nights.

NEW YORK, April 4.—Part of a dispatch from W. J. Bryan received by Eugene V. Brewster read as follows regarding the double movement for Bryan silver dinner on April 19:

"Think the two meetings should be held on different nights, so that all Democrats and workingmen can attend

The first part of the message is kept back because it is held by Mr. Brewster to be "purely personal and strictly con-

WAR TAX CONSTITUTIONAL.

Justice Peckham Announced an Opinion In the Supreme Court.

Washington, April 4.—Much interest was manifested by lawyers and others in the decision of the cases in the United States supreme court, involving the validity of the war revenue law. The opinion was handed down by Justice Peckham, who orally announced only a bare summary of the written

The opinion as prepared for preservation took up the various phases of the subject, holding the law constitutional as applied not only to stock exchanges, but to live stock yards as well, the principle being the same in all cases.

Kipling Thanked the Public.

NEW YORK, April 4.-A letter of thanks, through the press, was written by Rudyard Kipling, acknowledging "the wonderful sympathy, affection and kindness shown towards me during my recent illness, as well as the unfailing courtesy that controlled its expression. I am not strong enough to answer letters in detail, so I must take this means of thanking, as humbly as sincerely, the countless people of good will throughout the world who have put me under a debt I can never hope to repay.'

Windsor Hotel Death Record.

NEW YORK, April 4.—The record of the Windsor hotel fire was as follows: Killed during the fire and died subsequently of injuries received during the fire, 11; bodies taken from the ruins and identified, 3; unidentified bodies taken from the ruins, 31; total known dead, 45; injured who subsequently recov-

MRS. GEORGE'S TRIAL.

It Is Scheduled to Commence In Canton Today.

JUSTIFICATION MAY BE CLAIMED.

Many Rumors as to the Line of Defense to Be Pursued by the Woman's Attorneys--One Is That a Man In Woman's Clothing Did the Killing.

CANTON, O., April 4 .-- Mrs. Anna George is expected to go on trial today for the murder of George D. Saxton, brother of the president's wife, Mrs. McKinley.

There are many rumors as to the lines to be pursued by the defense, such as another woman, a man in woman's garb, shooting in self-defense, and others, but the most persistent is that the defense will plead justifiable homicide, in support of which the charges in the various suits will be offered, together with efforts to introduce in evidence Saxton's alleged course toward other women.

C., H. & D. FILED ANSWER.

Admitted It Belonged to the Association, In Reply to Monnett.

COLUMBUS, April 4.—The Cincinnati, Hamilton and Dayton railroad filed its answer in the ouster suit brought against the Central Passenger association by the attorney general, on the grounds that the association is in violation of the anti-trust law.

The road is the first to make answer to the charges of the attorney general. It admits that it is a member of the association, but further than that all the allegations of the attorney general are

Pittsburger Died in Akron.

Akron, O., April 4.—W. S. Wright of Pittsburg, president of the Phænix Brewing company, died of heart failure in the Hotel Bechtel. He was sitting up in bed, when he suddenly gasped and fell back dead. He came to Akron a week ago. He was one of the best known brewers in the country.

DEMOCRATIC GAINS.

Made Them In Large Cities of Michigan. Republicans Held Their Own In

DETROIT, April 4.—The elections in Michigan did not show any marked change in the general political complexion of the state, which is nominally Republican, but the result shows quite heavy Democratic gains in some of the larger cities, notably so in Detroit, Grand Rapids, Saginaw, Jackson and Kalamazoo. On a generally light vote, the Republicans hold their own in the smaller cities and throughout the rural districts.

Circuit judges were elected in 36 judicial districts. Of these about two-thirds of the new judges, who are elected for six-year terms, are Republicans.

The Republicans re-elect Judge Claudius B. Grant as justice of the supreme court by a majority of at least 20,000. They also elect Henry S. Dean and Eli R. Sutton regents of Michigan university by somewhat greater majorities.

ALTGELD'S STRENGTH PUZZLING.

Claimed He Will Poll Full Silver Demo cratic Vote Today.

CHICAGO, April 4 .- The vote to be polled by John P. Altgeld in the mayoralty election today is admitted by all parties to be a most undecided factor and yet it is the thing upon which all three candidates, Harrison, Dem.; Carter, Rep., and Altgeld, independent Dem., are basing their hopes of final success. The Altgeld men say that their candidate, who is standing upon the Chicago platform, will secure all the straight silver Democratic vote, and will certainly be elected. They allow him 140,000 votes.

In the headquarters of the Harrison faction there was the greatest confidence. They said that there was not the slightest doubt of the mayor's election. They gave him 180,000 votes as against 100,000 for Carter and 30,000 for Altgeld. In the Republican camp the estimate was Carter 130,000, Harrison 120,-000 and Altgeld 80,000. They claimed that Altgeld will draw enough votes from Harrison to elect Carter beyond a

doubt. The Democrats agreed that there will be something of a defection from the Harrison ranks in favor of Altgeld, but say that the votes to come to Harrison from the Republican ranks will more than offset whatever he will lose by the

candidacy of Altgeld. The sober admission is, however, in all of the headquarters that there has seldom if ever been an election in Chicago so difficult to forecast with accuracy as this one.

Condition of Sherman and Hobart.

WASHINGTON, April 4 .- Ex-Secretary Sherman continued to gain in health. Vice President Hobart barely held his own. The latter transacts a little business each day, but needs almost total

THE EAST END.

FIGHTING SOME

Charles Goodballet Writes From Manila.

ME IS IN VERY GOOD HEALTH

A New Pole Will be Erected, and a Large Flag Will Soon Float Above East End. List of Speakers For the Presbyterian Meetings Next Week.

Conrad Goodballet, of Helana, last Friday received from his brother Charles, now in Manila serving in the Seventeenth infantry, a letter describing one of the recent battles in which his regiment was engaged. His regiment was in the thickest of the fight, and prior to the time of the letter some sharp battles had been fought, but he escaped injury. A number of his company were killed or wounded. The letter concluded by stating that in the opinion of the writer the Filipinos should be free. They are a desperate set and would do harm to any one, at any time, should such a chance be pre-

Presbyterian Meetings.

week, commencing Monday evening at days. 7:30 o'clock. The spring communion will be observed on the following Sunday. Rev. N. M. Crowe has secured the following gentlemen to speak during the week: Monday, Reverend McKee, of Wellsville; Tuesday, Rev. Walter Mansell; Wednesday, Rev. N. M. Orowe; Thursday, Rev. A. D. McCullough, Calcutta; Friday, Dr. John Lloyd Lee. No services will be held Saturday night. A special musical program is being arranged for the week.

New Plag and Pole.

During the war several prominent men of East End erected a flag pole on the hill overlooking Pennsylvania avenue. When peace was declared the pole was taken down by, it is said, a Spanish sympathizer, and as yet it has not been replaced, but will be within a short time. Aaron McDonald yesterday take place not later than Friday night. the offer, and after consulting with Mr. McDonald a deal was arranged. The flag will be the largest that can be secured in Liverpool.

Doing Police Duty.

Fireman Terrence is now doing police duty on the streets every evening between 6 and 10 o'clock. The order was given by Chief Morley and went into effect last Friday. The East End now has an excellent police service as two officers are on duty part of the day, while in other wards only one officer is on duty.

Excellent Work.

Street Commissioner Ramsey is doing some excellent work on the streets. Mulberry street during the past few days has been greatly improved, and the street is now in a better condition than ever before.

Machine Broke.

The brick machine at the plant of the Ohio Clay Manufacturing company broke yesterday afternoon, compelling the entire plant to suspend operations Work was resumed as usual this morning.

Will Be Ready Soon.

The new building being erected in Mulberry street by Frank Alabaugh will be completed within a few days. It will be occupied by a butcher.

Recovering.

Martin Elliott, of Mulberry street, who recently injured a finger of his left hand, is recovering. The injury has caused him much pain.

Personal.

Gene Gilkerson, of Egypt, W. Va., is in the city yesterday morning on the Keystone State.

Mrs. Finley Improving.

Mrs. W. A. Finley, who has been seriously ill at her home in Mulberry street for several days, is improving rapidly.

Moved to Canton.

William Calhoun today moved his household effects to Canton where he recently took a position.

Improving a House.

some extensive improvements on his residence in Helana.

JUST DRUNK,

But the Old Man Rolled In California Hollow Mad.

An old man, followed by a crowd of boys, created more than the usual commotion in California hollow, yesterday afternoon.

The individual in question was drunk, very drunk. He had been down in the city, and after filling himself almost to overflowing, had filled a bottle which he carried in his coat pocket. His legs could not support the added weight, and he went down a number of times, falling into the mud and rolling about in his endeavor to rise. They have seen jags before in California hollow, but this one was so complete that many persons went to their doors, while the jeering crowd had increased to a considerable number before the old man finally found his way to his home.

GOING TO WELLSVILLE.

H. A. Weeks Will Have Charge of the New Pottery Office.

H. A. Weeks, who for 11 years had charge of the office work of the Knowles, Taylor & Anderson company in East End, has taken a position with the United States Pottery company, and yesterday took up his duties.

Mr. Weeks will have charge of the office and be the business manager of he knew what was going on the senator A season of prayer will be observed in the new concern. It is expected the the Second Presbyterian church next company will be out for trade within 30

CHEVALIER CLUB

Last Night Enjoyed a Banquet and Cake Walk.

The Chevalier club last evening held a banquet at their rooms. Guests to the number of 50 were present, and the address of the evening was made by W. W. Hole. Willis Davidson and George C. Simms responded with neat speeches. A musical program was rendered and the affair ended with a cake walk.

WHO WILL PRESIDE?

When the New Council Is Organized Next Tuesday Night.

Just one week from tonight the new council will meet and organize. There is much speculation as to when the first caucus will be held, but it will probably said he would secure a large pole from Who will be president of the body is the woods provided a flag could be the most important question to be desecured. Several young men heard of cided, but it is thought it will be George

From Bad to Worse.

Several ladies and gentlemen were riding down town in a cable car. They were mostly strangers to one another. but the conversation became general.

One of the ladies had been at the opera the night before and was loud in her expressions of disapproval.

"Worse than all," she went on, "that Mme. Schroeder is much too old for her part. Her singing is becoming unbearable. Don't you think so, too?' she asked, turning to the gentleman next to her.

"Wouldn't you rather tell this to Mme. Schroeder herself? She is sitting beside you," he replied coldly

After the general silence which fellowed the remark, the critical lady turned to the singer with many confused apologies.

"It is that horrid critic Schmieder who has influenced my judgment concerning your singing. I believe it is he who is always writing against you. He must be a most disagreeable and pedantic person.

"Had you not better tell all this to Mr. Schmieder himself?" calmly inquired Mme. Schroeder. "He is sitting next to me. "-New York World.

Fashion Notes From Alaska.

Clothing stores all report a steady increase of Alaska business. The mo noteworthy changes in the buyer wants from last year are the denian for furs instead of woolens and to lighter footgear. Moccasins are popular Heavy blankets are unsalable. - Tacomi Ledger

STATE OF OHIO, CITY OF TOLEDO, SS LUCAS COUNTY.

THE NATIONAL CAPITAL.

A Senator's Experience With Mr. Medill's Editorial Policy.

SECRETARY WILSON'S GOOD WORK.

Instances Showing That the Agricultural Department Is Up With the Times-Agents Sent to Afghanistan and Smyrna-Burial Place For Volunteers at Arlington.

Senator Cullom recently sat on the comfortable leather sofa in the office of Comptroller Dawes at the treasury department and talked of Joseph Medill. says the St Louis Globe-Democrat correspondent. The reminiscences were most kindly, and yet there was a time when the senator read all manner of "shots" at him on the editorial page of the Chicago Tribune That time, too. was in a campaign when such shots were supposed to count. Mr. Medill held to the good old fashioned doctrine that an infusion of the personal in journalism seasoned the editorial page The senator understood this and treasured no grievance One day at the close of the campaign, during which The Tribune had conducted continuous hostilities toward him, he was in Chicago and, meeting a Tribune man, inquired how his old friend Medill was. Before found that smart young man had informed Mr. Medill he wanted to see him and that Mr. Medill had telephoned back that he was at The Tribune office.

"Of course, said the senator, "I went up there, although I had had no such intention when the conversation started. As I went in Mr. Medill greeted me very cordially. He evidently wasn't entertaining anything personal against me. So I asked

" 'Look here, Medill! Why in thunder have you been roasting me all through this campaign?'

"Medill smiled and said

" 'Cullom, sit down and let me tell you a story John A. Logan asked me a question very much like that at the close of a campaign some years ago. He didn't like what The Tribune had been saying about him. One day I heard a knock at the door I said, "Come in." The door opened, and there was John. with his eyes flashing, his hair thrown back and a look on his face a little ment started the ball rolling, and fiercer than usual "Come in." I said though the membership is small at preagain. "Do I come in a friend or foe?" said Logan. "I pass, senator. You make the roll. It is safe to say, if Uncle San it," I said Logan came in and sat down, and we had a pleasant visit. Of | Wyoming and Montana men will re course," said Senator Cullom, "I 'fol- main and try to locate a second Kion lowed suit when Medill had told his dike story on Logan I found him very genial. It was evident at once he hadn't anything against me.

One of the most beautiful sites in the Arlington National cemetery has been selected as the spot for the last resting place of the dead soldiers who lost their lives in the Cuban and Porto Rican campaigns and whose bodies are not claimed by relatives, says the Chicago Tribune. Colonels Moore and True of the quartermaster's department were designated by Secretary Alger to select the place. It is on high ground, overlooking the Potomac river, on the south side of the mansion which was at one time the home of Robert E. Lee. Secretary Alger has approved the selection made by these two officers, and as soon as the transports bring the bodies to Washington they will be buried with military honors. A handsome monument will be erected to mark the last resting place of the heroes who died in the service of their country. Colonel Moore said recently

"If the parents and relatives knew what good care would be taken of these graves, they would not ask to have the bodies sent home to be buried in many instances in the small cities, only to be disturbed by the march of progress. If these bodies are buried at Arlington. the graves will be taken care of as long as the government stands, and on each Memorial day the people will decorate

"It is true," said Secretary Wilson of the department of agriculture recently to a representative of the St Louis Globe-Democrat, "that we are diverting a part of the money for the distribution of seeds. We are doing much more than simply distributing common seeds. This great country has within its confines almost every condition of climate and soil. Our object is to ascertain what particular parts of the United States will grow certain grains, fruits and vegetables. We find, for instance. that the finest muskmelons sold in the eastern markets come from the dry valleys of Colorado. There is, however in the valleys of Afganistan a musk melon greatly superior even to those raised in the west. So to Afghanistan we sent our agent, who returned us a quantity of seeds of this muskmelon. which often grows to a weight of from 20 to 30 pounds, and these seeds we are sending to the west this year.

"The Californians," continued the secretary. "complained that their fig trees resembled those in the Scripture which bore no figs. Our scientists made a careful examination and decided it

vas because the polien was not reach ing the female flower This was demon strated by means of artificial fertiliza tion, the pollen being blown into the flowers by a blow pipe, and flowers s treated produced excellent fruit A agent was sent to Smyrna to see hos trees were fertilized, and he found peculiar bee which lived among the fi trees and carried the pollen flower flower The people of Smyrna did as want to let any of these bees go out the country, but our agent brough some away in twigs Unfortunate they were dead before they reached to and more will have to be obtained

GOLD IN THE PHILIPPINES

Letters Telling of the Placer and Quartz Metal Found by the Natives.

An interesting letter has been receiv ed at Denver from E. C. Hamill of Rock Springs, Wy., who is making a tour of the world and has been sightseeing and prospecting in the Philippines for several months. Mr. Hamill, writing from Manila under date of Feb. 2, says

"I have been constantly on the look out for news of gold prospects in the interior. A friend of mine, who has been out prospecting, tells me that in some of the remote districts the natives know where there is gold and sell it for from \$3 to \$10 an ounce. When the na tives are pacified or subdued. I am going back with this man into the interior, and I am prepared to buy all the gold offered at these prices. I do not believe there is a country on earth that presents better opportunities at present for a young man than the Philippines The gold excitement, in my opinion will exceed that over the Klondike with no hardships to contend with Many of the volunteers would like to locate here, and, if they can be discharged here with travel pay to their homes which amounts to about \$500, lots of them will stay, for this amount will be a good stake in this country.

Fay Fiefield of Battery A. Alger light artillery, writing from Manila to Ther

mopolis, Wy., says

"Gold has been found along the streams in the outskirts of Manila. The natives bring in both placer and quartz gold. They say there is plenty of it in the interior, but that they don't know how to work it The natives have brought rock into Manila that fairly glittered with gold and have also brought in coarse pieces of placer gold which they claim they got along the creeks. EVERY INCH A FIGHTER.

Former Comrade of Colonel Egbers Says a Gamer Man Never Lived.

The family of the late Colonel Henr C. Egbert formerly lived at Norwali: O He has three daughters and one son James, who enlisted in the Twenty second when it started for Manila Colonel Egbert was 60 years old. Colo nel M A Cochran, formerly of the Sixth regiment, said recently

"A gamer man never lived than Es bert Although of small stature, he was every inch a fighter and loved the smell of powder Colonel Egbert never over looked an opportunity to get to the front in time of battle. Personally in was a genial, whole souled fellow, albeit a stern disciplinarian. It was a fore gone conclusion that if Egbert ever got into the Philippines he would be where danger was

The actions of Colonel Egbert upo entering the grass field at the foot o San Juan hill are described by men of his former command as remarkable The farther they went into the wilder ness of death the better pleased the li tle colonel seemed to be. When the bul lets began singing around him. h smiled. He watched his men with pleas ant curiosity and was gratified to finthem just as brave as himself. - Ne York Herald.

A Salvation Army Leader For Mayor. In James W Tapp Wichita, Kan has a reform candidate for may whose platform is more sweeping than has been any other thing of the kineven in reform Kansas. The reform which Candidate Tapp urges are no confined to city government or to poli tics, but include all fields in which he thinks he can make men and women better than they are. Mr. Tapp is the leader of the local Salvation Army, a prosperous merchant, real estate owner and philanthropist.—Chicago Times Herald

An Original Oath of Allegiance.

In the old days when the Spanish province of Aragon was a proud and independent monarchy the people used, when choosing their king, the following singular form of election

"We, the freeborn inhabitants of the ancient kingdom of Aragon, who are equal to you, Don Philip, and some thing more, elect you to be our king on condition that you preserve to us our rights and privileges. If in this you should fail, we own you for our king no longer. "-Harper's Round Ta-

do not hitch him up to a sulky and take him to the race track for a little healthful spin. You doe tor him. You cannot work or recreate a man into good health any

more than you can a horse. Bicycling will make healthy more healthy; will make unhealthy men more unhealthy When a man has been living in too big a hurry. when he has worked himself out, when he has got so that he does not sleep or eat, or rest,

and the whole world looks gloomy to him. it is time for him to take medicine. Then, when he is braced up a bit, it is time enough for him to take to the bicycle. When a man's nerves have an edge on them, so that the least little disappoint

ment rasps on his temper like a file, when his stomach and liver and nerves are deranged, and he is continually gloomy and melancholy, he should take Dr. Pierce's Golden Medical Discovery. It makes a man as hungry as a fisherman and sees to it that all the vital elements of the food are absorbed into the blood. It braces up the liver and puts it to work in the right way It drives all bilious impurities from the system. It fills flesh, nerves, brain cella sinews and bones with the life-giving ele-ments of rich, red, pure blood. It makes a man healthy and then a bicycle will make him strong. Medicine dealers sett it, and have nothing "just as good."

"Through your skillful treatment I am once more a well man," writes J. N. Arnold, Esq., of Gandy, Logan Co., Neb. "I suffered for years with constipation and torpidity of the liver irritation of the prostate and inflammation of the bladder. I took six bottles of 'Golden Medical Discovery' and 'Pleasant Pellets' and Medical Discovery' and 'Pleasant Pellets' and means of saving my life."

A man or woman who neglects constipation suffers from slow oisoning. Dr. Pierce's Pleasant Pellets cure constipation. One little "Pellet" is a gentle laxative, and two a mild cathartic All medicine dealers sell them, No other pills are "just as good."

NEW LAUGHLIN POTTERY

Councilman McHenry.

TO BE FINISHED IN FIVE MONTHS

The Amount Involved Is Close to \$30,000. Work Will Be Commenced at Once, The Plant Will Have Six Kilns and Four Decorating Kilns.

The contract for the pottery to be erected by the Laughlin China company in East End was given out yesterday afternoon. The lucky bidder was Harvey McHenry, councilman elect from the First ward.

Work will be commenced on the plant at once, and it is believed the building will be completed and ready for occupancy in five months. The plant will be placed in operation as soon afterward as possible.

At the office of the company the amount of the contract could not be ascertained, but from another source it is learned that the amount is very close to \$50,000. The plant will be complete, monsisting of the necessary buildings, six kilus and four decorating kilus. It will be among the very best potteries in the country.

FOR THE STUDY OF BOTANY.

Movement to Establish a Botanical Station In Porto Rico.

The United States is planning to es-The Contract Was Given to tablish a botanical station in Porto Rico. Efforts are being made now to have the headquarters for scientists of this country in the newly acquired island of the United States. Application has been made to the department of agriculture, and the matter is under advisement in Washington.

The movement for a national biological station in the tropics was started several years ago by leading scientists in America. It assumed tangible form more than a year ago, when a committee was appointed to select a suitable location and to enlist the leading men of science in the country to support it. This committee announced its decision in favor of Jamaica, but the war with Spain came on before anything was done to establish the station. Since the United States has come into the possession of Porto Rico this island has been regarded as a suitable location for a scientific station.

Investigation has shown that the conditions are as favorable there as in Jamaica. As a consequence the committee of scientists has proposed the establishment of a station for research and inveetigation on the island. A petition has been sent to the department of agriculture asking government aid for the enterprise. It is proposed to establish a plant similar to the Buitenzorg station sustained by the German government in Java. It will be a place where American scientists can go for observation and study of the fauna and flora of the tropics. Some of the most valuable scientific discoveries in recent years have been the result of work done at the

Buitenzorg station. Dr. J. M. Cculter, professor of botany in the University of Chicago, who was chairman of the committee to locate the station, said of the matter the other day: "The department of agriculture Had the meeting been held it would has a man on the island now examining have been a short one, inasmuch as its flora with a view to advancing the commercial interests of the United States. Upon his return we shall ask the department to consider the advisa bility of establishing a station for scien tific research on the island. The island would be suitable for our purposes. The conditions are right for studying tropic al plant life. "-Chicago Times-Herald

STRANGEFUNERALRITES STRANGEFUNERALRITES

How Hawaii Buried the Princess Kaiulani.

SEVEN DAYS OF WEIRD-MOURNING.

A Waving of Plumes and Chanting of Lamentations Over the Casket. Midnight Removal of the Body-The Hearse Drawn by 230 Natives-Old Customs Revived.

The remains of Princess Kaiulani rest in the tomb where lie the bodies of all the Kamehamehas, except the great Kamehameha, who was buried, like Moses, no man knows where. The funeral took place on Sunday, March 12, and fully 25,000 people attended it. It is Hawaii's superstitition that the death of a member of the royal family is accompanied by the severest rainfall of the year. The conditions attending the death and burial of Kaiulani bore out the superstition. The rain began falling in torrents after she died and continued until after she was buried. The hours of the funeral, however, were bright and clear.

All that the military and civic pomp of civilization could add to the strange old Hawaiian funeral customs went to make the ceremony one not easily forgotten. For nearly seven days there was not an instant when some ceremony was not in progress. Soon after ber death kahili bearers began waving royal kahilis, or feather plumes, ever her body. Every bearer, whether a man or a woman, wore a yellow feather cape. which is a sign of Hawaiian royalty The bearers stood rigidly erect, and the waving of the plumes was done according to a formula, from which it was a point of honor not to vary. At the beginning each bearer held his kahili in the "carry arms" position. At a signal the kahilis were extended in a horizontal position till they touched tips with those on the opposite side of the casket. Each bearer then waved his kahili to the right, then to the left, repeating each motion, and then holding the plumes aloft, finally returning to the first position. During the week several kahili bearers fainted from sheer exhausticn.

The body lay in state at Ainahan until the Friday preceding the funeral and was then removed to the Kawaialias church. The ceremony of removal was weird. It took place in the middle of the night. The sky was heavily overcast and threatened rain. Kahili bearers walked beside the hearse, waving aloft torches made of oily kukui nuts spitted on bamboo poles. Following the hearse. came members of the royal family in carriages, then friends, old servants and retainers. Among the last were many Mele women, who hand down from generation to generation the historical chants reciting the valor, great deeds and history of the Hawaiian people. They wailed and chanted throughout the journey to the church. Others wailed in cadence, while some of the old servants broke out in lamentations and expressions of personal grief. The darkness, the weird light of torches, the absence of the constraining presence of the white man and the white man's customs, revived in many of the old Hawaiians thought, and feelings of earlier days, and they broke into hula hula songs and dances, according to the ancient custom, which has latterly fallen into disuse since the hula has become discredited.

At the church a short service was held and finished at 2 o'clock in the morning. The church decorations were in sympathy with the Hawaiian cus

toms on such occasions. Throughout Saturday rain fell in tor rents, but the remains were viewed by thousands. After the funeral the quiet of the scene was broken by chants or by wailings and lamentations of old servants of the princess, who recited incidents of her life. Their words were extemporaneous, spoken in a chanting. melodious way, sometimes accompanied by a swaying of the body, which was kept up until the speakers dropped from sheer physical exhaustion.

The services on Sunday were those of the Anglican church. The funeral procession was led by the marshal of the republic, A. H. Brown, his deputies and a company of mounted police. Then followed members of the royal family. civil officials, foreign consuls, representatives of societies and the clergy including the Catholic bishop. The hearse was drawn by 230 natives, uni formed in white trousers, blue sweat ers. white hats and blue and yellow cloth capes From the church to the tomb is two miles, but the entire distance was lined with spectators. The services at the tomb were very simple The coffin was placed next to that containing the body of Princess Likelike, Kainlani's mother, and near that of Kalakana. -- New York Sun.

Lord Brassey Says We Should Es tablish an Autocratic Government.

Lord Brassey, governor of Victoria. has recently been accumulating data for a treatise or several treatises on the self governing colonies of Great Britain When speaking of the matter in an interview recently, he took for his text the plan of government suggested by the press in the United States for Cuba and the Philippines.

"If I had to insure success in respect to the maintenance of relations between mother country and her colonies." he said. "I would insist that the mother country should not attempt to govern them There should be a laissez faire method which is what prevails in a measure now, and which, in the case of Great Britain, is the secret of the success of self government.

"If a country's sons go forth in the world to form new colonies, let them govern themselves. They were trained to good government, or should be. But this does not apply where an inferior race is to be governed, and Britain's success in that quarter is due almost entirely to two facts Her governors are able men, and she never enriches herself from the treasury of the country governed. We have learned this lesson often, but emphatically, and once for all in the war with America.

"In the case of America and Cuba and the Philippines. America must form a government on the lines of our crown colonies-an autocratic government-but no tribute must be laid on the subdued people. All revenues must be employed in the development of their own resources. Let the governors be chosen from the ablest diplomats of the

CUTHBERT could have won out easily in the Fourth ward had it not been understood, by neighbors of Mr. Fisher that he could be depended upon for clean and righteous government. He may 'yet disagreeably disappoint the whisky and lawless element.

THE CONVENTION.

It is possible the Republican convention will be held about the middle of May at some place not yet decided upon. There are many reasons why the ticket should be early in the field, but it is intimated that at least one candidate is very anxious to have the early date chosen. For that reason some others are opposed to May and think the old custom should be followed. Whether the matter will cause sufficient commotion to create a breeze remains to be seen, but it must be remembered that the Republican nomination for governor is being eagerly sought and the battle is on in earnest.

STILL HUMANE.

The determination of the government to remove to this country the bodies of Almost Caused the Destruction American soldiers who gave up their lives in the Philippines, shows once more that humanity which is indeed a part of the Republic When it was announced last fall that none of our soldiers should lie in Cuban soil the world opened its eyes in wonder and could not understand, for other nations think little of the men who follow their flag until it takes them to death. Now they can wonder again. This time, instead of going a few hundred miles, the men who will return with the death ships will cross a great trackless waste the journey. There is no nation on earth like the American government.

INTERESTING.

felt they were safe in the Fourth ward, an hour the flames were as Cuthbert was known to be a safe and guished. As the fireman the 30th of March, Mr. Fisher was reported, by a good Democrat, to have will not exceed \$150. been in private conference with George Meredith. It was feared by earnest George, and when seen this morning he practical workers that Mr. Fisher could stated he could not give an estimate of not be relied upon when this was made his loss, as he had not seen the buildknown, but the final decision of the ing. majority was that he should not be combatted in an open, earnest battle. Election day saw Mr. Fisher backed to the limit by the whisky element, and he was elected. Will he prove to be a true man, in favor of clean government? Time will tell. George Meredith, after the closing of the polls last night, said to a reliable witness: "D-n 'em we'll show 'em that there's more wards than the First?" We await developments. Challis, Olnhausen and Stewart have been retired. Cook suffered ignominious defeat. The handwriting is on the wall. Victory is in the atmosphere. God reigns and the right shall yet rule fully in East Liverpool. Surely the clean government forces have cause for rejoicing. "Praise God, from whom all blessings flow."

The house is owned by City Engineer

The fire was a hard one for the firemen to fight, as the smoke from the burning building was dense.

NO BIDS

Will Likely be Asked For County and Township Doctors.

The township trustees have been for some time endeavoring to arrange with the infirmary directors to employ a county and township physician, and let the contract to the lowest bidder.

The trustees now understand that the infirmary directors have already engaged Doctor Andrews as county physician, and it is probable Doctor Williams will be engaged as township physician without any bids being taken. The matter will be settled in a few weeks.

It Sometimes Results In the Death of the Intending Bridegroom.

A St. Paul man who has recently returned from a journey in the wilds of Luzon describes the courtship of the na tives as follows

The courtship of the natives is novel to say the least, sometimes resulting in the death of the intending bridegroom When the would be husband finds his ideal, he goes to her father and asks for her hand. If the parent approves of the young man's choice he says, "All right. my boy," or words to that effect, and the would be goes to seek the object of his admiration.

They stroll together in the forest, he whispering soft nothings, she cooing and on the lookout for two fine palm leaves. Upon finding them she holds one under each arm while the wooer stands at a prescribed distance and, brandish ing his spear, attempts to pierce the leaves, one after the other. Should be miss his mark and mark his miss she gives an ear splitting whoop, and her father arrives on the scene and slays the clumsy spearman with his own weapon. St. Paul Pioneer Press.

New Chinese Nuts.

The ly-chee nut has appeared above the horizon as the latest accessory to the luncheon or dinner party. It come from China and in appearance, taste and odor has all the orientalism of most such products. Besides being hard to obtain, it is sufficiently dear to prevent its becoming common, while it also possesses the virtue of being a decided novelty. But no hostess need fear that her guests will consume too many ly chee nuts, to the exclusion of other viands on the table, for, while they taste as sandalwood sweetened might be supposed to taste, two are about as many as the ordinary palate cares for-Chi cago Times-Herald.

Kattir Swimming Feats.

The Kaffirs are great swimmers. They can do things in the water which other folk would look upon with astonishment. For example, a Kaffir boy can ford a stream shoulder high, running as swiftly as if shot from a torrent The way they accomplish the feat is thus: Just before entering the water they get a huge stone, sometimes as heavy as themselves, and with the help of a companion place it upon the head A weight like this gives the boy ball ance, and he can keep his footing against the heaviest stream. If he were to drop the stone, he would be so light that the water would sweep him off his feet. And this is just one of the Kaffir tricks to accomplish things against tide and flood.

He Followed Olnhausen and His Friend Stewart.

COOK COOKED IN THE SECOND

While Peach Won Out In the Third With licans Will Occupy Seats In the Board of many friends. of His Ticket.

Challis has gone to join his friends who were defeated at the late Republican primaries, Josiah T. Smith will represent the Second ward in council, George Peach is to again occupy his seat as a member from the Third, and F. M. Fisher will be the representative from the Fourth. These facts represent the most interesting portion of the returns from the municipal election of

When the polls closed last evening there were few, even among old politicians who had been watching the fight, who would venture an opinion as to the outcome. The campaign had been bitterly fought in some wards, and there were such issues at stake that no man could venture the opinion as to how his neighbor would vote. The ticket was not long, but the results came in slowly, and it was after 10 o'clock before the count in the second precinct of the Fourth ward was ready for the public. Of course the News Review bulletined the result in every precinct as soon as it was known, and a large crowd spent the evening in Washington street watching eagerly for the figures that would annonnce the fate of their favorite candidates. McHenry seemed to be close to the majority, for a cheer went up when his election was bulletined. It was the only cheer of the evening. The report was highly appreciated as it was the only place in the city where the general public could obtain the information it so eagerly sought.

The interest manifested in the councilmanic contest was keen. Harvey McHenry, much more as the candidate of the Good Citizens League than as the nominee of the Democratic caucus, made a wonderful run in the First ward against James Challis, whose name was under the eagle. Mr. McHenry's friends turned out in troops to his support, and he won. The East End was a surprise to many persons since Challis had carried it by a big vote at the primaries and it was generally believed he would repeat his success. The other precincts also showed so well for McHenry that his victory was complete. Challis did not carry a precinct of the ward.

Josiah T. Smith, the new councilman the First, a contractor and builder. He works bonds was defeated. was supported at the primaries by the

GOOD BYE CHALLIS League, and won against W. C. Stewart.
His Democratic opponent, Edward Cook, made a strong fight for the place and succeeded in carrying the first precinct, but when the vote was counted in the second, the hill precinct as it is known, Mr. Smith had a substantial majority. The fight here waged from the day following the primaries, when it was stated that a contest would be made for the seat if Mr. Smith was elected on the ground that he is not a resident of the ward. He showed, however, that he had resided in the ward a Big Majority-Fisher Was a Surprise In for some time, and went in to win the Fourth, Defeating Cuthbert-Repub- Today he is being congratulated by his

> George Huston, Democratic candidate for council in the Third, was endorsed by the League, and they worked hard to make him win, but George Peach, who is now in council. fought for the seat, and was reelected by a substantial majority. One feature of the campaign in this ward was the number of circulars issued by the contesting parties.

> Out in the Fourth was waged the hottest battle of the day. William Cuthbert had defeated George Olnhausen at the primaries, and in addition to being the Republican nomines was backed by the league. F. M. Fisher, the Democratic candidate, was supported in his campaign by many members of his party who are also connected with the league. When yesterday arrived it was found, however, that another element was backing Fisher for all it was worth. and he was elected. Mr. Cuthbert carried the first precinct by four votes, and gave Fisher a close chase in the second It will be remembered that he was nominated by the heavy vote given him in the precinct he lost on election day.

The new members of the board of education are Rev. Dr. Taggart and J. H. Smith, Walter B. Hill succeeding himself. A. S. Young, Prohibition candidate, polled a very good vote, being by long odds the leader on his ticket The number of ladies who voted was much larger than for several years.

The remainder of the city Republican ticket was elected with large majorities. while the township showed itself to be safely for the same ticket.

The total number of votes cast for the regular city ticket was 2,643, divided as follows: Republican 1,703, Democratio 431, Prohibition 169; school board, 2,701 In the township 122 votes were cast.

Salem.

The election yesterday resulted as follows :

Marshal-Johnson, R., 879, Howell. D., 536. Council-Sears, R., 206. Wisner, D., 137; Reed, R., 144. Steele. D., 105; Saxton, R., 123, Cavanaugh, D., 161; Wilson, R., 183, McNeelan, D. 222. School board-Hampson, R., 808 Hayes, R., 838, McArtor, D., 488, Walton, D., 477.

Lisbon.

The Republicans won yesterday, but from the Second, is like the winner in the proposition to issue \$20,000 water

MR. CRIST GIVES

He Is No Longer a Candidate For Representative.

ANNOUNCEMENT MADE MONDAY

The West Township Man Has Not Made a Statement but It Is Thought He Will Explain In a Card--Only Three Aspirants Now In the Field.

The announcement is made today that D. W. Crist has withdrawn from the ticket and is no longer a candidate for the Republican nomination for representative.

Mr. Crist resides in West township and has been a candidate for a year. He worked hard and soon made a great many friends in the county. Although he paid little attention to this place while making his canvass, he had a following in Wellsville and would have polled some votes here. His main strength was in the center and northern parts of the county, where he is well known. Mr. Crist determined last night to quit the race.

There have been so many withdraw. als from the contest for representative that to keep pace with them seems difficult. At present the candidates are Elijah W. Hill and W. B. McCord, of this place, and Samuel Buell, of Salem.

TO THE LIMIT

Was the Grand Opera House Packed Last Night.

The Thomas E. Shea company last evening broke all records at the Grand sor-McKee 101, Crawford 120. in point of attendance and the house was crowded to its limit.

"The Man-o'-Warsman," in which Mr. Shea has scored such a success, was presented and was enthusiastically reseived. Mr. Shea is supported by a splendid company, and the stage settings hibition at the store is composed of were excellent. Tonight "Dr. Jekyll nickel, iron and cobalt, and was at a and Mr. Hyde" will be played and the advance sale of seats assures a packed house.

BIG SHIPMENTS.

Freight Business Started Off Well This Month.

Yesterday was a busy time at the freight depot when it is remembered that it was not only the first of the week, but so near the first of the month. News. The rollers loaded a large number of ears and the checkmen were busy receiving freight.

The outlook for heavy shipments during the month is bright. Car load shipments last month were greater than for some time.

PROMISES LIBERTY.

American Reforms to Be Instituted In the Philippines.

MANILA, April 4.- [Special]-The Philippine proclamation was today pro mulgated. It offers ample liberty to the natives, but the American supremacy must be recognized. Needed reforms are promised in all departments.

Lisbon News.

Lisbon, April 4.—[Special]—William Zimmerman and Mollie Bell, Salem; Albert Blose and Ida M. Davis, Lisbon; Stanton Heck and Anne E. Whitacre were given marriage licenses.

Sheriff Gill took J. C. Stauffer, the Lectonia forger, to the penitentiary this morning.

J. B. Morgan, a local laundryman, assigned today to George T. Farrell.

A New Firm.

Mr. Hawkins, of Carmichaels, Pa., has purchased an interest in the business of W. A. Hill, and the firm will be known as Hill & Hawkins.

Mr. Hawkins comes to the city with the best of recommendations and an excellent reputation as a business man.

Army Changes.

Capt. P. D. Titus, who has had command of the Salvation Army in this friends. city for several months, will leave for Minerva next Monday. Lieutenant for Indiana, Pa., where she will resume Hinkle will then have charge of the her studies in the normal of that place. barrack. Titus will join the Ohio and Kentucky band at Minerva.

New Trough.

A new water trough and case has city been placed at the corner of East Market street and Broadway. The carpenters completed their work last night. Water will be placed in it within a few

April water assessments now due. Save the 10 per cent by prompt payment. Office down stairs, 144 Fourth street.

A Captive Kentucky Meteor.

Persons who saw the meteor that flashed through the heavens the other night at Breckinridge, Ky., can go to Fisher's drug store and see what it looks like when cooled off. The meteor on exwhite heat when it struck the earth. It was very much like a bubble, and the air inside made it hollow. It is about 18 inches long and 19 inches wide and burn, P., 23. weighed 12 pounds. It was found in the gravel pit at Skillman, 50 feet below the surface of the earth, showing the fearful velocity it had attained in its travels. In cooling off the meteorite cracked, and the crevices in it are clearly defined. The ontside is oxidized by exposure to the elements. -Breckinridge | P., 78.

Maine Girl Drives a Team of Lambs. Mary had a little lamb, but little Clementine Rockliffe of Coruna, Me., has a team of them. They are a little more than a year old and are driven barnessed to a handsome sleigh specially made for their owner. Miss Clementine's father. H. B. Rockliffe, is a big stock farmer, and the lambs were trained entirely by the girl. The team makes very good time upon the road and are intelligently docile and obedient to the will of their driver under all circumstances. She intends to drive them tandem to a little wagon this summer. - New York Journal

OUR NEW DWARF BEASTS

Some Midget Animals That Live In the Philippines.

A freak beast which will excite curiosity in our zoological gardens is the tamarau, a dwart wuffalo found in the forests of Mindoro of the Philippine J. H. McElroy, D., 55; A. C. Van Dyke, group. It is a stunted form of the old world buffalo, not of the American bison. It sometimes occurs high up in the mountains. It tunnels pathways through the thick bamboo undergrowth covering the mountain sides above 6,000 feet. Hunters must go upon hands and knees to follow these trails. The aborigines never hunt this little beast, being deathly afraid of it.

The midget Philippine squirrel is another odd creature. It is about the size of a mouse, has legs longer in proportion than those of the ordinary squirrel, larger eyes and rounded ears. A large brown rat, gray underneath and with a squirrellike head and eyes, but black, cordlike tail, is of still greater interest from an evolutionary point of view. It is discovered to be the last link long needed to complete the chain of relationship between the true rat and the water rats. A wild pig, dignified by the name of "Sus celebensis Philippinensis," is found throughout the whole Philippine group. It is exceedingly ex clusive during the day, when it hidein the forests, but sallies gayly forth during the night into the native maize and rice fields, where it does much damage. The natives call this badly be loved pig "babui."

The Philippines will also contribute a giant fruit eating bat. All American bats, of course, subsist entirely upon insects and are provided with sharp teeth with which to nip them. The fruit eating bat of these islands is larger than a rat, has a long head and blunt teeth. It makes nightly inroads upon the banana plantations and other fruit preserves. During the day it sleeps, hanging head downward from a tree. In Bataan, of the Philippine group, is found a chevretain, or "mouse deer." a tiny little pygmy, as cunning as a fox, and which when snared feigns death until freed, when it leaps up like a lightning flash and takes to the forest. leaving the inexperienced trapper in great surprise. The Philippines also contain civets, wildcats, porcupines lizards, snakes and alligators. The 'chacon," one variety of alligator, is prized by the natives as affording im munity against death by earthquake

shock. Professor Dean C. Worcester, lately appointed a member of the Philippine commission, has submitted to the Smithsonian an extensive report upor the ornithology of those islands, where he recently counted no less than 250 different species of birds. Notable among these are some beautiful little parrakeets, cockatoos, mound builders hornbills and jungle fowls. The last named are the principal game birds of the group. The natives tame the horn bills and keep them as pets. The only important food fishes of the fresh waters of the Philippines are species of catfish and carp. - Washington Star.

Quaintly Expressed.

Lady Dufferin, in her reminiscences. gives some instances of the variations of the English language as she is spoke by the learned baboo, whose European education has given him a little know! edge which is dangerous. The gratification expressed in the following sentence has something pathetic in it: "You have been very good to us, and may Almighty God give you tit for tat '

A small piece of paraffin wax, which melts and spreads in an airtight layer over the surface of the liquid, is found by a German chemist to prevent change in the taste of milk on boiling.

Woman Kills Two Foxes with One

Mrs. Mary White, who lives at Rio. six miles west of Port Jervis, N. Y. was in town the other day, bringing the skins of two red foxes she had shot near her home. She obtained of the town supervisor the bounty of \$2 and then sold the skins to Chief of Police Brown for \$2.75. This is the first instance in Orange county in which a woman claimed a bounty for killing a fox What is more remarkable is that Mrs. White shot both foxes with a single bullet. A few days ago she saw two full grown red foxes near her house. Hastily securing a gun, she took aim, and as they were in range she brought both down with one shot - Exchange

Utilitarian. A young woman can get along with out a lover very well during the winter time, but beginning about now she needs somebody to clean her bicycle.

IMMUNES AT SANTIAGO.

How They Taught the Cubans to Clean Their City.

HAVE ERECTED A MODEL CAMP.

Mt Is Visited and Admired by Our and Foreign Officers - Their Colonel Shows How the Experiment of Such Commands Has Proved a Great Success.

Colonel H. H. Sargent, United States Fifth infantry, describes in the New York Journal the work of the immune regiment in regenerating Santiago as follows:

The regeneration of Santiago is going on so swiftly as to astonish the inhabitants. The fever has been stamped out, the Nanigos have been suppressed, and the American troops have proved themselves as brave in peace as in war. How the work has been accomplished is a long etory. Every commander and regiment has done its share toward bringing about the general result. If peace has its victories no less renowned than war. I feel certain that the officers and men of my command are entitled to the highest credit.

Our camp lies on a beautiful site beyond the city, overlooking the bay. As you enter the romantic harbor and pass the Morro, where once Sampson and Schley thundered day and night, you can see it gleam a line of snowy white beyond the city to the right and above their common destination He figured the walls of tents a tall flagpole, at | that he could in that event go straight whose top the stars and stripes wave in the breeze from dawn to dusk.

The regiment was organized from the 10,000 immunes and received its training in Columbus, Miss. It consisted of young men, fresh from fields, farms, offices and workshops, and in one month and eight days was as well disciplined a body as ever marched out of a camp It left Columbus Aug. 6 and arrived at Santiago Aug. 12. It had a hard siege at first. Though Toral had surrendered. the Spanish prisoners of war were there to be guarded, Nanigos were there to fight and vauquish, and, worse still, fever, filth and disease were everywhere menacing health and life.

At that time men and women, little children, soldiers and civilians, Spanfards and Americans were filling the bospitals and dying in houses and on the open etreet. The Fifth regiment was ordered to encamp a mile south of the city. It moved there, clearing a others looked after him as he was strug woad part of the way, and on its arrival selected a site and prepared the ground for the establishment of its habitation There was a lack of transportation and a scarcity of water, but the enthusiasm of the men overcame these and all other obstacles. They worked day and night to make their new home comfortable. clean and healthful. The site was drained, all decaying matter disinfect-. ed, and improved sinks constructed at proper points where the natural drainage of the soil would carry away any health destroying elements. A boiled water plant was erected which turned out three times the amount of boiled water necessary for drinking purposes. and strict orders were issued prohibit ing the use of the springs and streams in the neighborhood.

To prevent the danger arising from sleeping on the ground the men were directed to make beds, bunks, hammocks or any contrivances which would answer the purpose. Some of these were very comical, consisting of barrel staves fastened together with ropes or of boxes nailed together to form a wooden bench Nevertheless it was only a few days before every man had a bed raised three feet from the earth. While doing this onerous work the regiment furnished guards to protect government property and preserve order and performed other military duties. The men were taught to follow the example of the natives and to remain under cover as far as possible during the hot bours of the day and to have all their food cooked before it was served on the mess tables.

Thanks to these precautions and to The discipline which marked nearly every regiment in Santiago, there was no more sickness in the camp than in a similar camp garrisoned by regulars at home. Within a month the place was a model and was visited and admired not only by our own officers, but by foreign officers and troops of natives. It seemed to exert a good influence, because we noticed that many of the Cubans living in the neighborhood went to work on their own account and made similar improvements around their own houses and in the roads and streets near their homes. Since that time the labor of the regiment has become almost mechanical in its regularity and efficiency. The camp is still a model and the health of the men admirable They have aided the people in closing up the pest holes of the city, in repaving the thoroughfares, in draining the roads and in removing the debris and rubbish which seem never to have been touched since the place was founded. It keeps perfect order in the neighborhood, and it has had no trouble whatever with either Spaniards or Cubans.

I know of no finer example of a regiment of American volunteers making such a magnificent record in so brief a time. The organization of the immunes | him. - New York Sun.

was an experiment, but its success shows that the idea was as wise as any which our generals ever put into execu-

TOLD OF PROFESSOR MARSH.

Story Showing That In Him Were Combined Energy and Knowledge.

The late Professor O. C. Marsh was sometimes spoken of, even by dignified men of science, as a "hustler." One of his friends used to tell a story of him illustrating one of his characteristics. which led to the bestowal of this descriptive epithet upon him. During the early development and improvement of Colorado excavations revealed what promised to be a "find" in the department of science with which Professor Marsh was concerned. The moment the first news of it published in New Haven fell under Professor Marsh's eye. he placed a few essentials in a grip and took the first train for the west After the train had passed the last important station on the way to his destination the professor went through the cars gunning for anybody who might possibly be on the same errand as himself He recognized no fellow in science, but got into conversation with a man who proved to be one and on the same mis sion. March carefully avoided permit ting his identity or interest in the subject to become known and after finish ing his chat returned to his own car There he began studying the time table and such maps as were obtainable Then he put judicious questions to the conductor and trainbands and came to the conclusion that he could beat the other fellow if he could get off the train about 20 miles outside of the city of on the short side of a triangle to the place of the discovery which he desired to investigate, while the other man would have to travel two sides of the triangle, one on the train and the other by horse and wagon

Professor Marsh quietly betook him self and his grip to the rear car of the train. At an opportune moment he went out to the platform. He studied the landscape and gauged the speed of the train and noted the mileposts and other marks of which he had learned from the railroad men. He was relieved to see a house not far from the point he had fixed upon as the most advantage ous for him When near it, be pulled the bell rope, and as soon as the train had slowed enough for him to risk it he jumped off and sprinted over the fields toward the house. The train had gone some little way farther before it was brought to a stop. The conductor and gling to make the best time possible and apparently concluded that it would be lost time chasing that sort of a run away. To Marsh's relief the train pres ently went ahead again.

He made his way to the farmhouse and hired a horse to take him to th spot he so much wanted to reach. H got there and had just completed ar rangements by which he secured the rights he desired, when his quondan traveling companion came up in a wagon, a much disgusted man. - New York Sun.

How They Celebrated.

Nine Drury students appeared in chapel the other day with high standing collars of deep green in honor of St Patrick. President Fuller notified the students that they would not be recognized until they appeared in ordinary collars. The students called his attention to the fact that striped and other collars were in use, but the president was firm. - Kansas City Star

ODD HAPPENINGS.

A handsaw bearing date of 1620 was dug up recently at North East. Pa.

Mr. Shoots-at-Him. a Rosebud agency Indian, has applied for a divorce from his wife, the first instance of the kind on record.

Portland, Me., has discovered a real live Filipino in her midst. He is a nat uralized Yankee now and is the oldest of 26 children.

The recent eruption of the volcano in the Cariboo mining district melted the snow on the mountain sides to such an extent as to threaten to flood all the camps in the valley.

Two Kentucky farmers in a buggy were killed by a train, which smashed the buggy, but did not injure the horse that was pulling it nor the horse the men were leading behind it

A shotgun in the hands of a Ken tucky farmer went off by accident. and one small shot struck his wife in the calf of the leg, cutting an artery, from which she slowly bled to death before a doctor could reach her.

Two rival sweethearts of a Washing ton (state) young lady had a row. and one cut the other's tongue out He will not be able to talk unless the calf's tongue which has been grafted on to the stub takes hold and grows.

A Newfoundland dog was killed by lightning in Passaic, N J., recently The bolt came down the chimney, set the honse on fire, passed on to the back yard, where it melted the steel chain by which the dog was fastened and killed

UNION LABELS.

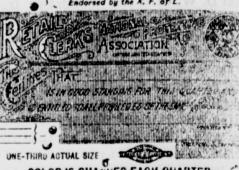

It should be a deep-rooted principle of all union workmen and union sympa. thizers, and particularly those members of the different organizations of East Liverpool, to buy nothing but Union Label goods, in preference to all others And why not? If we ask fair wages for our labor, why should we buy goods made at unfair wages by others?

The Union Label in every industry in a guarantee of fair wages, decent work. ing hours and union labor employed.

PATRONIZE UNION CLERKS.

All members of the R. C. N. P. A. can show this card. Ask for it when making your purchases.

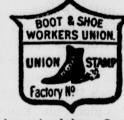

• Endorsed by the A. F. of L.

COLOR IS CHANGED EACH QUARTER.

UNION MADE BOOTS AND SHORS.

The Boot and Shoe Workers' union is the national head of the trade, and is a new combination of all the branches of boot and shoe work-ers. The above trade-mark when found on the sole or lining of a boot or

that the same is made by union labor. Look for the above design stamped on the cole of every pair of boots or shoes you buy.

CUSTOM TAILORS' LABEL.

The Journeymen Tailor's Label is to be found in the inside breast pocket of the coats on the under side of the buckle strap of the vest, and on the waistband lining of the pants. It is printed in black ink on white linen.

UNION MADE HATS.

This Label is about an inch and a half square, and is printed on buffcolored paper. It union made had before it leaves the workman's hands If a dealer takes label from one had and places it to another, or has any detached labels in his store, do not buy from him, as his labels may be counterfeit, and his hats may be the product

UNION MADE CLOTHES.

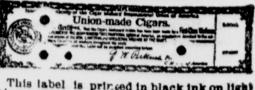

You will find the linen label attached by machine stitching to the inside broad pocket of the coat, on the inside of the buckle strap of the vest, and on; the waistband lin ing of the pants

BICYCLE LABEL

"Do unto others as ye would that others should do unto you." You will endorse the "Golden Rule" by buying and riding bicycles bearing this Label. The this Label. The colors are as fol-lows: The Union shield is in red, white and blue, on a background of

pea green, bordered by gold.

The Label will be placed on the upper front side of the total that receives the seat post. BLUR LABRL CIGARS.

This label is princed in black ink on light blue paper, and is pasted on the cigar-box. Don't mix it up with the U.S. revenue label on the box, as the latter is nearly of a similar color.

The above Label, printed on blue paper, will be found on all plug tobacco and on the wrappers of chewing tobacco manufactures in union tobacco factories.

UNION BREAD AND CRACKERS.

This is a full size fac-simile of the Label of the Bakers' and Con-fectioners' union. It is printed on fine white paper and is pasted on each loaf of union-made bread. It is an evidence that the bread is made under fair and wholesome conditions,

and in clean and healthy bakeshops. Folowing is the confectioners' and cracker

ADJEUTO BACHELORDOM

William K. Vanderbilt, Jr.,'s Dinner to His Friends.

THEY SAT AROUND LIMPID POOLS.

hive Ducks Swam About In Spaces Formed by the Banquet Table. priends of the Millionaire Drank to the Bride to Be-Special Menus For Each Guest.

William K. Vanderbilt the younger gave a farewell dinner to his bachelor riends the other night at Sherry's. It was the most costly and the most origmal bachelor dinner ever given in New York. The young host has a pretty ancy in such matters, and so has his betrothed, Virginia Fair.

Miss Fair indeed was the inspiration of many of the cleverest surprises of the affair. No rural damsel ever worked harder over a church fair than she over this feast-from which she was to be excluded. She hovered over the scene till the last moment, smiling, restless. indulgent, authoritative, as unselfishly absorbed in the spirit of the occasion as if she had been "fixing things" for a children's party.

The preparations for this banquet began weeks ago. There were a hundred and one things to be done as such things had never been done before, but the triumph of invention was the table itself, as is fitting when folks are going to eat, and the table shall be told about first. It was a table and duck pend combined. To consider it first in its capacity of table, it was oblong and large enough to seat 30 persons and still leave each a great deal of room. Beyond the generous outside strip apportioned for the accommodation of plates and glasses and so forth, was a bank of American Beauty roses, two teet wide, running clear round the board. Inclosed within this border were two duck ponds and a fountain.

The fountain was in the exact center of the table, and it was a very graceful Mair, fashioned out of the precious metals and spraying upward and around a thousand tiny jets of delicately perfamed liquid, which the artfully arranged lights caused to resemble showers of rubies and diamonds and emeralds. It was flanked by what have here been called, irreverently, duck ponds. In lovelier ponds did ducks never swim. Titania might take swimming lessons in them with gratification. The sides and bottom of each shone with the burnishthe center of each duck pond was a littleisland, on which grew a pretty white. sowering shrub.

As nature has not provided ducks of superior character to swim at millionaire bachelor dinner parties, it was necessary to be content with ducks that are worth no more per pound than other fat ducks, with some attention to whiteness of plumage and tractability of temper. A Roman youth giving a dinner the duck question gave rise to a little

At 5:30 in the evening Miss Fair fluttered into the banquet room, intent on putting the final touches to everything. She was greeted by a chorus of deep throated "quacks." In each of the golden ponds swam three large birds. They were strong swimmers and they knew it. They were constructed on battleship lines and needed plenty of sea room. They had a great deal to say: they had some kind of vendetta among themselves, and they appeared anxious to leave the room. "That wasn't my idea at all!" exclaimed Miss Fair in dismay. "That would spoil the effect entirely. They are too large, those ducks, and too noisy and too rough. If large birds were required, we would have ordered swans, which are much nicer. Take these away and bring small ducks—the smallest you can get." Sherry's men descended upon the large ducks and bore them, quacking, flapping, to the lower regions.

And after much excitement and runming about half a dozen pretty and well behaved ducklings were brought with clipped wings to swim in the golden ponds, peck experimentally at the American Beauty roses, clamber awkwardly up the banks of the flowering islets, tumble back with helpless little splashes, gobble up the crumbs tossed to them by young Mr. Vanderbilt and his guests, paddle spasmodically at each pop of a cork, look perfectly innocent during the height of the conversation and generally behave themselves like well brought up little birds. There were two orchestras to play tunes-the finest orchestras that could be had there were clever people to sing and dance and crack jokes, and there were charming little surprises introduced at every turn.

That the guests, most of whom were Harvard chums of young Mr. Vander bilt, drank his health and that of Miss Fair a great many times is also true. They sang college songs and "Auld Lang Syne" and all the other things that spirited and warm hearted young men might be expected to sing on such l

Each guest was furnished with menu decorated especially with an eye to his individual idiosyncrasies. The host himself designed this menu. Each had a water color sketch in the upper left hand corner. For Sydney J. Smith there was a cross country rider taking a five barred fence. Young Gerry, recently admitted to the Coaching club. had a spirited four in hand scene. For one or two of well known languid natures there were chaps reclining at ease with brandy and sods beside them. New York Journal.

KOREAN KING'S REFORM.

Adopts American Style of Dress and Shaves Off His Topknot.

The king of Korea and his court have caused a sensation at Seoul by suddenly adopting American fashions in the matter of both dress and carriages. The first important occasion on which the new styles were displayed the king's attendants and guards were likewise clothed in American style. The king was so highly pleased with his new dress, which was made by a Seoul firm of Japanese tailors, that he presented 100 yen to the master of the firm and 50 yen to be distributed among his workmen. A dispatch from Seoul to Tokyo announces that the king has cut

off his topknot, or short cue, which from time immemorial has adorned the tops of the Korean kings' heads.

In other ways the king has shown his desire to conform hereafter to occidental customs. He desires to ride in carriages fashioned after American ideas and has just given an order for the construction of a royal carriage, which will be modeled in some respects after a carriage used by the Japanese emperor. ed warmth of gold leaf. The bank of Riots which recently occurred between roses already spoken of formed also the the reform and conservative elements of banks of the golden duck ponds, and in Korea have subsided. The reformists who can read, but of these 14,513 canwere victorious in a large measure and |not write | Nearly 800,000 are without regard the king's adoption of occidental knowledge beyond that of their own costumes as an important sign that he hut In every town there are certain is imbued with their ideas. -St. Louis

NAVAL MILITIA AT HAWAII.

Globe-Democrat.

It Is Proposed to Perfect an Organization at Honolulu.

Hawaii is to have a naval militia orparty with duck pond accessories would ganization similar to the auxiliary probably have gilded the birds, but that forces possessed by many of the states would have been cruel. Nevertheless which were so valuable in the recent Spanish war. Secretary Long received ties for the study of entomology are unflurry of excitement at the eleventh a letter on the subject recently from J. B. Castle, who was the Hawaiian secretary of legation at Washington before annexation was accomplished, asking for all the necessary regulations regarding the militia, in order that steps could be taken at once at Honolulu to perfect an organization.

The navy department is highly gratified with the prospect of such a reserve prick their oxen cruelly with goads force in the mid-Pacific as Mr. Castle They do not, however, mean to be cruel and the Hawaiians interested with him They are very humane people to their propose to establish, especially as it is own neighbors who are sufferers. They impossible to maintain as large a regular naval force there at present as the importance of the locality would justify did Admiral Dewey not require so vided into seven districts, with a counmany vessels in the Philippines. It is ty seat in each. These are as yet under expected that a naval officer will soon | Spanish laws and governed by local aube spared to undertake the instruction thorities. Each town has now, however, of the Hawaiian battalion in technical a United States commandant and a matters, drills and routine ship life, garrison of soldiers to make sure of and, if possible, a monitor or gunboat good government in this time of transiwill be assigned to the battalion for tion. We found these commandants cruising duty.

The appropriation of congress providonce available for the Hawaiian battalion, as it is apparently limited to states, omitting any mention of territories, although the District of Columbia militia, which was recently organized, participates in the fund. The Hawaiians are they propose to go ahead and bear all expenses themselves, if necessary, realizing that such protection as they will give Honolulu is indispensable. - New York Tribune.

The Money They Bring.

Statistics in regard to the amount of money brought to this country by European immigrants show that the German is the richest, with an average of \$52.50, while the Englishman is a close second, with \$52. The Frenchman has \$47.25 and the Belgian \$45, while the Irishman brings but \$15, the Russian \$12.50 and the Italian \$10.

Probably the Italian takes more back to his native land, however, than any of the others - New York Tribone.

LIFE IN PORTO RICO.

Interesting Facts About the Conditions In the Island.

SPECIAL COMMISSIONER'S REPORT.

Dr. Beard Says the Natives Live on Bananas, and Only 12 Per Cent Can Write-No Buildings Are Specially Set Apart as Schoolhouses - Meat Rarely Esten.

Dr. A F. Beard, who was sent to Porto Rico as the special commissioner of the American Missionary association. has made a report of the conditions in that island, as related to population. education, homes and opportunities for a new Americanism, such as the association has represented for more than balf a century. Following is a summary of his report

"A census of Porto Rico lately taken gives the population as 890,000, which may be divided in round numbers as follows White, 500,000; colored, 390, 000, of whom about 90,000 are blacks. This gives a dense population of nearly 248 to the square mile. The whites comprise the Spaniards and Porto Ricans of Spanish blood. The colored are of all shades, chiefly burnt sienna, and mostly straight haired. The blacks are negroes, pure and simple. The whites may be divided into the ruling class. numbering perhaps 100,000, and the peasants, or gibaros, 400,000. The colored are mixed (mestizos). The peasants, or gibaros, with the mestizos and blacks, together form the class of unskilled laborers. They are miserably poor, and literally live from hand to mouth. Their cabins, or "shacks," are set on poles driven into the ground, the floor being raised a few feet. The average household furniture consists of a few dishes and utensils made of calabash shells, or gourds, with some rude earthenware A little patch of land for the plantain grove, or some corn or sweet potatoes, possibly a cow, a pig and a diminutive horse of Gothic archi tecture form the property and provision for life.

"The people seldom get any meat and but little bread for food, as none of the cereals grow well there. As a result, they are as a class anæmic and hungry looking Their staple food is the banana. which, for steady diet, does not put a great deal of iron into the blood. Most of their food grows on trees. Here they are. more than one-half of the population, in dense ignorance, too ignorant to be discontented with this existence. which in its condition is pitiful beyond

expression. "Out of 890,000 there are 111,380 people with varying attainments in education, who hold the more responsible positions in life, but they have entirely failed to realize any responsibility for this appalling mass of ignorance about them One-half of the population is in towns All of the towns are built on the same general plan, and in most of them four of the five senses are constantly offended. Odors are always in evidence. As to feeling, the opportunibounded. As to taste, everything is saturated with garlic. The sight is hurt constantly in the wan and pinched faces of the poor and in their apparently needless poverty in a land where plenty would come easily and in their ignorance of the fact that the lower animals are God's creatures. They lash their stunted horses without mercy; they show affection for children, though not care for them.

"As to government, the island is di-

high toned officers, seeking the betterment of the people. They furnished us ing for arms and equipment for naval with interpreters and introductions to militia organizations may not be at the schools and gave us every facility in our investigation. We visited many schools in many places. With one exception we found no building constructed and set apart for educational use Public schools are in private houses. In every town the Spaniards had substanaware of this legislative oversight, but tial buildings for the military, which kept the people down, but no schoolhouses. Certainly Spain went away

none too soon "The teacher of the private school is paid from the public fund, but he furnishes the schoolroom and all that therein is and this does not require much wealth Seldom did we find in any schools desks, and there were only backless benches. One reading book sufficed for a class, being passed from one pupil to another. The schools are ungraded and but a small fraction of the pupils got beyond reading and writing, and these pupils were the exceptional few

"The military governor, General Henry gives his position and influence to all things that are good He is an einnati Commercial Tribune.

able administrator for civil improvements The large theater in San Juan is secured for religious services and well attended. Sunday school is held there every Sunday morning. Sermons are preached in Spanish and English American officers and their wives sing in the choir. The American Missionary association has already voted to plant three schools in three different interesting centers of Porto Rico, to be in full operation in October next. One of these schools will be in the north, another in the center and the third on the west coast of the island "-New York Press.

PORK CAUSED AN INDIAN WAR

A Question of Beef Cost Uncle Sam \$20,000,000 In Another Case.

"The present beef inquiry," said an official of the war department, "recalls the fact that one of the most expensive Indian wars we ever had was caused by the efforts of a contractor for furnishing supplies to the Indians to foist upon them a lot of hog meat that did not come up to the standard. This was back in 1862. The contractor unloaded a consignment of what he pretended was prime pork, but proved to be the refuse portions of hogs, consisting mostly of heads. It was the Sioux Indians he wanted to feed on this, but they made a vigorous kick. The contractor very unwisely tried to force his objectionable pork on them, and there was a rebellion. The Indians put on their war paint and went scalp hunting. Generals Sibley and Sully, with fully 15,000 men, had months of the hardest kind of fighting to bring the braves to their pork. Our loss of life was not great, but the campaign was an expensive

"Ten years prior to this war the great Sioux war began, and this, too, had the beef question mixed up in itin fact, was the cause of the war. However, the beef was on the hoof and not in cans or refrigerated. Near the military post at Fort Laramie some Sioux were camped, and one day a train of Mormon emigrants came along, having with them several cows. Some of the Indians were beef hungry, and a brave stepped out and killed one of the cows, and he and his friends had a feast. The OUR WORK EMBRACES Mormons complained to the officer in charge of the post, and he sent out 20 men under command of an officer. The soldiers demanded the surrender of the Indian who had killed the cow, but this was positively declined, the Indians declaring, however, that they were ready and willing to pay the Mormons the full value of the cow. The officer would not listen to any such proposition, and after again demanding the surrender of the cow killer and meeting with a refusal he ordered his men to open fire.

"Well, in less time than it takes to tell it the Indians had killed and scalped the officer and his 20 men. This blood made the Sioux ugly, and they were ready for more, and the fight which began about the shooting of one cow was the beginning of a war which lasted for more than three years and cost this government \$20,000,000, to say nothing of the loss of hundreds of lives. I am forced to say that this war could have been -or, anyway, might have been-averted if the officer had acted with any degree of judgment and discretion. '- New York Sun.

QUICKEST CAMERA KNOWN

Machine That Will Turn Out a Picture in 1-600 of a Second.

What is to be the fastest camera in the world is being constructed in Chicago for the Smithsonian institution at Washington. The specifications for this splendid instrument require that it shall be capable of making a successful exposure in one-six-hundredth part of a second, and it is hoped that this speed Our Presses. will be so greatly increased that a good negative may be secured by an exposure of only a thousandth of a second. This marvelous rapidity in photographing has never been approached save by one camera, which is said to have secured a negative by an exposure of one-fivehundredth of a second.

A better appreciation of the marvelous alertness of this mechanical eye is to be gained from the statement that it is capable of catching the image of an arrow speeding through midair while the bowstring is still quivering from the recoil of its propulsive action. The snap of its trigger when its sights are well aimed for an instant on the body of the fleetest game bird in full flight will imprint on the negative a faithful picture. The camera is designed by William Gaertner, who was formerly in the employ of the Smithsonian institution. -St. Louis Post-Dispatch

Visitors Barred From the Sudan.

Many persons have since the reconquest of the Sudan been desirous of making trips of curiosity to Khartum and Omdurman, but all endeavors to do so have been fruitless. The sirdar will allow no stranger to enter the cities. and the government refuses all applications for permission to cross the desert Lord Kitchener is proceeding with the work of planning out Khartum, and by the time that travelers are free to enter the city they will find very little to show them what the city was like in Gordon's day The reason for this action on the part of the government is that the desert is not yet safe for those who have not a military escort. -Cin

THE TROUBLE IN SAMOA.

President Considering a Suitable Man For the Commissioner-A German Official In Washington.

Washington, April 4.—The president and Secretary Hay have been giving consideration to the selection of a representative of the United States government on the Samoan commission. He will not be a member of either the senate or house of representatives, according to present lights. It is probable that the effort will be to find some person thoroughly familiar with the issue likely to be presented in the settlement of this Samoan dispute.

It was conceived here that all that was needful for reforming conditions there and placing them on a basis that will insure a tranquil and satisfactory administration of affairs may be secured through the adoption of some additional articles to the Berlin convention, not even affecting the general principle of the tripartite control.

Many cable dispatches passed between Washington and London in regard to the Samoan settlement. The main point is on determining exactly the extent of authority which the high commission is to possess, Lord Salisbury de siring all uncertain points first cleared up and an exact definition of what the Great Britain. It was said the British government was as ready as the United States or Germany to accept the general A. W. Ross left this morning for principle of commissioners, but it wanted to know in advance as to the power of the commission.

The indications are that the British authorities will give their adherence to the agreement within a day or two, but it is stated that there is still a chance, although a very slight one, that the agreement may not be concluded.

Dr. Solf, the newly appointed president of the municipality of Samoa, arrived here. He came at the request of the German ambassador, Dr. Von Holleben, to talk over Samoan affairs, and was presented to Secretary Hay. He created an agreeable impression.

It was arranged that he should remain in Washington for a few days and during that time he will have an opportunity to confer with the state department officials and relative to Samoan affairs. It is hoped that misunderstandings may be avoided in the future if a perfect comprehension is reached in advance of Dr. Solf's departure. As he had already visited the British authorities in London, the way appeared to be now cleared for such an understanding.

It was said here that Admiral Kautz was fully sustained by the navy department in every measure that he had taken. It was assumed that the admiral acted strictly in accordance with his instructions.

PROPOSED MUNICIPAL OWNERSHIP.

Detroit's Purchase of Street Railways to Be Contested.

DETROIT, April 4.—Governor Pingree and the other commissioners who will negotiate for purchase by the city of for \$250,000 each and took their oaths of office. They sent a letter to the street railway companies stating that the commission is organized and ready for business, and the lines upon which they are willing to negotiate.

Members of a citizens' committee, which is opposing the municipal ownership plan, say that application will be made to the attorney general today to begin a test of the act authorizing the purchase and the proceedings there-

Secretary Gage a Guest.

NEW YORK, April 4 .- Secretary of the Treasury Lyman J. Gage was the guest of honor at a dinner given at Sherry's last night by the directors of the Bank of the Manhattan company, to celebrate the one hundred anniversary of the founding of the company under a charter obtained by Aaron Burr.

Succeeds Rev. Dr. Fox.

NEW YORK, April 4 .- Rev. Alexander McGaffin, now pastor of the Presby terian church in Mt. Sterling, Ills., has announced his acceptance to the pas-

torate of the Second Presbyterian church, Brooklyn, succeeding Kev. Dr. John Fox, who resigned to become one of the secretaries of the American Bible society.

LELAND VERY LOW.

The Proprietor of Burned Windsor Hotel Took a Turn For the Worse.

NEW YORK, April 4.- The condition of Warren F. Leland, proprietor of the burned Windsor hotel, who was operated upon for appendicitis on Sunday afternoon, took a serious turn about 9

o'clock last night, and an hour later Dr. Pitkin was hurriedly called. He at once pronounced the change a very grave one, and advised that all the relatives be summoned.

Mr. Leland's son, Charles W., was already with his father, and a telegram was immediately sent to Chicago for the remaining son. Miss Fannie, the surviving daughter, was also called to her father's bedside. Dr. Pitkin said only a miracle could save the patient's life.

A Novel Hand Car.

J. M. Staton, bridge inspector, and C. E. Powell, supervisor of buildings and bridges, of the Chesapeake and Ohio railroad, accompanied by four bridge engineers, arrived in Newport News recently on a novel hand car, having made the trip on this new device all the way from Cincinnati. The car is operated by an engine, the motive power being gasoline and electircity combined. The engine is of the same pattern as that used in the naththa launches on the lagoon at the World's fair. This peculiar car was built at the Chesapeake and Ohio shops, under the supervision of Mr. Staton, and is the only one in existence. Others will be manufactured at once. - Special New York Tribune.

Smashed a Mountain.

A few days ago a mountain known as the Pico de Comanche, west of Chihuahua, Mexico, was struck by a meteor. and the whole peak was destroyed. The meteor fell at night and was observed by a number of people. It appeared to be an immense ball of fire and descend ed at an angle of about 40 degrees. throwing the entire top of the peak into the valley and following it down. The meteor was of great size and composed of various metals, principally iron which has the appearance of having been melted. A number of people have visited the spot.—Chihuahua (Mexico) Cor. Chicago Inter Ocean.

Soldier Died In Cuba.

WASHINGTON, April 4.-Gen. Brook from Havana reported the death of March 31 of Private Charles McMichael Company G, Eighth cavalry, from ty-phoid at Puerto Principe.

Searching the Sewers.

Paris sewers are being searched care fully for treasure trove, owing to the recent discovery by a workman under the Rue Montmartre of a bundle containing 600,000 francs in securities.

White Expects a Settlement.

LONDON, April 4.—The Berlin corres pondent of The Standard said: "Mr. White, the American ambassador, expressed to me today (Monday) his firm conviction that the whole Samoan question is now in a fair way to a settlement satisfactory to all the powers inter-
